Which Shall it Be?

Do YOU intend to continue laboring, burning valuable fuel and destroying high priced food with that old worn-out cook stove. You KNOW that old stove eats up a lot of fuel each year. You KNOW you have trouble in getting it to bake just right, in fact, spill a batch of bread every once in a while—you know it costs considerable for yearly repairs.

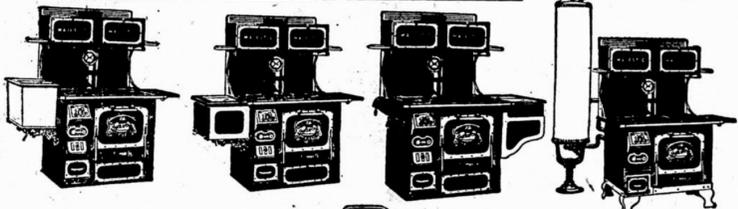

Stop and think and figure. Wouldn't it pay you to buy a good range—a range with a reputation—

The Great Majestic Malleable and Charcoal Iron Range

You make no mistake in buying the GREAT MAJESTIC—it's the range with THE REPUTATION—ask your neighbors. Then, too, it's made just right and of the right kind of material—MALLEABLE AND CHARCOAL IRON—riveted together practically air tight—lined with pure asbestos—parts being malleable can't break—has a movable reservoir and an oven that doesn't warp—that's why the MAJESTIC uses so little fuel, bakes just right every day in the year (browns bread just right all over without turning), heats 15 gallons of water while breakfast is cooking—properly handled lasts a lifetime, and costs practically nothing for repairs.

Don't buy the range you expect to last a lifetime "unsight, unseen;" you'll be sure to be disappointed. Come to our store during demonstration week, see the GREAT MAJESTIC—have its many exclusive features explained—find out why the MAJESTIC is 300 per cent stronger than other ranges, where most ranges are weakest.

Come, if You Intend to Buy or Not

EDUCATION lies in KNOWING THINGS—KNOW why the oven of a range is heated—KNOW how the water is heated—HOW the top is heated—WHY the MAJESTIC uses so little fuel—KNOW how a range is made inside and outside. This education may serve you in the future. DON'T OVERLOOK, a chance to KNOW THINGS shown by one who knows. COME.

Don't Overlook the Date. This is a Special Invitation to You and Your Friends and Neighbors

The Satisfied Boarder.

We are getting tired of the high-brows who tell us we eat too much. When a fellow gets the sort of riddles that are served in our boarding house, nature demands that one play to full capacity.—Houston Post.

To Get Rid of Fleas.

Sand forms the best surface on which to expose garments or bedding infested with fleas. If the sunlight is strong enough to raise the temperature of the sand to 120 degrees the fleas will be destroyed within an hour, provided there is no vegetation or shade where they can take refuge.

A perfume of flowers is wafted gently from the mountains. The sun is new risen and the dew still glistens on the leaves of trees and the petals of flowers. A road like a gray ribbon thrusts into the quiet mountain gorge—a stone paved road which yet looks as soft as velvet, so that one almost has a desire to stroke it—Maxim Gorky.

Marcos Bozzaris 30856

Record, 2:21.

Will make the season at the owner's stable in Manchester, Iowa. Terms—To insure a living colt, \$15.00. Care will be taken to prevent accidents, but the owner will not be responsible for any that may occur.

Marcos Bozzaris is without question the best bred trotting stallion ever brought into Delaware county. He is one of the best bred horses in Iowa. Marcos Bozzaris was sired by the great Nutwood 600, who is the sire of more standard performers than any other stallion living, or that ever lived. The dam of Marcos Bozzaris was Nora Wilkes, second dam of Allerton, 2:09 1-4, was sired by Geo. Wilkes 519, who was one of more standard performers than any other stallion except Nutwood. The combining of the blood of these two great sires accomplishes in breeding the highest ambition of the most enthusiastic breeder of high class horses.

Marcos Bozzaris is a black, 16-3 hands high, weighs 1,200 lbs. His record of 2:21 was obtained on a poor track at a county fair (under the name of Marco Polo), and is far from his speed limit, as he has trotted a trial in 2:16 1-2, and quarters in 32 seconds. He is a good sire, and shows colts that are large, handsome, well finished, pure gaited, speedy, and with the best of dispositions.

This horse took the first premium at the Jones county, Dubuque county and Anamosa District fairs in 1899, against strong competition. He has taken first every year since at the Jones County Fair.
