Skinner preached at Manchester, Sunday. Lamont Brothers shop is billed to appear here on Tuesday, June 20th. Babies are reported at the home of Mr. and Mrs. Mose Bartlett, and Mr. and Mrs. Ritter east of town. Mrs. J. P. Sloan entertained her Sunday school class at a picnic at Hartwick, Sunday. Miss Fern Furman is attending summer school at Cedar Rapids. Mrs. J. W. Swinburne continues to

To the appeal of the KRUMBLES flavor, every appetite is that of a hungry boy. Not merely a new flavor, but a new kind of flavor. No one else ever thought of preparing Wheat just this way and bringing out its full natural sweetness. KRUMBLES—the whole of the Wheat—cooked, "krumbled" and delicately toasted. Take a saucerful of KRUMBLES, with cream or milk. See how new the flavor is—and how pleasing! The longer you chew KRUMBLES the better it tastes. KRUMBLES is waiting for you at your grocer's.

10 cents, in the Kellogg WAXTITE package, which keeps the fresh, good flavor in—and all other flavors out.

Look for this Signature— W.K. Kellogg

be ill at her daughter's home in Hopkinton. Mr. Spaulding and daughter, Effie, of Clinton spent Sunday at the George Freeman home. J. P. Smith, of Oneida, visited friends in town, recently. J. E. Beckner and wife are in Manchester. John Carrol and George Ingles returned from Manchester Saturday, while they are improving in health, it is very slowly. Sam Brandt, of Fayette, spent a few days of last week in his Greeley home. A Test of Friendship. Just before Artemus Ward's death Robertson poured out some medicine and offered it to the sick man, who said, "My dear Tom, I won't take any more of that horrible stuff." Robertson urged him to swallow the mixture, saying, "Do, now—there's a dear fellow—for my sake. You know I would do anything for you." "Would you?" said Ward feebly, grasping his friend's hand for the last time. "I would indeed," said Robertson. "Then you take it." Ward passed away a few hours afterward—"Recollections of the Bancrofts." A Legal Query. Tired of the long winded oratory of the attorney for the defense, the judge interrupted him. "Mr. Sharke," he said, "may I ask you a question?" "Certainly, your honor. What is the question?" "Language," said the judge, "we are told, is given to conceal thought or words to that effect. Inasmuch as you don't seem to have any thought to conceal, I would like to know why you are talking?" NOTICE OF PETITION FOR ADMINISTRATION. In District Court of Iowa in and for Delaware County. May Term, 1915. In the matter of the estate of Bridget Morrisey or Bridget Brady, Absentee. Notice of petition for administration on estate of Absentee. Elizabeth Wheeler, a grand niece, age about 22 years, of Cedar Rapids, Iowa; Madge Comp, a grand niece, age about 21 years, of Ponda, Iowa; Cora Baker, a niece, age about 43 years, of Maxwells, Minnesota; John H. Morrisey, a nephew, age about 41 years, of Salsburg, Illinois; Clara Van Stone, a niece, age about 33 years, of Minneapolis, Minnesota. You and each of you are hereby notified that there has been presented to said court and is now on file in the office of the clerk of said court, the petition of Ellen C. Smith, duly verified, alleging that said Bridget Morrisey, or about the year 1852 resided with her parents at Goderich, Ontario; that in the month of June 1882 her father, John Morrisey, died and she, the petitioner, thereafter the said Bridget Morrisey, left her mother's home and went to live in London, Canada; that about three years after the death of the said John Morrisey, his said daughter, Catherine Morrisey, and all of her children, excepting her said daughter, Bridget, moved from Goderich, Canada, to Michigan and about the year 1885 they moved from Michigan to the State of Iowa; that the mother and brothers and sisters of the said Bridget Morrisey, heard indirectly that she had moved from Canada and thence to Iowa and married a man by the name of Brady, but they were never able to verify this report; that since the year 1882 she has heard from her mother or her sisters on several occasions they wrote letters and tried to find her; that she, the petitioner, Bridget Morrisey, or Bridget Brady, may have followed her said family from Canada to Michigan and then to Iowa and been unable to locate them. That on the 21st day of December, 1914, Catherine Cummings, a sister of said Bridget Morrisey, or Bridget Brady, died intestate leaving as known heirs at law all of the above named persons, and as the petitioner believes the said Bridget Morrisey, as her only heirs. That the said Bridget Morrisey, or Bridget Brady, if she survived her said sister, Catherine Cummings, would be the owner of a one fifth interest in the property belonging to the estate of the said Catherine Cummings deceased. It is further alleged in said petition that the above named parties to whom this notice is addressed are the legal heirs of said absentee, if she is dead, so far as known to petitioner. That the total value of the personal property owned by said decedent in the state of Iowa does not in any event exceed the sum of One Thousand Dollars. Said petitioner prays that administration on estate of said absentee be granted, and that she, said petitioner, Ellen C. Smith, be appointed administratrix of the estate of said Bridget Morrisey, or Bridget Brady, the same as though she were known to be dead. You are further notified that the Court has fixed the 6th day of October, 1915, being during the regular October term, 1915, of said Court, to be held in Iowa, as the time for the hearing of the petition, and that the petitioner will hear the proof that may be offered to sustain said petition, and if satisfied of the truth of the facts set forth therein concerning said absentee, will order letters of administration upon the estate of said absentee to issue to said petitioner, published and having general circulation of said county of Delaware, and that personal service thereof be made on all persons to whom this notice is addressed in the manner and for the length of time as is required for the service of original notices, proof, of which service shall at the expiration of the period indicated above, be filed with the petition in said cause. The foregoing notice was prescribed by order of the Court on the 23rd day of June, 1915. Witness my hand and the seal of said Court hereto affixed this 23rd day of June, 1915. A. O. STANGER, Clerk of Said Court.

Royal Grinders. TOOL GRINDERS have replaced the old fashioned grindstone and oilstones. Every mechanic should have one of these grinders. The ROYAL is equipped with an attachment for sickle grinding which fills the bill for the farmer. Let us demonstrate this machine to you. The price is so small that you cannot afford to take the time to grind your tools in the old fashioned way. The price of this machine is \$6.50. Hutchinson & Atwater

\$100 Reward, \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known. It is a medical preparation which acts directly on the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient relief. It is a constitutional disease, and requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous
