Catarhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation is removed, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All Druggists.

Farmers, Attention!

Please call at our show room and see the line of I. H. C. feed grinders. The grinding of your feed will mean a saving of 12 to 26 per cent. in food value. You know from your own experience that when feeding whole corn or oats to your stock a large portion of it is not digested. Farmers have found that by grinding the feed that their stock was heavier and in a more healthy condition. Cows produce more milk, steers grow fat quicker, and similar results can be had by feeding calves, pigs, and other livestock a goodly portion of well ground feed. This feed grinder grinds corn on the cob, shelled corn and small grains. The grinding plates are double faced, reversible, and interchangeable. The running and stationary plates are both the same and there is a cutting plate that assists in cutting the cob.
