

The Sunrise Horror.

No more terrible case than that of the Sunrise, has ever been tried in the courts of San Francisco. It is stated in the bill that three sailors on the voyage from New York jumped overboard and committed suicide, to avoid further ill-treatment. The accusation is, that, so fearful and so unbearable were the tortures inflicted on the crew, that three of their number voluntarily drowned themselves. Safe it can hardly be called. It was lying from the brutality of man, and appealing to the mercy of God.

San Diego and Los Angeles.

The Post has the following just article: "Dr. F. P. Howard, Chairman of the Committee on Commerce and Manufactures, of the Los Angeles Chamber of Commerce, has called upon us, to draw our attention to the injustice done by the San Francisco papers in crediting Los Angeles exports as from San Diego and way ports. Dr. Howard informs us that three-fourths of the exports and imports by the southern coast steamers belong to Los Angeles. We are not surprised that our friends in the orange and fruit country feel aggrieved at the slight put upon them. We found in Dr. Howard an old valued friend, and cheerfully promised that as far as the Post is concerned, this ground of complaint should be removed."

El Rancho Los Feliz.

Any one who has ever experienced the hospitality of the owner of Los Feliz, will be sorry to hear that he is intending to leave the district. The impossibility of attending to the future interests of the ranch, as well as to more important labors, necessitates the change. Mr. Baldwin has one of the most lovely places in the country. Its advantages and beauties are very fully described in another column. It is just such an investment as thousands of eastern men are daily in search of. There is probably no ranch house in Southern California that can compare with either of the elegant residences on this property. With a river below and the hills behind, the garden planted with beautiful oranges, and the most perfectly appointed dairy in the district, Mr. Baldwin will dispose of his magnificent property all too soon to suit the wishes of his many warm friends. Mr. and Mrs. Baldwin can rely upon it that there is but one feeling—that of regret—at the bare prospect of their deserting the genial southern winters for the bleak eastern frosts and ice.

This and That.

CURIOSITIES OF THE WINE TAX.—The relations between the wine-makers and the Internal Revenue Bureau, are peculiar. If a person sells at the place of manufacture wine made exclusively from grapes of his own growth, he is not liable to the special tax as a liquor dealer for such sales, but if he sells such wine away from the place of manufacture he is liable. If, however, the wine contains the juice of any grapes not raised by him, he is subject to a special tax therefor, no matter where he sells it.

An octogenarian spinster is among the latest batch of English converts to Mormonism, and is on her way to Utah in the comfortable faith that she will be "sealed" to some respectable elder immediately on her arrival.

The Dramatic Verein Entracte, of San Francisco, has elected Mr. F. M. Freund, President (re-elected); Louis Henry, Vice-President; L. Simon, Secretary; Fritz Kohneke, Vice-Secretary; John Kohneke, Treasurer; G. Helwke, Register. The other elected officers are: C. Henry Rodman, N. Nabor, Thad. Fleishman, Mr. Capman, P. H. Thraun, Mr. Dyckopp, Mr. Langerer.

Dr. Lord's lectures are causing great enthusiasm in San Francisco, especially the one entitled "Galileo and Scientific Discourses."

The Santa Barbara Times says of Mr. Nordhoff: "This is one man who has been of all others, the most instrumental in sending visitors and settlers of a superior class in intelligence, thrift and wealth to Santa Barbara, by means of his truthful, unexaggerated statement of facts concerning her resources and attractions. This man is Charles Nordhoff. His book is read everywhere. When we were East last year we found it upon nearly every drawing-room table, and we were importuned with thousands of enquiries concerning Santa Barbara, suggested by reading it. He is a writer of recognized reliability as well as a keen observer, and what comes from his pen is consequently of great value in the estimation of every one, especially as he appears in the role of a disinterested looker-on."

The San Jose Mercury says: The Los Angeles Daily Herald is the name of a new, large, first-class daily that has just made its appearance in Los Angeles. The first number promises well in appearance and ability. We wish it success.

The Mercury predicts that Republicans everywhere, by thousands, are determined to vote the Independent or People's ticket, and teach these false leaders a needed lesson. They may not succeed in electing McKinstry, but they will certainly defeat the election of Dwinelle. In this county at least four-fifths of the Republican voters will vote for McKinstry. In the Evergreen, and other strong Republican precincts, scarcely a Republican can be found willing to endorse the monopolies by voting for Dwinelle.

NEW YORK.

NEW YORK, Oct. 11.—George A. Clarke, a son of Ex-Mayor Clarke of this city the Cashier and Agent of the U. P. R. R. is missing, with \$10,000 received for tickets sold last month. He has heretofore borne a respectable character. It is supposed that he has been speculating in stocks.

A Washington dispatch says on authority of Senator Cameron, that Senator Conkling will not accept the office of Chief Justice if tendered him by the President; that he proposes to retire to private life at the end of his Senatorial term, and devote himself in future to the practice of law to making a fortune.

To-day's Tribune says that a private cable dispatch was received yesterday, announcing that Tom Scott succeeded abroad in negotiating \$54,000,000 on the first mortgage bonds of T. & P. R. R. The above is not strictly correct, but has a substantial basis. Telegrams received make it very probable that Scott has placed \$10,000,000 for the T. & P., with the privilege of takers to receive large additional bonds as rapidly as they can be issued on the completion of the road. The National Bill under which the Texas road is constructed forbids the issue of bonds except on completed sections.

WASHINGTON.

WASHINGTON, October 11. Ex-Senator Pomeroy, of Kansas, was shot this afternoon by ex-Representative M. F. Conway, of Kansas. Pomeroy was walking up New York avenue, and when near the corner of Fourteenth street he met Conway, who drew a large revolver. When within five or six feet of Pomeroy, Conway fired three shots at him, one of which took effect in his right breast just below the nipple. Conway then put up his pistol and started to walk off. Stillison and Addison, who witnessed the shooting, immediately stopped Conway, Addison exclaiming, "Stop, sir; you have shot a man, and you must give your reasons for so doing." Conway replied, "I have ruined myself and family." He then accompanied the gentlemen to the station-house.

Pomeroy, who had fallen to the pavement, was assisted to a carriage and driven to his residence on K street near Fourteenth, where physicians were immediately summoned. Drs. Bliss and Verdi have just made an examination of Pomeroy's wound and pronounced it only slight, one of the balls having passed through Pomeroy's hat and another through his overcoat, while another went through his clothing, striking his breast, but only penetrated the skin.

Pomeroy asserts that he never had any controversy with Conway, and has not the slightest idea of the cause of his attack.

FOREIGN NEWS.

HAVANA, Oct. 6.—A severe storm has prevailed here for the past three days. Several lives were lost, and a number of vessels wrecked. The Spanish steamer Micasas was lost near the Isle of Pines, and out of a crew of 26 only two were saved. Guatemala was struck by the tail of

the hurricane, and all the vessels in the port were driven ashore. The roofs of many houses were blown off, and other damage resulted to buildings.

Severe fighting is reported at various points, between the Spaniards and Cubans, resulting in a loss to the former of 150, and to the latter of 32 men.

Curtin Acquitted.—Attempted Suicide.—A "Sunrise" Officer Arrested.—The Contribution to the Memphis Sufferers.—Passenger List, Etc., Etc.

SAN FRANCISCO, Oct. 11. The Jury in the case of Thos. Curtin, the slayer of Wm. Johnson, who seduced his daughter, Hannah Curtin, returned a verdict at midnight last night, of "Not Guilty." The result was loudly applauded by the spectators. Judge Dwinelle discharged the prisoner and remarked as he left the bench, "I must say, Mr. Curtin, that I do not regret the verdict."

The crowd around Curtin was so great that he could scarcely make his way out of the Court room. Mary Norcross, recently from Oregon, attempted suicide to-day by trying to jump off Long Bridge. Officer Burke sprang forward, and after a desperate struggle got her away. She recently separated from her husband, keeping her children. He went to Ohio. She was taken to the City Hall, when her sister, Miss Viola Berry, came on the scene. In the Probate Court room to which Mrs. Norcross was taken to be examined for insanity, she made an attempt to leap out of the window, but officers prevented her. Miss Berry said her sister complained this morning of a violent headache. She was committed to Stockton.

Farrell alias Harris, first officer of the ship Sunrise, was arrested at San Jose, to-day. He is the man accused of so barbarously treating three sailors on the ship, that they committed suicide by jumping overboard.

The \$1,000 contributed by the Fire Department to the people of Memphis, has not been forwarded, Commissioner Freeman, Treasurer of the Charitable Fund, declining to draw the amount. The report that goods cannot be shipped to Arizona via Guaymas, without a permit from the Capital of Mexico, is again denied. The Consul of this place says, the difficulty grew out of efforts made to suppress smuggling through that port.

ANAHEIM.

Purchasing Grapes.—The Weather.—GAS.

ANAHEIM, Oct. 11. Druyfus & Co. of this city are purchasing large quantities of grapes for the purpose of wine making, and have already contracted for two hundred and fifty tons from Los Angeles, which are being delivered daily. Also large quantities from San Jose Valley, Los Nietos, and other places adjacent to this city. This firm is the largest of the kind in the State, shipping constantly large quantities of wine and brandy to New York. In addition to the quantities of grapes purchased from outside places, they have several large vineyards, from which the crop has already been taken.

The weather to-day has been warm, the thermometer indicating eighty degrees in the shade, but a cool breeze from the sea moderate the heat so that it is not oppressive.

Arrangements are complete to light this city with gas.

Stabbing and Shooting Affray.

BAKERSFIELD, Oct. 11.

A shooting and cutting affray took place at Tehachepi, on the 6th inst., between McKenzie and Wilkinson. The latter interfered in a quarrel the former had with another party. McKenzie being knocked down with a chair, armed himself, returned to the scene and fired three shots, one taking effect by passing through Wilkinson's neck, who in turn stabbed McKenzie seven times. Both parties were severely but not dangerously wounded.

The French residents of San Francisco have presented to M. Thiers a magnificent album, valued at \$1,650. The testimonial is a box, 12x9 inches in the clear, made of the richest California woods, containing upwards of fifty different species—California laurel, land on which the affray took place, groed, yellow and black; birds-eye red-wood, two species; also, maple, ash, willow, manzanita, medroño, white mahogany, Port Orford cedar, root; and the following coast woods: rosewood, ebony, boxwood, cam, zebra. Besides these we find the lantia, lanzanito, (perfumed wood), the iron wood, (which takes the name from its peculiar hardness, the coccoanut, and many others.

The Colusa Sun has the following geological problem: Mr. Greenleaf, who resides just north of Sand Creek, on the edge of the Plains, about sixteen miles southwest of Colusa, had to bore a well 164 feet deep to get a sufficient supply of water. He purchased of G. y & Kimball a deep-well pump and pipes to go within a few feet of the bottom. His pump will be over 150 feet from the surface. He struck a small stream of water in about 90 feet. It has always been a mystery to us why the water in the valley just above Sand Creek, and the Ohio House timber, should be on so much deeper level than in other portions of the valley; it is from ten to forty feet of water, a good deal owing to the elevation of the spot; and just south of this immediate neighborhood we again come to shallow wells. When digging for water in this vicinity persons have come, when down about forty feet, to what seems to have been the top of the ground at no distant day. We remember, some years ago, of some well-diggers finding some coals and brands, arranged as though it had been a small camp-fire, down some forty or fifty feet below the surface. A short time ago, some men were digging a well, and found the bones of a deer down about the same distance. We would like to have a geological explanation of that neighborhood.

Near the Oreana mine, Nut Pine valley, Nevada, are three small lakes, in one of which no bottom has been found with any sounding-line that has yet been tried in it. The lake is supposed to occupy the site of the crater of an ancient volcano.

The Colusa Sun gives the result of several experiments in cotton growing in that county, and thinks there is no doubt that Colusa is well adapted to cotton growing as any part of the San Joaquin, where it has been demonstrated that it will be an excellent paying crop.
