**The Queen Cupola**

is bird, rain and snow proof. It isn't only an ornament to your building, but is built on a scientific principle for ventilation, so that, no matter which way the wind blows, there will always be an upright draft that will keep the building well ventilated. It costs less and weighs less than the wooden cupola and as it is made of the best galvanized steel, will never rust or need paint. Call and let us explain its merits.

**Carpenters' Tools**

We have made an especial effort during the last few days to get our stock of thoroughly modern carpenters' tools complete. One scarcely finds a more complete stock from which to make up a kit of tools in the hardware stores in the big cities. Come in and let us show you the line we carry. No man can do satisfactory work with an incomplete set of tools, neither can he do good work with old worn out ones. The building season will soon be at its best, when you will need just the kind of tools we have in stock.

**24 MILES TO THE GALLON IN A BUICK "SIX"**

In a recent test run made by many of the best makes of automobiles the BUICK "SIX" broke all records for mileage to the gallon of gas. In these test runs 24 miles was made by a six cylinder BUICK record never before reached by any car. In these days of high priced gasoline the question of miles per gallon means much to the operator of a car, and it is well to take this fact into consideration when purchasing a car. What is true of the six cylinder Buick is equally true of the smaller sized BUICKS.

LET US DEMONSTRATE ONE OF THESE CLASSY CARS.
