Capital and Labor Must be Kept Busy

In the right channels to keep the nation prosperous, National prosperity is the collective result of local prosperity and "confidence" is the mysterious thing back of both. Confidence is necessary in all walks of life to bring success, for without it there can be no future. Our own town needs the confidence of her people. A town is known by its works just as a man is known by his deeds. There's no better way to show your confidence in the town than to be known as a home owner and no quicker way to gain your share of the independence for which our Revolutionary Fathers fought than to own a home. Better start today—come in and talk it over with us—we can give you a good idea of the total cost as well as the kind of lumber you'll need.

You Can't Trust Providence To Guide Your Boy To Fortune

Your boy or girl will have to learn the principles that govern in business and how to conduct systematically the business—be it farm or store or other line of business—you leave them. Because you were denied the advantage of a business education at a time when there were no business schools is no reason for your denying your child—girl or boy—the business education that every other boy and girl receives in this age. It puts your boy and your girl on an unequal footing with the others in this day.

Even though you did not get a business education in your life, you did get an even start with the young man and young woman of your day—they had no advantage of business learning over you.

You owe your boy and girl an even start with the other boys and girls—they will have to help. Providence with sound business sense.

The College of Commerce is the school to give your boy or girl the business training that is due them. No other school is as well prepared. Give them the best—that means College of Commerce.

TERM OPENS MONDAY, NOV. 6TH

All the text-books and blanks necessary to carry on the studies of your boy or girl in our school are not charged for. They are furnished **Free**
