

WOODROW WILSON, PRESIDENT-ELECT.

WILSON WINS BY GREATEST MAJORITY IN HISTORY OF THE COUNTRY

Congress Will be Democratic in Both Branches, the House by 125 Majority, the Senate by 8.

Delaware County Carried By Wilson. Iowa Democratic by 25,000. Governorship and Legislature in Doubt, Dunn in Lead. Connolly-Defeats Pickett in Third Congressional District by over 2,000.

At this writing it looks as though Wilson had carried all of the New England states, except New Hampshire, which is in doubt, and Vermont which is for Taft; all of the eastern states except Pennsylvania, which is for Roosevelt; all of the southern and border states, including Maryland, the two Virginias, Kentucky and Missouri; all of the central west, except Michigan, Illinois and Kansas, which are for Roosevelt; and all of the mountain and Pacific Coast states, with the exception of Wyoming and Utah, which are for Taft, and Oregon, Idaho and Washington, which have not been sufficiently heard from to warrant a prediction as to results.

The causes which brought about such a remarkable result are now fairly apparent. For the past ten years we have had insurgent republicans, men who wanted human rights placed first. As a class they hoped to be able to secure desired results without leaving the republican party, but were harassed on all sides by the representatives of the interests that had contributed vast sums to pay the campaign expenses of their party.

In dealing with these party differences Taft could not have blundered worse than he did. The president's

alliance with the old reactionary leaders, his Wisconsin speech in praise of a trust-written tariff, his action in the Ballinger case, and worst of all, his denial of patronage to the progressive wing of his party, made it practically impossible for progressive republicans to support him for re-election. Had the progressive republicans nominated a man like Gov. Hadley of Missouri many democrats might have deserted to their colors, but with Roosevelt as their standard bearer that was not possible. Conditions so troubled that Wilson was able to lead a united party against a divided adversary and the result could not have been otherwise.

The election of Wilson and a democratic house and senate is a great victory for progressive democracy, and progressives of all parties have reason to rejoice. The progressive republicans were weighted in the race by a candidate, whose record, while brilliant in some respects, was a strange mixture of contradictions.

Complete returns will probably take a few more states out of the Wilson column, but the change will not be sufficient to prevent Wilson from receiving the largest vote in the electoral college ever given to a president of the United States.

Wilson will make a great president. He is a progressive statesman, with a broader knowledge of the science of government than any other man in the country; and, better than all else, he listens to his own conscience, and can be depended upon to do the right thing because he could not live on good terms with himself unless he did.

Delaware County.

Wilson carried the county by a narrow margin of 4 votes. The county went republican on Governor by 411, Congressman 420, Member of Legislature by 234. Bunker defeated Davis in a close race for auditor by 66 votes. The democratic candidates, Hennessey, for sheriff and Ribble for superintendent were re-elected by majorities of 287 and 270 respectively, all other republican candidates being successful. The race for coroner was close, Douglas winning over May by 62 votes.

Below is giving a detailed vote of the county by precincts:

High Cost of Living Reduced

Did it ever occur to you that one of the big items in our cost of living is the fuel bill to keep you warm during the long winter months? You can not reduce it by buying cheaper fuel, but you must turn to a heater that PRODUCES MORE OF THE HEAT UNITS, of which a great portion have been wasted in our other heaters. WE ABSOLUTELY GUARANTEE that we will give you 25% more heat with 25% less fuel. NOW, DEAR FRIENDS, it would be folly for us to make such a claim were it not for the fact we have been fortunate in securing the agency of

THE NEW MONITOR RADIATOR, THE WORLD'S MOST ECONOMICAL HEATING STOVE

On Wednesday, October 9th, 1912, we shall have with us one of their representatives, who will demonstrate to you this new heater, and tell you all about it—why and how it surpasses all others. TO ALL THOSE who call at our store during this demonstration we will present FREE a souvenir for the daily use of the ladies at home.

Yours truly,
