A BIG CUT ON BIBLES!

Several years ago the so called Bible Trust endeavored to put the Independent Publishers out of business. During the fight we secured a contract from the Independents whereby we were enabled to buy Bibles at the same prices that are paid by the largest book jobbers. That contract is still in force and as a result *We are Retailing Bibles at a Lower Rate than Other Retailers Pay for them.*

In other words We are selling Bibles at less Rate than the Wholesale Price.

For instance we have a silk sewed red under, gold edges, flexible leather, cover good type on thin imported paper (that originally retails for \$2.25) that we are selling for

only 95 cents

Same bible with thumb index we sell at \$1.20.

Last Saturday, a lady looking over our line of bibles called our attention to the fact that she recently paid \$4 00 for the same identical bible we sell at \$1.75, and that is the way it is all through the line. We can and do undersell other retailers and we are hardly think we exaggerate when we say you can buy bibles from us cheaper than any other place in the United States.
