asked if it hurt her; said, "She looked in my eyes, and looked in my ears, and then she took a board and looked in my throat."

PROTECTION FOR MOTORISTS IN PURCHASING STARTING BATTERIES.

When it comes to buying a storage battery, the average motorist has to take a lot on faith.

However, there are two safe rules to follow which, if strictly adhered to, take all the uncertainty and guesswork out of buying a battery, placing it on the firm foundation of demonstrated facts, thus insuring complete satisfaction.

The first rule to be observed is to inquire carefully into the reputation of the company manufacturing the battery under consideration, and the second is to find out what service it has rendered other motorists.

Thousands of motorists have solved their battery troubles for all time by applying this test to "Exide" Batteries, and in every case the results have been

entirely satisfactory. For in the first place, the "Exide" Battery is made by the Electric Storage Battery Co., the world's largest makers of storage batteries for every purpose. It is backed up by the skill and knowledge resulting from thirty-two years of manufacturing and engineering experience. And secondly, it has been the universal experience of "Exide" users that this battery is as good as human skill can make it.

Experience has shown that "Exide" Batteries, owing to their compact, simple, rugged construction, require the minimum of attention and repair, but when adjustments are necessary, motorists have learned that "Exide" service meets their needs in a broad-minded, liberal and efficient spirit that is unique in the annals of the automobile industry. This service is at the command of EVERY motorist in the country—no matter where he lives and irrespective of the make of storage battery he uses.

Webster City, Iowa, April 25th, 1920.

To Whom it may Concern:—I suffered with a flatulose for several years. If any one knows the horror of a flatulose, knows the entering the disagreeableness of it. I called and saw Dr. Shallenberger, the Chicago specialist, and he cured me without using the knife and did it quickly. Write me if you like as I can recommend him. I know of others that he has treated successfully.

Yours Truly,
 EDWARD POLLOCK.

Billy Duggan, who has been in Mercy hospital for five weeks, after undergoing a severe operation, returned to his home last week.

Mrs. Will Fleming came from her home in Cedar Rapids to visit with her sister, Mrs. James Sullivan.

HEALTH NOTES.

A very interesting experiment is being tried out in the third grade, east building at Charlton, Miss Mary White teacher.

The children are getting one half pint of milk just before recess each morning. An accurate record of each child's weight has been kept. The total gain for twenty-two children has been thirty-five pounds, making an average of 1.5 pounds per child.

Parallel to this record is that in the south and west schools the children are not served milk. The total gain for the third grade of 8 children was 3 pounds, making an average gain of .4 pounds per child while in the west school the total gain for 17 children was 7 pounds or an average gain of .4 pounds per child.

Miss White reports that there has been marked increase in scholarship of some of her children. The milk will be continued through the month of May and at that time we hope to be able to give out a still more interesting report.

Purchasing milk at 15c per quart, the cost per pound of gain would be about 65c which is a cheap price considering that it means added health and intelligence.

It is to be regretted that this must be an experiment that all the children cannot be given the milk ration. Parents should note these results of milk fed children, and Charlton's milk fed children will soon be world beaters.

Nurse weighing children to Teacher: "Eight too much." Miss Brown to the child: "O, you ate too much!"

A little girl, leaving the room where the nurse was making inspection, was

THE HOUSE OF KUPPENHEIMER CLOTHES

THE CORNER STORE - MANCHESTER, IOWA

Making Fortunes In the Texas Oil Fields

A girl who is attending business college in Fort Worth invested \$150 in oil stock. It was the remainder of the insurance left by her father, who had recently died. After three months the \$150 had become \$500.

A team driver heard of the Fowler well. When he received his month's salary he took \$30 of it and bought three shares. He sold for \$3,600.

A man lost his position last summer. He bought a ticket to the oil fields. It cost him \$10. He started to sell stock and from his very first sale he got money enough to invest himself. Today he is worth \$300,000. To get that money he put up \$10 of his own.

A shoe clerk who works in a local store asked W. G. McIntyre to invest \$60 for him in oil. That was the nucleus of the sum that now amounts to \$6,000. He is still fitting shoes and investing in oil stock.

The Good Fairy has indeed been good to the soldiers. At Camp Bowie there was a group of officers who threw in their money to buy oil stock. The Bowie Fool. They reaped a good harvest.

There is a stenographer who lives here who did not have any ready money which she could invest in oil stock. She bought a share with a Liberty Bond. She sold it for \$1,000.

In Eastland County a family managed to eke out a bare existence from a farm which had been bought on credit. The man tilled the soil. It was barren. The wife took in sewing. They contrived to pay off the debt, after many years. Today they have a most beautiful home in Mineral wells.

A manicurist was told of the wealth to be obtained in the Texas oil fields soon after the first bit of news was spread. She took \$100, which she had saved from her salary, and offered to "gamble" with it. Within six months the \$100 had multiplied to \$6,000.—From Jackson Daily News.

THINK AND WIN.

If you think you're beaten, you are;
 If you think you dare not, you don't;
 If you'd like to win, but think you can't,
 It's almost a cinch you won't.
 If you think you'll lose, you've lost,
 For out in the world we find
 Success begins with a fellows will—
 It's all in the state of mind.
 If you think you're outclassed, you are
 You've got to think high to rise;
 You've got to be sure of yourself
 Before you can win a prize.
 Life's battles don't always go
 To the strongest or the fastest man,
 But soon or late the man who wins
 Is the man who thinks he can.

Henry Goodhile
 MANCHESTER, IOWA.
