

TELLS TAR STORY

KANSAS TEACHER RECITES DETAILS OF ATTACK ON LONELY ROAD.

BODY COATED WITH BLACK

Victim Accuses Barber Who Decoyed Her to Scene of Offending Insects and Leaving Her in Hands of Five Masked Men.

Lincoln Center, Kan.—Mary Chamberlain, thirty-five, who was the victim of a dramatic and revolting attack on her when she was tarred by a number of men at the trial of Edward Ricord and four others before a crowd of spectators that filled every inch of space in the courtroom.

Apparently at her case, Miss Chamberlain answered the questions of the attorneys as to details of the "tar party." Once she became angered at questions propounded by the defense and flashed back a sharp answer, but she quickly recovered her even demeanor.

Her story of the affair was told amid a dead silence in the courtroom, as every spectator leaned forward eagerly to hear her dramatic recital.

Her narrative set forth how Edward Ricord, a village barber, decoyed her into the courtroom on the pretense of going to a dance, his alleged inauspicious and their decision to return home; how when they had gone a short distance a party of five masked men dragged her from the buggy, while Ricord fled, and the subsequent pouring of tar on her body and limbs, while others rubbed it in with their hands; how by this experience she was rendered unconscious and later awoke to find herself being driven home by the companion who had deserted her, and how the tar clung to the body for days.

When the defense had finished its cross-examination the state rested its case against John Schmidt, Sherrill Clark and A. N. Simms, accused of being accomplices in the attack.

The testimony of Edward Ricord, Chester Anderson and Debert Kincaid, who were called to the stand to support the state's case, was largely in the nature of a joke.

Grim details given in evidence have created a generally more serious view of what is now often styled "the county's disgrace."

Ricord told of meeting Sherrill Clark, one of the defendants, on the Sunday following the attack.

"What do you think they will do to me?" Ricord testified he asked Clark.

"If they send you to the penitentiary," the witness alleged Clark said, "Mary will go, too, as I have evidence which will convict her."

"Has anyone told you that if you testified against me I would be sent to prison?" Ricord was asked.

BALKED BY POLICE

OVER 200 WOMEN ARRESTED IN ATTACK IN PARLIAMENT.

Suffragettes Determined to Introduce Resolution Are Dispersed.

London.—The suffragettes of London made their promised assault on parliament and were repulsed by a large force of police, after they had done considerable damage by stone throwing.

For a time the police withstood the attack of the women and prevented them from entering the house of commons. More than 200 women were arrested. There were many minor casualties, the women resisting the police bitterly and forcing them to use their clubs.

Thousands of women resorted to desperate tactics, picking up stones and hurling them at government buildings. Hundreds of persons were struck by the flying missiles, and in some cases injuries were severe.

Hundreds of windows were broken, not alone in the government offices, but in nearby residences.

The situation grew so menacing after the window smashing was begun that the police reserves were called out, and as they came dashing upon the scene in patrol wagons the crowd scattered and inside half an hour had dispersed.

The demonstration was planned against the manhood suffrage bill which now is in a fair way of passing parliament.

STANLEY PROBES SIT AGAIN

House Committee Resumes Its Investigation of the United States Steel Corporation's Doings.

Washington.—Entirely independent of the government's suit to dissolve the United States Steel corporation, the so-called steel trust, the Stanley investigating committee of the house resumed its hearings here and began to examine some of the biggest figures in the steel industry.

It is learned that the committee hopes to unearth sufficient additional evidence against the steel trust to force the attorney general to file an amended petition against this giant industrial concern.

The department of justice has already "stolen their thunder" in filing the original petition and that the Stanley committee is entitled to credit for the action against the steel trust.

WALSH'S WIDOW GIVEN ALL

Chicago.—The will of John R. Walsh was filed for probate. The entire estate is left to the widow, Mrs. Mary L. Walsh, who is named as the sole executrix. The estate consists of \$800,000 in stocks and bonds and a large parcel of real estate, the homestead.

CAN ANSWER CHARGE

JOHN D. ROCKEFELLER INVITED TO TAKE STAND IN STEEL TRUST PROBE.

MERRITTS WERE FROZEN OUT

Oil King's Almoner is Also Bidden to Reply to Story of Alleged Fleeing of Duluth Men.

Washington.—John D. Rockefeller and his almoner, Rev. F. D. Gates of Montclair, N. J., will be invited by the house committee of inquiry into the United States Steel corporation to reply to testimony given by Alfred Merritt and his brother Leonidas of Duluth, Minn.

The Merritt brothers charge that Rockefeller, through Gates as his agent, took them in 1893 \$10,000,000 in Mesaba iron mine and Duluth, Misabe & Northern Railroad securities to satisfy a call loan of \$420,000. These securities were afterward sold to the United States Steel corporation, and are now a part of that corporation's vast holdings.

After Leonidas Merritt had testified that he had gone to New York with \$10,000,000 in securities, had met Mr. Rockefeller and two months later had returned to Duluth on a walk from New York to Duluth on the ties, the steel committee had an executive session.

Previously Chairman Stanley had announced that Mr. Rockefeller would be subpoenaed. The committee decided, however, merely to ask Mr. Rockefeller and Mr. Gates if they wished to appear and to give them an opportunity to be heard.

Leonidas Merritt, on the witness stand, said that he had gone to New York and had an interview with John D. Rockefeller relative to the formation of the Lake Superior Consolidated Iron Mine company, which the Merritts were forming to take care of their mining and railroad interests.

Speaking of the interview, Merritt said: "Rockefeller said he would be proud to be my partner and backer. He also said that he never speculated, and for that reason would not take any stock in the consolidation. He would just keep the bonds in the proposed Lake Superior Consolidated Iron Mine company that we were organizing." Then the Merritts were frozen out.

The committee adjourned, probably not to meet again until after congress convenes, when the objection of the Steel corporation to a continuance of the hearings because of the government suit against the steel trust will be taken up by the full committee.

PRESIDENT OF SANTO DOMINGO IS ASSASSINATED.

Assassins Shoot Him Down as He Leaves House of Friends—Die at U. S. Legation.

Washington.—Ramon Caceres, president of Santo Domingo, was assassinated by political malcontents in San Domingo city, according to reports to the state department.

The American charge d'affaires reports that President Caceres was leaving the house of Leon Vasquez, where he had made a call, when he was shot by two men, Luis Tejera and Jaime Mota, Jr. The wounded man ran to a stable near the American legation, where he was pursued and fatally shot by the assassins.

Canada at the Chicago Land Show

WILL MAKE A MAGNIFICENT EXHIBIT OF GRAINS AND GRASSES, VEGETABLES AND FRUIT.

SHOULD ATTEND THE INTERNATIONAL EXPOSITION.

A carload of grain in straw, grasses and other products of Western Canada arrived at Chicago the other day, and is now installed in the Coliseum, where the United States Land and Irrigation exposition is under way. Those who are interested in the "Back to the land movement" will find in the Canadian exhibit one of the best displays of the agricultural products of Western Canada that have ever been made. There are representative men there, who will be pleased to give the fullest information regarding the country.

The exhibit shows what can be done on the free grant lands of that country and most of the grain was produced on the farms of former residents of the United States who have taken advantage of the homestead lands of Manitoba, Saskatchewan and Alberta.

The vegetable exhibit will attract a great deal of attention, and some marvelous potatoes, carrots, turnips, cabbage and cauliflower are shown. It is true that the homestead area is being rapidly taken up and the bulk of that now to be had lies north of the Saskatchewan river in a portion of the country known as the park district on his own farm.

The crop conditions throughout Western Canada the past year have been generally good, and some wonderful crops of wheat, oats and barley are recorded. The Canadian Government, under whose auspices the exhibit spoken of is being made, is preparing reports on crops in the different Western Canada districts, and while these will not be ready for distribution at the land show commencing on the 18th of November and closing on Dec. 8th, application made to the Canadian Government agent nearest you will bring them to you as soon as they are published.

Another thing that is sadly overlooked by the men who contribute to the Exposition with their stock is the fact that their wives, the heart and soul of the home, and the faithful and constant companions of their lives, have done their generous share and contributed in no small degree to their husbands' successes. Faithfully and uncomplainingly they have devoted their lives to the betterment of their homes and the upbringing of their children, with the fostering care of motherhood. Uncomplainingly they live and abide in the environments of the ranch or farm, and day in and day out, from year to year, they have made the most of their lives in their sister world, save the occasional visit of a female friend. They tenderly prepare for their husbands' annual outings to the great International Show, and lovingly wash their faces and their hair, and are but the pulling of a little wider of the husband's purse to give to these admirable women a taste of the fashions and enjoyments of a week's visit to a great city, as well as to express their appreciation of the efforts which passed upon in the judging ring. Such a trip, apart from the good the change would do them, would serve the purpose of intense enjoyment and interesting conversation on their respective sides, and their husbands would be but the pulling of a little wider of the husband's purse to give to these admirable women a taste of the fashions and enjoyments of a week's visit to a great city, as well as to express their appreciation of the efforts which passed upon in the judging ring.

Physician Advises CUTICURA REMEDIES

"Four years ago I had places break out on my wrist and on my shin which would itch and burn by spells and scratching them would not seem to give any relief. When the trouble first began, my wrist and shin itched like mad and I would scratch those places until they would bleed before I could get any relief. Afterward the places began to ooze and the skin underneath would look red and feverish. Sometimes it would begin to itch until it would wake me from my sleep, and I would have to go through the scratching ordeal again.

My physician pronounced it "dry eczema." I used an ointment which the doctor gave me, but it did no good. Then he advised me to try the Cuticura Remedies. As this trouble has been in our family for years, and is considered hereditary, I felt anxious to try to head it off. I got the Cuticura Soap, Ointment and Pills, and they seemed to be just what I needed.

"The disease was making great headway on my system until I got the Cuticura Remedies which have cleared my skin of the great pest. From the time the eczema healed four years ago, until now, I have never felt any of its pest, and I am thankful to the Cuticura Soap and Ointment which certainly cured me. I have used the Cuticura Soap for toilet, and I hope other sufferers from skin diseases will use the Cuticura Soap and Ointment."

Heathen Nations Invent Nothing. Bishop Thoburn, who has been a missionary in India for 50 years, and knows India better than any other living American, says: "If you visit the patent office in Washington, you will see 600 improvements on the plow. India has not invented one improvement on the toothpick in 2,000 years. The nations without God have no inventive faculty. They are almost universally the same, unenlightened nations of the earth."
