### A Woman Gives Out Important Secrets

Madame Langford, well known beauty specialist, in a recent interview told the secrets of her success in improving the complexion. She says: The average man has a better complexion than woman of same age—men use lots of soap and water in shaving and the massaging necessary prevents wrinkles, etc. Women are too apt to depend on a casual washing with cold water, then try to cover up defects with powder and rouge and this makes the complexion worse. She must give the skin careful attention at night—sleeping with powder dust and grime of the day on the face will soon coarsen the finest skin and cause various complexion troubles. Use a soft wash cloth, rubbed on Velveta Complexion Soap and warm water, and after cleansing—the soft, oily Velveta Massage, using an upward and outward movement with the finger tips, working out impurities from the pores of the skin. This treatment soon produces marvelous results. Then in the morning, apply Velveta Vanishing Cream and Velveta Face Powder to protect the delicate surface of the skin from the sun and wind and this gives the whole secret of a perfect complexion for women. —Advt.

Hunting trouble is too fashionable in this world. Contentment and jollity are not cultivated as they should be. There are too many prematurely wrinkled, long and melancholy faces among us. **Cure for Dysentery.**

"He told me in detail of what it had done for his family, but more especially his daughter who was lying at the point of death with a violent attack of dysentery, and had been given up by the family physician. Some of his neighbors advised him to give Chamberlain's Diarrhoea Remedy, which he did, and fully believes that by doing so saved the life of his child. He stated that he had also used this remedy himself with equally gratifying results." For sale by A. C. Philipp.
