CHAUTAUQUA
Manchester - - June 13-18

Mr. and Mrs. Chas. Barr visited at Sam Culbertson's Wednesday.

The strawberry beds are all looking fine, they are white with blossoms, and the gooseberry and currant bushes, and also the apple trees are just loaded with blossoms. There is a good prospect for fruit of all kinds, at the present time. If we can only get sugar it will be all right, which we all hope we can.

Mrs. Belle Mellen has gone to Oklahoma, to visit her daughter.

Mrs. Kate Boynton is still very ill, with very little change for the better. Elmer Bruce shipped a car of stock to Chicago, recently.

A Lesson Unlearned.

"It may be true to say that the only way to get happiness is to give it, yet a lot of people don't seem to have learned it."—Forbes Magazine.

Famous Small Bells.

The source of the dinner table "call bells" is not always traceable. Some come from old churches, where they have served as altar bells, especially those that have Latin quotations on the medallions on the sides of their cup-shaped gongs. Those that represent famous personages are after the fashion of the period in which their deeds made them familiar figures in the public eye. Some are patterned after the bells in certain famous chimes—like the copies of bells from the famous Miller collection in California.

Treatment of Common Colds.

"If all who catch cold could be persuaded to remain in bed for the first twenty-four hours of such an attack" says a well known physician "there would be fewer cases dragging on with distressing symptoms for weeks and often ending in some more serious disease." To make sure of a prompt recovery you should also take Chamberlain's Cough Remedy. Whether sick or well the bowels should move each day.—For Sale by A. C. Phillip.

Temperature Important.

Lead is said to act like steel at ordinary temperatures in liquid air. It will serve as a helical spring, for example. This behavior of soft non-elastic metals is very interesting. It shows how very important temperature is. Just as iron is soft and inelastic at a high red color, so lead is dull and soft at ordinary temperatures, for it is well on its way to be melted.

Peculiar Superstitions.

No one can give any reason why a horseshoe is considered lucky. The original belief was that it kept out witches. A novel wart cure is the placing of a number of pebbles in a bag, corresponding with the number of warts. The warts are supposed to disappear when the bag is thrown away, and the person who finds the bag is expected to find the warts as well.

Why Dog's Nose is Cold.

Tradition gives a droll explanation of the ever-chilly nose of the canine: Noah had some anxious and annoying moments when he was trying to coax the animals into the ark. They ran hither and thither and gave him no end of bother until he had a dog chase them, making them go where they belonged. Attending strictly to his duty and not giving up until the last pig and hyena were safely inside the ark, the dog himself was the last to get aboard. So he was obliged to squeeze himself in with his nose in the water during the whole of the voyage, an adventure that has made the noses of his descendants cold and wet forevermore.

New Mexico - The coming Oil Field of the Country.

When investing in oil, just the same as in any other business, one must remember to start in on the ground floor and build from the foundation up.

LEASES, the foundation of the oil business. Without leases it would be impossible to produce one barrel of oil.

Read what the purchase of a lease brought to Mr. H. Phillip. Mr. Phillip, who was a traveling salesman for the Hamilton-Brown Shoe Company, went to St. Louis a short time ago, from his home in Ft. Worth, to resign his position as salesman, explaining that this was necessary in order that he might devote his entire attention to his OIL interests, which are now worth \$700,000.

In explaining his good fortune, Mr. Phillip said he was calling on a customer at Ranger, Texas, in September, 1917, when the man told him of an interest in A LEASE, which could be bought for \$133.33. Phillip purchased the lease, and stated that it was just a case of buying a lease, toward which other companies came with their drills, proving the territory, and increasing the value of his lease to its present extent.

Investment is the stairway to independence. A 40-acre lease, surrounded by wells now being drilled, offers just such an opportunity. Don't wait and wish you had, but have the courage of your convictions, and do it now.

Longfellow in Westminster Abbey. Among the memorial tablets or statues in Westminster abbey stands a bust of Longfellow, the only American who has been so honored.

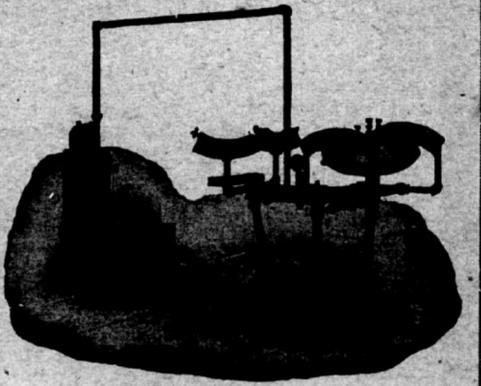

Near Enough. A certain retired British colonel told a story of a dusky bishop who once went to a function in town. He gave his name to the funky as the bishop of Honolulu, but the man failed to catch it, and believing that in the case of a negro bishop all things were possible, announced him as "the bishop of Hallelujah."—Exchange.
