

To Keep American Ships on the Seas

For the first time since the Civil War we have a real merchant marine. It cost us \$3,000,000,000 to get it.

The farmer, manufacturer, laborer—every American is interested in holding our position on the seas.

As a first step in this direction it is necessary to modify those articles of existing commercial treaties which have operated to thwart the upbuilding of our merchant marine—

By giving the notice of termination for which the several treaties provide.

This action is directed in the constructive Shipping Bill now before Congress;

Which declares it to be the policy of the United States "to do whatever may be necessary to develop and encourage" a merchant marine.

This policy deserves the support of every American.

Lacking this support the present effort to maintain our merchant marine may suffer the fate of many ineffective attempts of the past.

Send for a copy of "For an American Merchant Marine."

Committee of American Shipbuilders
30 CHURCH STREET, NEW YORK CITY

DELAWARE.

Quite a number from here attended the Ladies Aid at the John Swanson home at Barryville, Thursday, proceeds \$9.00.

Mr. and Mrs. Geo. Goldsborough of Dundee, were Sunday guests of Mr. and Mrs. L. P. Fleming.

Danny Perason of Waterloo, came down Wednesday, and his sister Effie drove to Dundee to see their sister Agnes Battin.

Mrs. Enos of Manchester visited her friend Mrs. J. M. Kingsley, Thursday. Roy Haven is on the mumps list this week.

Levi Kaster was a business caller in Dubuque Saturday.

Mrs. H. L. Rann and children were Wednesday afternoon callers at the Frank Schmook home.

Mr. and Mrs. Oral Rowe of Oelwein were Sunday guests at the L. D. Knight home.

Dr. Fred Howard was called to see Oscar Lehman Monday morning, Mr. Lehman having been badly kicked by a cow, but last reported he is getting better.

Sunday evening during the electric storm, the hog house on the Mrs. Mary Kellog farm was struck by lightning and set on fire, but was noticed in time to save the building.

Mr. and Mrs. Ed Angier of Loup City, Nebraska, are visiting at the L. D. Knight home.

Kirk W. Kingsley was born in Syracuse, New York, November 24th, 1838, and passed away at his home in Strawberry Point, on May 31st, 1920. His boyhood was spent in Syracuse, where he attended the High School and the Hamilton Academy, and taught in the common schools in the neighborhood.

In 1862 he became a resident of Delhi, Iowa, where he read law for a time in a law office, and taught in the Delhi school. In 1864 he enlisted in Co. 14th, Regiment, Iowa Volunteer Infantry. He was mustered out of the service in the fall of 1864, and began teaching in the public school at Earlville, and afterwards in Delaware, in 1864, and his brother A. O. Kingsley built and operated a cheese factory in Delaware, it being the first in the state, which they conducted for several years in connection with a farm. In 1869 he became principal of the Strawberry Point High School and organized the first grade school in the place. He was a very successful teacher and a thorough educator, and his efficiency was appreciated by his pupils. In 1876 he moved to Strawberry Point and entered into partnership with his brother in operating creameries. In 1884 they built the Kingsley block and the Opera House and in 1892 they entered into the mercantile business, in 1898 they retired from business. He leaves to mourn his loss his wife and one daughter, Mrs. Carrie Slagle of Algona. He was a very courageous man who did much in helping to build up industries and was one of the leading business men and also took an interest in public affairs. In early life Mr. Kingsley accepted Christ and was a member of the Congregational Church and was held in the highest esteem by all who knew him. His numerous friends will miss him in many ways. Funeral services were held at the home, conducted by Rev. Smith, and was attended to the Strawberry Point Cemetery by a service of the American Legion. Our sympathy is extended to the bereaved wife and daughter.

THE ANSWER

By FLORENCE BURRILL.

(© 1920, by McClure Newspaper Syndicate.)

Neil Mackenzie was the biggest, broadest lad in Winsbury, with the crispest dark hair and the clearest blue eyes. He had that combination of strength and boyishness which women love, and could easily have been very much of a ladies' man had he not been as bashful as he was hand-

some. Girls adored his lithe virility, and he received an early invitation to all of the Winsbury merry-makings. But the presence of the other sex invariably turned Neil from a living, laughing Hermes to a frozen statue. And to make things worse, he was very much in love with Cecily.

Cecily was a wee bit of a lassie, honey-colored as to hair, violet-hued as to eyes, apple-blossomy as to cheeks. A pretty air of dignity tried to contradict her little-girl figure, and she was, according to an enthusiastic friend, "just sweet!" And if she had the appearance of a tinted marble Venus she must have had some of the attributes also, for none of the many suitors Winsbury and other towns offered had made the slightest impression on the cool little heart under her dainty nose. She accepted their devotion graciously, was the merriest and most fun-loving of the younger set, but always with a fastidious reserve that let none farther than the rest.

That is, until Neil began shyly to show his heart. With him she never acquiesced, his invitations she never refused, toward him she showed a sweet and simple liking; and soon the big, dark lad and the small, flowerlike girl were seen together very often indeed setting out for a country walk or drifting through the rhythm of a waltz.

But this very friendship puzzled Neil. It was so different from her treatment of other lovers; and it never occurred to him that her feeling for him might be different also. To his mind her laugh was the most joyous thing on earth, and herself the dearest. But he feared to tell her lest it end their friendship; so they were pals through the sparkling January days and the wistful April ones, with no hint of anything deeper.

When June came he could stand it no longer. He decided to take the big chance, tell her, then if she couldn't marry him, go where his profession of engineer promised success. How should he ask Cecily? He never could bare his heart with those purple eyes of his; a letter was so impersonal and cold; there should be no third party's blundering, and these were the only orthodox methods of proposing, un-

less—

Neil rushed to the nearest music store, purchased a blank record and had it on the victrola at home before the glow of the wonderful inspiration had time to dull. Into the little disk he spoke his love—straightforward, yearning, tender, as he could never have expressed it to her in person. Visioning a star-eyed girl in the shadows, he told how he cared for her with the simple, honest love of a clean heart, how eager he would work to make her happy; but if she didn't, couldn't love him, she was not to feel the least bit grieved nor blame herself at all, for how could a girl like her love a great, clumsy thing like him? "Oh, please let me know as soon as you can, dear; and if it is 'no' there is a position waiting out West, where work will keep me a man. When your answer comes I shall either telegraph that I cannot accept—or start at once. Oh, Cecily, Cecily, shall I stay?"

The tiny parcel which meant so much in life and hopes of Neil Mackenzie was dispatched by special messenger, and an anxious boy faced the hours that must pass before an answer came. He could see Cecily receive the record and run merrily to try it through at once, as she always did a new one; he could see her look of amazement—but there his vision failed. Did her face grow tender or sad or frightened?

Scarcely two hours had gone before a ring at the doorbell revealed an other messenger boy with a parcel. Mackenzie tore it open and found—just his record.

He slipped the record into place and started the machine. How strange to hear his own tones! He smiled, half-sadly and half-whimsically, at the passion of the words. The plea came to an end: "Oh, Cecily, Cecily, shall I stay?" The needle whirled noisily several times. Then clear and vibrant in the voice of his sweetheart came the answer she had spoken into it: "Yes."

Use for Persimmon Juice.

Persimmon juice improves the palate used on the bottom of a ship, or the roof of a house. In Japan it solved the problem presented by the failure of western house paints to last satisfactorily in the Japan climate. It was only quite lately, however, that western countries had shown any interest in this Japanese product. Now that a beginning has been made in using it to mix enamel and white lead, a foreign demand has begun which is expected to increase to large proportions.

Linked Oceans Long Ago.

The Panama canal is one of the modern wonders of the world, but the Royal Mail company organized transit by mules and canoes across the Isthmus as far back as 1848 and partially financed the Panama Railway company in 1850.

Screw Is Modern Invention.

Shears were invented in 400 B. C., the "snuffers" referred to in Exodus having been merely a small knife with a pair of tweezers to trim the wicks of lamps, with a point to part the strands. The screw was a Greek invention, and greatly used by the Romans as a means of producing motion. Centuries passed, however, before the nut and screw, for fastening, was invented. The common screw came into use less than 200 years ago.

Cement

We have a large stock of cement on hand at the present time and would suggest that you lay in your supply for such building operations as you may figure on doing this season.

Cement will be in great demand this year, and may be hard to procure later in the season. We handle only the best quality of cement, and at prices that are right.

Here Are The Things That Make Housework Easier

THIS week we are making a special display of the Household Utilities which help so much in housecleaning.

- VACUUM CLEANERS
- Carpet Beaters
 - Curtain Stretchers
 - Clothes Lines
 - Clothes Racks
 - Mops
 - Brushes
 - Tack Hammers
 - Screw Drivers
 - Furniture Polish

Come in and pick out the helpful Utilities you need.

HUTCHINSON & ATWATER
THE WINCHESTER STORE

Dr. Wilbert Shallenberger

The Regular and Reliable Chicago Specialist will be at
HOTEL CLARENCE, Manchester, FRIDAY, JULY 9TH.
Visit 243.
Hours from 8:30 a. m. to 5 p. m.
One day only and return every Twenty-eight Days
Consultation and Examination free and strictly confidential.

Dr. Shallenberger is an eminently successful specialist in the treatment of Chronic Diseases. He has long established reputation, resulting from his large practice and extensive hospital experience, which has made him so proficient that he can name and locate your disease in a few minutes. He has successfully treated many of the most difficult cases of chronic diseases of men and women. That is why his patients have spread widely and continued his visits year after year, while other doctors have made a few visits and stopped.

Dr. Shallenberger treats diseases of the Eye, Ear, Nose, Throat, Lungs, Heart, Blood, Skin, Nerves, Liver, Stomach, Intestines, Kidneys and Bladder. Consumption in an early stage, Catarrh, Ringing in the Ears, Deafness, Paralysis, Eczema, Scrofula, Appendicitis, Gravel, Rheumatism of joints and muscles. Also treats diseases of women scientifically.

FILES CURIED WITHOUT KNIFE
Fistulae and other rectal diseases treated without surgical operation.

Surgical Cases and Rupture Given Special Attention.
NERVOUS DISABILITY
Are you nervous and despondent; easily excited and irritable; weak and debilitated; tired mornings without ambition, energy, or strength; lifeless easily fatigued; distrustful and without confidence in yourself? Have you sunken, red or blurred eyes; pimples on your face; weak back or deposit in urine?

PRIVATE DISEASES A SPECIALTY
Cases of long standing especially desired. Wrong treatment and incorrect diagnosis have often resulted in the worst afflictions. Varicocela, Hydrocele, Blood Poison, Syphilis, Unnatural discharges, Emissions, Defective Memory, which ruin body and mind. It is highly important you obtain the services of a physician who has established a good reputation for treating these diseases.

Dr. Shallenberger has made years of study of Private Diseases of men and women. He knows and uses the most scientific methods of treating them. Hundreds of women suffer untold agony with diseases which have been neglected or unskillfully treated.

WONDERFUL CURES
Have been made by him. You should consult him if you have any chronic disease. A Specialist who has made a lifetime study of such diseases is certainly prepared to give you the best remedy and if you are sick, you need scientific treatment.

Dr. Shallenberger spares no effort to cure his patients. He knows that good results mean as much to him as to the patient. Most of his new patients come through the recommendation of others whom he has treated.

He prepares nearly all his medicines from his own special formulas, and uses nothing but pure drugs.

Consultation and Examination Free and Confidential.

Let Me Explain Why I Represent the

"Exide" Starting & Lighting Battery

First. I am firmly convinced that the "Exide" Battery is all that the manufacturer claims it to be, in every detail a quality product.

Second. I can sell the "Exide" Giant to my customers and feel satisfied that they are getting a battery which will give them the nearest to 100 percent service which it is possible to build into a starting battery.

Third. I know that the thirty-one years of specialized storage battery building experience that is built into the "Exide" is proof positive that it is the right battery, in every sense of the word, for your car.

Fourth. I know what the "Exide" Battery has accomplished for hundreds of thousands of car owners the country over. It will accomplish the same for you—"A Sure Start Assured."

Let's Talk It Over—Learn How "Exide" Construction Differs

"Exide" Battery Service

meets any need of any starting battery. If it is a question of a simple test or difficult repair, recharging or rebuilding, "Exide" Battery Service is available. "Exide" Battery Service is founded upon the same quality basis as the "Exide" Battery: its one real purpose is to provide for the individual need of every individual user of any starting battery.
