HER NATURAL OCCUPATION.

Now and then the childish command goes forth from the heart of a difficult problem or situation. A little boy who longed to stand on the seat of a car and look out of the window was sternly reproved by his mother. "What a 'frail-can, mamma!' exclaiming another youngster, seated near 'Yes, I suppose she is nervous," was the adult reply, "but then you see, she has to take care of her little boy and it keeps her busy." "Well, isn't that what she's for?" was the innocent, pertinent question.

LOVE SOUS.

Deep heave, sage minds, take life as God has made it! It is a long trial, an uncomprehensible preparation for an unknown destiny. This destiny, the true one, begins for man with the first step inside the tomb. In the meanwhile, love and suffer, hope and contemplate. Wee, alas! to him who shall have loved no bodies, no appearances! Death will deprive him of all. Try to love souls; you will find them again. -Victor Hugo.

PAPER PLATES FOR ANIMAL PETS.

Using paper plates for animal pets will be found to be a good plan. Some people do not take the care to wash their plates kept for dogs and cats, although they should be kept scrupulously clean and be used for no other purpose. Paper plates, which may be bought by the hundred for but little money, may be burned after they have been used. It is also a good idea to have a piece of zinc put on the back porch, where the pets are likely to be fed, and place the dishes on this form. The zinc is easily cleaned.
