What way will you honor

Your Mother

On Mother's Day, May 8th?

Here is the way to honor her in a wonderful manner. We make it easy for you to present her with a gift that will bring constant pleasure—not merely for a day. She will be thrilled at your thoughtfulness and delighted with your choice of a remembrance. And, since it is a surprise, the day will be all the more delightful.

Mothers' Day Club— A Brunswick Idea

We've organized a secret society amongst sons and daughters—a conspiracy of happiness. And we call it Mothers' Day Club. We mustn't tell about it in detail, for that would be giving the secret away.

Part of the plan centers around one of the beautiful Brunswick Phonographs, Model 112. And there is a special collection of records, suitable for the occasion—and—but we nearly gave the secret away.

Model 112

But we invite you to come in and find out how easy it is to join in this unusual way of honoring your Mother on May 8th. You'll be delighted with the details.

Come in and let us explain it personally. And since the time is short, we suggest coming in at once.

Come in and hear the new Brunswick Records for May—and Q. R. S. Player Rolls.

WINTAKER-BANDY

Last Monday morning, April 25th, Miss Emma Wintaker and Mr. John L. Bandy Jr., were united in marriage at Dubuque, Iowa. The bride is the only daughter of Jos. Wintaker of this city, and until two years ago when they moved here she has always lived in the vicinity of Masonville, being well known and greatly admired for her lovely traits of character and genuine worth. The groom is a son of John Bandy Sr. He is an honest, industrious farmer, and with the exception of three years spent in North Dakota has always lived on the home farm near Dundee, where he and his bride will make their home. Their many friends wish them happiness and prosperity. XX

CLOTHING

The National Near East Relief Committee has practically clothed the Armenian & Greek population which have suffered under Turkish persecution during the past war years.

Each year a shipment of clothing has been secured in America and distributed under the careful supervision of American Relief workers. The clothing campaign is being put on in Iowa for the month of May. The parent teacher's association, the Woman's Relief Corps and other organizations working with the Near East Relief Committee have been making this appeal. Any community having a box of clothing is asked to ship to 521 Securities Bldg., Des Moines, Iowa, Near East Relief office.

Some of the larger communities of the State are getting a carload of clothing in their city and shipping it direct to New York. The warehouse of the Near East Relief is 549 W. 39 St., New York. Practically all of this clothing will go into orphanages and be made into garments for little children.

Instructions for Collection of Old Clothing

Kinds of Clothing Needed. The winters in the mountainous country of Armenia are very cold and so only warm sensible clothing is desired. Do not send and straw hats, or georgette waists, or other thin flimsy garments, such as voile dresses, party clothes, etc. Neither can we use high heeled pumps of slippers, or chiffon and lace things or old silk hose. It costs a great deal to ship this clothing all the way to Constantinople, and we want to pay for the transportation of only those things which will give real service. Woolen or heavy cotton clothes, caps, mittens, heavy shoes, warm stockings, coats and overcoats and sweaters are the sort of things desired. Clothing for men and women, as well as all ages of children are acceptable, as often the material, if good, can be made over by the girls in the rescue homes.

Condition of Clothing. We are also asking all who help us in the collection of clothing to see that freight charges are not paid on clothing which is too worn to be of any service. Shoes which are out of repair cannot be used, as we have no method of repairing them over there. If they are too worn to be of service without repair do not include them. Any other clothing which is too worn to be of real use should not be included. In case it is found necessary to accept such things in order not to offend,

it might be possible to sell them for rags and turn the money to Near East Relief. That is left to your judgment but do not send with the good clothing.

Packing and Shipping Clothing. Please tie shoes in pairs, and fasten mittens, gloves and other articles which may belong together, with thread, so that they may not become separated. Pack in boxes or barrels or in burlap bags and paste on the outside, a list of the contents—not itemized, but listed in regard to the sort of articles contained. Address to Near East Relief, 521 Securities Bldg., Des Moines, Ia., also put on your own name and address as sender so that we may know where the package comes from. Send either by express or freight—notifying us of shipment.

KU KLUX KLAN DEFENDS NAME

Atlanta, Ga., April 23.—With appropriation of a fund of \$10,000 which to fight its enemies who are seeking to stab it in the back and with the creation of a special department to handle this phase of its work, the Knights of the Ku Klux Klan, according to Col. William J. Simmons, imperial wizard, has put under way a nation-wide campaign against slanderous attacks upon the organization and misrepresentation as to its aims, purposes and activities which are being circulated throughout the country by individuals and organizations through newspapers and other ways.

While it has no quarrel with honest critics who do not fancy the Ku Klux Klan, Col. Simmons announces that his organization is determined to put an end to malicious slanders of the order or spend every dollar in the treasury in the attempt.

It is announced that officials of the Ku Klux Klan have set aside a fund of \$10,000 as a starter to cover the expenses of a department created especially to investigate attacks on the Klan and to prosecute those who misrepresented it. This department will be in charge of the best men that can be obtained and will have the advice and assistance of the most capable legal talent. False news reports concerning the activities of the Ku Klux Klan and its aims and purposes quite recently have been the basis for numerous editorials and special articles which have foully slandered the organization and its membership, officials of the Klan declare, and they assert it is their purpose to bring to the bar of justice the parties responsible for these outrageous slanders.

It is stated that officials of the Klan have had creation of such a department under consideration for some time and that the decision to establish it at once was hastened by an incident of March 30, when one of the large news services of the country sent out a report from Covington, Ga., that the Ku Klux Klan was involved in a conspiracy to create a race riot at Covington and stage a demonstration in behalf of John S. Williams, the Georgia planter, then facing trial for the murder of several negro farm hands.

This news service later sent out from its headquarters in New York a statement declaring the story from Covington was false in every particular and that there was no basis in fact for that report.

When Sleep Comes Back

(Weekly Health Talk No. 3)
(By W. C. Grainger, D. C.)

Health turns the Clock Backward

When sleep deserts you, then strength departs. It is a great day when sleep comes back.

Loss of sleep is due to pressure on spinal nerves affecting the brain. Seemingly the victim of this ailment cannot stop the train of thought.

Lack of ability to rest brings on extreme nervousness, often times the victim fears that he is going to pieces and may even fear for his sanity.

When the Chiropractor by his skillful adjustments restores the joints of the spine to alignment and removes the pressure on spinal nerves which is causing this trouble, the patient experiences a relaxation that is all the more profound because of the need of the exhausted body. Strength is rapidly regained once the ability to sleep is regained.

UNABLE TO RELAX OR SLEEP BUT CAN NOW.

"I had not slept more than three hours out of every twenty-four. After my husband died I could not discuss my business affairs with my attorneys without 'going to pieces'. When I tried Chiropractic I was desperate. After the first adjustment I slept fourteen hours. In forty more, I was a new woman, able to sleep all night, and eating what I wanted. Chiropractic should be welcomed as the greatest panacea of human ills." Mary Miles Baker, Chiropractic Research Bureau Statement No. 1256L.
