

## REVIVAL SERVICES CONTINUE THIS WEEK

STEPHENS BROTHERS PARTY TO REMAIN HERE ANOTHER WEEK.

WILL CLOSE NEXT MONDAY

Invitations Extended To Them At Close of Services Last Sunday Evening.

The Stephens Brothers evangelistic party will continue the revival services at the tabernacle for another week, closing next Monday. At the close of the Sunday evening service the matter of continuing the meetings was presented by Rev. A. M. Billingsley, district superintendent of the M. E. Church who expressed himself as being strongly in favor of it. A rising vote of the congregation revealed a favorable sentiment sufficient to warrant the Stephens Brothers in remaining here this week. Up until the present time their work has been much interfered with in one way or another. The gatherings incident to the commencement season and other pre-arranged public gatherings have naturally attracted many who would have otherwise attended the meetings. The Reverend Stephens have endeavored to conduct their work so that it would not interfere with any of these gatherings. The hot weather the past two weeks and the street carnival last week also materially effected the attendance.

Sunday evening the tabernacle was filled to its full seating capacity. By request Rev. Geo. T. Stephens delivered his sermon on "Amusements" and handled the subject without gloves. He attacked card playing and dancing, laying particular stress upon the latter. His address was a stirring one and has been the subject of much comment. This week promises to be an active one in these circles. There will be a mass meeting for men only at the tabernacle on Wednesday evening, June 14, at 7:45 o'clock. All men are urged to attend this meeting. At the same hour Wednesday evening there will be a meeting for women at the Methodist church which will be addressed by Mrs. H. S. Stephens.

The following is the order of services for this week:

**GOLDEN WEDDING.**

Mr. and Mrs. L. G. Lawrence, who are among the best known and most highly regarded of the citizens of Dundee, celebrated their golden wedding anniversary on June 2. With one exception the members of their family were all present. A bountiful dinner was served at the Lawrence hotel, and music was furnished by the Dundee band. Mr. and Mrs. Lawrence were each presented with a gold watch by their children and friends. Those from out of town present were Mrs. C. E. Eldredge of Gascony, North Dakota; Mrs. Frank Eldredge of Toronto, Illinois; Mrs. W. C. Norris of Byron, Illinois; Mrs. M. E. Hanson of Waterloo, Iowa; Mrs. Bert Mulkin of Manchester; Mrs. John Smith of Richland township and C. H. Lawrence of Dundee completed the family circle with the exception of Mrs. Maurice Smith of Huson, Washington, who was unable to be present.

Mr. Lawrence was born in Kane county, Illinois, and has lived in Richland township since 1850. His wife, whose maiden name was Castin R. Reynolds, was born in Booneville, Missouri, and came to Richland township in 1847. They were married in Coffin's Grove township June 2, 1861, and have made their home in Richland ever since.

The Democrat congratulates this worthy pioneer couple most heartily upon the attainment of this anniversary, with the hope that they may be spared to their family and friends for many years to come.

## Unreasonable Weather.

Record breaking hot weather was experienced in Manchester a vicinity last week. The whole western country was in the path of the hot wave, the temperature registering in the upper nineties in over a dozen states. The suffering in the cities was intense and many deaths from the heat were reported. A decided change of temperature occurred Sunday afternoon and evening gave us delightful weather again. Owing to the moist condition of the ground and the frequent showers, the hot weather did no damage to crops.

## MILLINERY SALE.

A mid-summer sale reducing the cost of all millinery to the lowest to make room for new goods is advertised by Miss Mabel Sibert in her ad this week.

## WEATHER AND CROP BULLETIN.

The past seven days have been the hottest, and over the larger part of the state, the driest on record for the first week in June. With the exception of Wednesday, the weather was exceedingly hot, maximum temperatures in excess of 100 degrees being recorded at many stations on two days and above 90 degrees at all stations on four days. The rainfall was unusually light and over the southern and southwestern counties practically nil. Light to copious showers occurred, however, in the central and north-eastern counties on one or two days, but the intense heat and high winds caused rapid evaporation and over the western and southwestern districts the effects of dry weather are noted in the pastures, meadows, gardens, potatoes, small fruits and some grain fields. Corn has, however, made rapid growth and except late corn in southeastern districts is looking well; and the fields are clean, most of them having been cultivated twice. The soil is in perfect physical condition, and can stand another week of dry weather. While small grain is heading short, most of it is still in fairly good condition and promises a good crop if rain comes within a few days. The most damaging effects of dry weather have been in pastures, potatoes, cherries and strawberries. Cherries ripened prematurely and the strawberry crop was cut short by drought. On the whole the conditions are still promising, but rain is needed.

## County Officials 15—Types 11.

The feature of the game was the printers at the Main street ball park Saturday afternoon by a score of 15 to 11. While the printers out-played their opponents at every stage of the game, luck and the umpire proved too much for them and they bowed gracefully in defeat. Evangelist H. L. Stephens umpired part of the game. The feature of the game was the fielding and batting of Dr. Bowman.
