## A Woman Gives Out Important Secrets

Madame Langford, well known beauty specialist, in a recent interview told the secrets of her success in improving the complexion. She says: "The average man has a better complexion than woman of same age—men use lots of soap and water in shaving and the massaging necessary prevents wrinkles, etc. Women are too apt to depend on a casual washing with cold water, then try to cover up defects with powder and rouge and this makes the complexion worse. She must give the skin careful attention at night—sleeping with powder, dust and grime of the day on the face will soon cause the finest skin and cause various complexion troubles. Use a soft wash cloth, rubbed on Velveta Complexion Soap and warm water, and after cleansing—the soft, oily Velveta Massage, using an upward and outward movement with the finger tips, working out impurities from the pores of the skin. This treatment soon produces marvelous results. Then in the morning, apply Velveta Vanishing Cream and Velveta Face Powder to protect the delicate surface of the skin from the sun and wind and this gives the whole secret of a perfect complexion for women. —Adv.

**CHICAGO AVIATOR TELLS THRILLING STORY.**

"So far every boche that has come over has never returned."

"I saw the battle in which Lufbery lost his life."

These are excerpts from a letter written by Aviator Walter Flannigan to his father, Charles Flannigan, 1955 South Trumbull avenue, formerly a police sergeant but now connected with the Federal Reserve bank in Chicago. Young Flannigan before going to France six months ago received his training at Kelly field with the Ninety-fourth aero squadron.

"Lufbery was attacked by an armored machine carrying five machine guns and a one-pounder," he writes. "His machine was riddled with incendiary bullets and took fire. Lufbery made a great fight but finally jumped from the machine at the altitude of 3,500 feet. He landed in a garden of flowers and the woman that lived there recognized him and placed lighted candles about his body. He was not badly smashed by his awful fall, although his face and head were badly burned. To date we have lost four pilots but have brought down nineteen machines. Eddie Rickenbacker is a pilot in our squadron."

**Three Boches to His Credit.**

"Rick" has three boches to his credit and will no doubt make a record for himself. Capt. N. Hall of our squadron was wounded and landed in Germany. The German flyers dropped a note telling us he was only slightly wounded. Lieut. Campbell is known as "Dead Shot Dick" as he is certainly bringing the kaiser boys down. Our flyers are just beginning to tear into the Huns and believe me in about two more months they will be as thick as swallows about a country here.

"The English speaking German prisoners are placed in our sector and they certainly tell some awful stories of hardship in Germany. A German captain that was captured was astonished beyond words when he saw the American boys in such great numbers. He said that the people of Germany are told that only a few Yankees are in France and that the troopships of the Americans are all being sunk by German submarines, that New York has been taken and that the German army is marching on Washington to take President Wilson prisoner. He said when the people in Germany learn the way they have been deceived there will be a worse revolution than was experienced in Russia.

**Spare Time Well Spent.**

"Our spare moments over here are well spent. We were entertained for two and a half hours by Elsie Janis the other evening in one of the big hangars. Tell my German friends that it pains me to fight their relation just as much as it does a little boy to swallow ice cream cones.

"By the way, ice cream cones are an unknown quantity over here. We are eating well, get fresh meat and everything down to sweet cookies. We are even getting real American coffee and canned cream. How is that for our old Uncle Sam? I am willing to wager that we will have chicken on the glorious Fourth of July. Well dad, old pal, keep a stiff upper lip, one American can lick six heinies, and as we are just getting ready to dash into Germany. Watch our step. We will have old Kaiser Bill in the zoo in Lincoln park by this date next year."

**Casadepega Head.**  
This remarkable looking rock is known as a schist which is weathered and crumbled into a human expression which is startling. Not only is there a distinct resemblance to a man's profile but the head is apparently dressed in a periwig of the style of the last century such as the soldiers of Cornwallis wore. The rock is located on the top of a 2,000-foot hill on Seaward peninsula, Alaska, and is called by the natives the Big Head, or the Casadepega Head. The face is about eight feet high.
