EASTERN IOWA WATCHING CEDAR RAPIDS.

"Men and Religion" Eight Day Campaign Coming With Great Force.

The men of eastern Iowa these days are incidentally interested in what is happening in Cedar Rapids, looking forward to the Eight Day campaign of "The Men and Religion Forward Movement", October 22 to 29. Of special interest will be the convention days on the 24th and 25th. Every city and town is asked to send delegates to this convention which is put on in their behalf.

The men who are coming is each one a specialist in his particular line of work. Fred B. Smith, who is one of the leaders of the campaign, needs little said about him. He is a campaign leader, and because of that he is interested in religious matters.

Clarence A. Barbour comes as a preacher to preachers. He will be in conference with the ministers, will be the main speaker during the movement from the preachers' standpoint.

Raymond Robins comes as the specialist on Social Service. Most people in the larger cities in the United States know about Raymond R. Robins—as a man of wealth who lives in the tenements section of Chicago. He has been through numerous strikes, and has devoted his life to social work. He comes as one of the liveliest members of the team. He, having worked out his message in actual life, comes to demonstrate what he has seen and knows.

David Russell, the evangelist from South Africa, comes as a specialist on Evangelism. A great, strong-hearted man, some one has likened him to Dwight L. Moody as an evangelist of unusual force gives a message that strikes home to the heart.

John L. Alexander is the boy work specialist. He is secretary of the Boy Scouts of America, and knows more about boys than any other man in our country.

John M. Dean comes as the expert in Community Extension (work in shops, factories, etc.) He is a man who has been likened to Ralph Connor in some ways of marked ability in his line of work.

William A. Brown is the Bible Study man. He has been the Superintendent of the International Sunday School association, by trade, a printer, later went into the ministry, and has been part of the city life wherever he has worked. In Kansas City, Kansas, he was with Attorney Trickett in the enforcement of the prohibition law. He was recently field secretary of the Young People's "Work of the Men and Religion Forward Movement". He has been associated with the ministry of the Congregational Brotherhood, and his work is outstanding in its power on missionary lines.

If anyone wants to know more about "The Men and Religion Forward Movement" can easily find out not only through the literature published by the Movement itself, but by the periodicals of the October issues some of which are: Boys' World, American Magazine, Everybody's, Century and Harper's Weekly. The Congregationalist of September 23rd and the Sunday School Times of October 15th. The fact that such magazines as these are back of the Movement, means that it has a message.

The convention program begins on Tuesday morning, October 24, at 9:15 a. m.

While his campaign centers in Cedar Rapids, it is for the whole of eastern Iowa. The church that sends its delegates to the convention if possible the whole week, will be set on fire with enthusiasm and will also be given plans of work that will greatly assist every pastor.

During these days, every minister should be putting the emphasis on the men's work in his community whether it be city or village. Literature can be had from the Executive Secretary at Cedar Rapids with full explanation of "The Movement to the men. There ought to be in line some definite organizing for men's work that will make permanent whatever results come to the church from this movement.

John A. Marquis, Chairman.

BOARD OF CONTROL OF STATE INSTITUTIONS. DEPARTMENT OF TUBERCULOSIS.

Red Cross Campaign. Christmas Seals to be Sold Again This Year. Department on Tuberculosis will Handle the Sale.

The state department on tuberculosis will conduct the campaign for the sale of Red Cross Seals this year. An order for a million seals has been placed with the National Association for the study and prevention of tuberculosis and will be used as a method of extending the educational work on tuberculosis. A large number of cities and towns handled seals last year with most gratifying results and it is expected this year the sales of these stamps will be conducted in many more cities and towns throughout the state.

The National Association for the study and prevention of tuberculosis furnishes the seals, requiring but 12-1/2 per cent. of the money realized in their sale and permitting the return of all unsold seals. This allows 87-1/2 per cent. to remain in the community where the stamps are sold.

This department will not realize any money from the seals but on the other hand will spend quite a sum in stimulating their sale. The stamps sell at 1 cent each and are placed on the reverse side of letters and Christmas packages. They are intended for the purpose of raising money to be used locally in the suppression or relief of tuberculosis.

Women's clubs, visiting nurses' associations, charity organization societies and other institutions interested in the combat against tuberculosis, desiring to use this method of raising money to help stamp out tuberculosis and incidentally to bring relief perhaps to some sufferer with the scourge, should communicate at once with the Department on Tuberculosis, Des Moines, Iowa.

This is an all important question with you. Will he manage carefully all that you leave him and add to it, or will he squander it and lose all by mismanagement and lack of business learning?
