NEW YORK.

New York, Oct. 17.—The World's St. Johns, N. F. special announces the arrival there of the steamer Tigress from her search for the Polar survivors. On the 4th of October, the Tigress left Ivingut, all on board being in good spirits, and hopeful of finding the objects of their search. On the 5th a moderate gale sprung up, but did no serious damage; on the 6th, however, a perfect hurricane arose, which drove them out of their course for a time, and threatened to do great injury to the ship. Toward night the storm subsided, and with some very trifling exceptions the Tigress has escaped unhurt. On the 7th, the crew, having already become impatient at their forced delay, started northward in search of whalers, expecting to find Capt. Buddington, and the remainder of the Polar crew on board one of them. A light northerly gale still prevailed, and in consequence of the presence of much ice, which impeded navigation, Capt. Greer was advised to stand to the southward as an early winter had evidently set in. Acting on this advice Capt. Greer on the afternoon of the 8th, started for St. Johns, keeping in the known track of whalers, and still hopeful of meeting the lost men. The crew has been much reduced by exposure, excessive cold and by fatigues. All on board, however, are well, as far as can be learned. The Tigress will remain to undergo some repairs made necessary by severe the knocking about which she suffered during the hurricane on the 6th. She will sail in a week, and Capt. Greer expects to arrive in New York by the 10th of November.

The store of N. J. Lowenstein, 531 Magazine street, was partly burned; loss, \$10,000. Another store also was burned; loss, \$10,000. Isaac Landerman was arrested as an incendiary. At last evening's session of the Women's Right Association, Mrs. Sarah J. Spence read an address on the education of the sexes, and argued that sex was of soul and indestructible as the soul itself. The Rev. Celia Burleigh read a paper on the relation of woman to her dress, holding that the present dress is ugly, unnatural, and unmodest, and unless a woman can be emancipated from its tyranny, even the ballot can do little for her. The claims of woman teachers was the subject of a paper prepared by Harriet Beecher Stowe and Catherine Beecher.

MINNESOTA.

MINNEAPOLIS, Oct. 17.—C. W. Mead, the General Manager of the North Pacific Railroad, states it is proposed by the manager to operate the road as far as Jamestown this winter, certainly, as the road is supplied with snow fences, etc., to that point. If the winter is not severe the trains will run to Bismark; but, if it is hard, these will be discontinued. Jamestown is about 100 miles east of Fargo. Work on the road is to be begun and prosecuted with vigor, in the spring. General Cass has appointed commissioners to examine and report upon the condition of the road. They start today.

MEMPHIS.

MEMPHIS, Oct. 17.—The Mortuary report to-day is 31 deaths from yellow fever; 7 from other causes. Mayor Johnson is reported better.

RHODE ISLAND.

PROVIDENCE, Oct. 17.—A fire in Blackstone, last night, destroyed 8 houses, and rendered helpless thirty families. Loss, \$250,000; partly insured.

FOREIGN NEWS.

LONDON, Oct. 17.—A correspondent of the Times, writing from Cartagena on the 13th inst., says on that day the insurgent squadron sailed out to attack the government fleet, when Admiral Lobos ordered a retreat and was pursued for over an hour. MATAMORAS, MEXICO, Oct. 17.—General Leopeta, the deposed Governor of the State of Coahuila, left Saltillo for Monclova, where the Congress of the State is in session, which

recognized Dr. Salas as Governor. An engagement is reported between General Leopeta and partisans of Dr. Salas near Saltillo, in which Leopeta is said to have been defeated and retreated towards Piedras Pans, on the Rio Grande. Another account states that the action was not decisive, and that both parties are near Monclova. Many of the principal business houses are closed in Saltillo on account of the receipt of news that actual fighting has commenced, and fearing pronouncements against Leopeta and his friends, who still occupy that city.

SAN FRANCISCO.

Arrival of Indians.....Capt. Phillips Arrested.....Stocks, etc. A delegation of five Pima and Maricopa Indians arrived this evening from Arizona. They are on their way to Washington. They have taken rooms at the Cosmopolitan Hotel. They attract much attention. They will remain here two or three days.

Capt. Phillips, of the ship Top-Gallant, has been arrested for withholding proper food from the seamen on that vessel. She is the one which came into port with several men on board sick with scurvy.

W. H. Barnes delivered the Annual Oration of the Grand Lodge of Masons to-day.

SAN DIEGO.

Revolution in Sonora.....Alamos Captured by the Insurgents.....Gov. Pesquera takes the Field.....Handreds of the Inhabitants of Mexico on the way to Arizona.....Four good Indians.....Serious Charges against an Indian Agent, etc.

SAN DIEGO, Oct. 17. Arrived, schooner Uno Sam, Capt. Hopkins, from Mendocino, with lumber.

The Union's special from Tucson, under date of 11th inst., contains news of the revolution in Sonora, as follows:

Letters from Guaymas states that the proclamation issued at Promitoria, September 11th, by Comant and Barbellia, was against the authorities of the State of Sonora and in favor of reforming the State Constitution of November, 1872. The revolutionists took Alamos, and hold the district south. They levied a contribution of \$32,000 on the merchants of Alamos, which was paid. They have a force of 350 men, well armed. Gov. Pesquera has taken the field in person, and is organizing a force of eight hundred men to go against them. The chances now seem to be that the Governor will crush the revolt at the outset; but all agree, if he should lose the first engagement that the revolution will extend over the whole State, and probably prove disastrous to his future political power. Hundreds of poor, emaciated natives are coming on all roads to Arizona, perfectly destitute of food and clothing.

SECOND DISPATCH.

Additional particulars from the Tucson Citizen of the 11th, says the revolutionists surprised the troops and Prefect's house at Alamos. The Prefect escaped. All mail communication with any part of Mexico by land is cut off.

Camp McDowell news of the 6th to the Citizen says three men of Major Brown's command came here yesterday. They report that the command had killed two bucks and captured two squaws; and the squaws agreed to pilot the Major to a large rancheria, so we may soon have good news. The United States Grand Jury of Arizona, sworn in on the 6th at Tucson, report their investigation of a charge of conspiracy against Dr. R. A. Wilbur developed the fact that Chas. F. Larrabee, Indian Agent, lacked ability and courage, and to his ignorance of Apache nature is traced the late disturbance at San Carlos, resulting in the death of St. Almy, of the Fifth Cavalry, U. S. A.

STOCKTON.

Shooting Affray.....Meeting of the Baptist Association.....Stockton, Oct. 17. A serious shooting affray occurred at Toft, yesterday. Some land troubles, between Perry Leblanc and Chas. Neal, was the cause of the affray. Both parties drew pistols. It is claimed that Chas. Neal discharged three shots at Leblanc, when the latter shot him through the kidneys. The wound is serious, but not necessarily fatal. Leblanc came to this city last evening. Leblanc was arrested to-day, and taken before Judge Brown for examination and discharged, as it appeared he acted in self defence.

The San Francisco Baptist Association closed the twenty-fourth Annual Session, last evening, to convene again next year in San Francisco.

KERN.

Daily affray—Three Men Killed. BAKERSFIELD, Oct. 17. At Sagehen precinct, Kern county, on election day, a difficulty occurred between Larry Watson and Moses Gilman. The former asked Gilman whom he had voted for. Upon receiving his reply, Watson struck Gilman on the top of the head with a pistol, crushing his skull and causing death in a few minutes. Robt. Peppard, and others, attempted to arrest Watson, and to intimidate him fired a shot over Watson's head. Watson then drew his knife and stabbed Peppard twice, inflicting mortal wounds. Peppard dropped his weapon, closed upon and disarmed the murderer and stabbed him in a vital part. Peppard and Watson died within a minute of each other.

SONORA.

Fire in a Mine.....Heavy Loss. SONORA, Oct. 17. This evening the miners in the south shaft of the Soubly mine came up for timbers leaving candles burning which accidentally set fire to the timbers in the mine, and in less than half an hour the shaft and hoisting works were consumed. The loss was very heavy.

SAN JOSE.

Meeting of the State Grange. Election of Officers. Speech by Gov. Booth. SAN JOSE, Oct. 17. At the Grange to-day, the election of officers for the ensuing year took place. J. M. Hamilton was elected Master, and W. H. Baxter Secretary.

The opera house is crowded to-night with people of all classes to hear Governor Booth's address before the Grange. The interest and enthusiasm manifested proves his immense popularity.

OROVILLE.

Immense Bar of Bullion. OROVILLE, Oct. 17. A great bar of gold bullion, valued at over seventy-one thousand dollars, taken from the mine of the Spring Valley Canal and Mining Company, has to-day been on exhibition at the banking house of Rideout, Smith & Co.

YREKA.

The Last of the Modes. YREKA, Oct. 17. The remnant of Modes passed here this evening on their way to Wyoming Territory, under the escort of a company of Artillery, Capt. Hasbrouck commanding. About thirty wagons were used in transporting them.

VALLEJO.

Sentenced to be Hanged. VALLEJO, Oct. 17. Robert McDonald, yesterday, was sentenced by Judge Wallace to be hanged on the 12th day of December next.

BRITISH COLUMBIA.

Reported Discoveries of Rich Gold Mines in the Cassian Country. VICTORIA, Oct. 17. Both papers are filled this morning with reports of more discoveries of rich gold diggings in the Cassian country. The steamer Otter arrived yesterday from the north, bringing from \$8,000 to \$10,000 in dust, and a number of miners who were compelled to leave on account of the scarcity of provisions. All who arrived yesterday will return early in the spring.

The U. S. steamer Tuscarora sailed for San Francisco yesterday, to continue the soundings for the projected Pacific Cable.

NEVADA.

Arraigned for Murder. Struck by paralysis. HAMILTON, Nev., Oct. 17. Upon being arraigned for trial to-day, young Matheny, the murderer, pleaded guilty. He will be sentenced some day next week. It is believed there will be an effort made to obtain executive clemency in his behalf on account of his youth, and the probability that he was merely an accessory to the murder.

CARSON, Nev., Oct. 17. This morning, about 7 o'clock, Col. Abe. Curry, one of the locators of the Gould & Curry Mine, was struck senseless by paralysis. He has been lying in a comatose condition since, and fears are expressed that he will never recover consciousness.

When-Then.

When the Great Eastern shall sail up San Diego river laden with clams, from Los Angeles, when W. Jeff Gatewood shall be Secretary of State, and sign his classical name to the declaration of war with the Fejee Islanders; when the great, huge old mountains which form the back country of the city of the future shall bow their heads and fall into the sea; when right shall become wrong; and uphill shall be made down; when water shall change the direction of its flow, and be seen going toward the sky; then will San Diego arise in its might, and become a competition of San Francisco and Los Angeles; then will it offer sufficient inducement to draw away traffic and commerce, immigration and capital from our city.

THE Express is of the opinion that profusion is not a mark of excellence, yet at the same time it copies the HERALD's special dispatches, to the extent of half a column or more each day, and leads the public to infer that they are not stolen! It admits profusion of copying more than profusion of originality.

By reference to the report of San Francisco Stock Sales in another column, it will be seen that the market was greatly excited yesterday.

Legal Interpreters.

Our Courts, showing a very reproachable indifference and failing to correct a neglect that may, and does bring really serious consequences, follow a line of conduct in a business of great importance, so badly provided for and so little attended to that we have no doubt very often originates great evils and causes deplorable injustice. We allude to the common practice of calling in Court, to fill the difficult position of interpreter, the first man they can get hold of, it being simply sufficient that he can mumble Spanish and express himself in English.

It is needless for us to dwell on the importance of witnesses in all suits, and on the great unavoidable, far-reaching necessity there is of their evidence appearing as he gives it before the Court and Jury. This is too well known. But how often may it not happen that through incompetency in the interpreter, the evidence is mis-translated, loses its force and meaning, and even sometimes through the mis-interpretation of a phrase or a word, completely changes the latter.

It is true, we take up the discussion of this question with more than ordinary interest, because its utter neglect affects Spanish-Americans in a great measure. It is well known that they generally are the ones that often require interpretation and, therefore, if any defect exists in the translation, it falls upon them and injures them most.

For this reason we beg to suggest, seeing that nobody else has thought of it, that one or more apt, authorized translators might be appointed, recognized as persons capable of filling that place in the various Courts of Justice, and have a salary assigned to them in that manner. Jurors are paid; in that manner more facilitation and greater security would be obtained for the better administration of Justice. We believe this question worthy of proper study and attention, and we have no doubt it will be so considered by those to whom it belongs to entertain it.

If they do so, and have the happy thought of carrying out the above plan, we will be the first to feel grateful for having adopted a just and equitable rule. —[La Cronica.

From San Bernardino.

The Argus of the 17th inst., has the following items: The enterprising proprietor of Miller's Hotel, John F. Miller, deserves credit for building a first class side walk. It will be paved with brick and will add greatly to the beauty of Utah street.

Strangers are constantly arriving in town, mostly all hailing from the Eastern States; the extreme hard winter driving them to a more genial climate.

Louis Jacobs, an old resident and prominent business man of this town, returned home last Saturday from a six months tour in Europe. He paid a short visit to the World's Fair. Our citizens generally welcome him back.

Q. S. Sparks, an old resident of this valley, and at present residing in Los Angeles, is spending a few days in town.

The new hotel project will receive attention this week. The matter will be thoroughly canvassed. It is time something should be done, as we are evidently going to be flooded with visitors this winter.

The Rev. Mr. Knighten occupied the pulpit at the Methodist Church on last Sunday night. Next Sunday he will preach his last sermon here, prior to taking his departure for Los Angeles county, where he goes to take charge of the church in Richland county. The many friends of Mr. Knighten regret to part with him, and he has the best wishes of our community for success in his new field of labor.

G. C. Pringle, of the Potosi lead mine, near Ivanpah, and agent for one of the heaviest mining companies in San Francisco, left this city on Tuesday last. Extensive operations will commence at the mine as soon as the machinery can be received from San Francisco, which will be in about thirty days. The company have twenty-five men employed at the mine.

On Friday last, Mr. H. G. Brook, gave an exhibition in the Chino district, before a large audience of patrons and visitors. The recitations, readings, and declamations were well rendered. In the midst of the proceedings a committee of children presented their teacher with a splendid silver watch as a token of affection and esteem.

THE CONCERT.—The Concert last evening was a great treat as we had anticipated. Madame Anna Bishop is wonderfully preserved. People who heard her twenty years ago, declare they can detect no change, either in voice or physique, and we fancy that at the age of many years more of singing, they will say the same thing of her. Mr. Frank Gilder is a magnificent performer, and received nearly as much applause as the prima donna herself. Mr. Alfred Wilkie has a high and wonderfully smooth and pleasant tenor voice. Mr. G. Gotschalk, the baritone, is splendid in his perfect nonchalance of manner, and the absence of all effort and affectation in his singing, and is no discredit to his illustrious name. He promises us "Largo al Factotum" this evening, which, judging from his last night's performances in that line, will be worth the admission fee. An entire change of programme is announced for this evening, and we advise all lovers of music to attend.—[Santa Barbara Press.
