

Our Success.

With unconcealed pleasure the HERALD announces that already it issues each day to regular, paying subscribers, a greater number of copies than any other newspaper published in Los Angeles; and that its subscription list is increasing at the rate of about 100 per week.

On the first of November the HERALD will be on a paying basis; that is, its receipts will fully meet its outgoes, giving, of course, no return for the money invested or the labor of the proprietors. This is an event rarely happening in newspaper annals in the second month of existence.

The City and the Gas.

If ever proof was wanted of the disgraceful results of the squabble between the City Fathers and the gas company, that proof was obtainable last evening, between the hours of 8 and 9. At the risk of incurring the displeasure of both corporations, but in defense of the interests of the citizens, the HERALD protests against this Egyptian plague of darkness continuing any longer.

Boarding.

All through town, the demand is for board. Yesterday there were several persons in the HERALD office looking up information in regard to boarding for themselves or others. Of course no difficulty is experienced in obtaining day board, but to obtain board and lodging under one roof is simply impossible.

Los Nietos Park.

Three-fourths of a mile north of the proposed city of Nietos, is one of the most desirable localities for a pleasure resort, to be found anywhere in easy access of the city of Los Angeles. Nature has done everything required on her part. The land is as level as a floor, and forty or fifty acres is studded with fine timber, just far enough apart to let in the warm rays of the sun, which keeps the grass green and growing the entire year.

There is a large tract of land, around, and embracing this desirable location. If they would expend a few thousand dollars in improving this park, it would not only pay them well for the outlay, in advancing the value of the land improved, but largely enhance the value of the surrounding lands.

There are a score or more persons in this city on the look out for dwellings for their families. If they fail to obtain them, which will undoubtedly be the case in most instances, Los Angeles must lose population that is desirable. Our great want is more people, yet we drive them away daily for the want of tenement houses.

AGAIN monarchy seems to be triumphant in France, but it is quite uncertain who will be the fortunate, mayhap, unfortunate, aspirant to the throne. Five changes of dynasty in France during 70 years will give small prospects to any one who may now be put on the throne.

The City Council of Mazatlan has imposed a tax from one to two dollars on all foreigners landing at that point. Travelers who may arrive from Mexican ports shall only pay at the rate of from fifty cents to one dollar.

Sheriff Orton, of this county, his deputies and others, were out last night in search of the murderer. About 7 o'clock this evening a dispatch was received from Soledad, Monterey county, that a man answering the description of Callahan was there. The Sheriff telegraphed to have him detained, and has just started for that place to see if the party there is the man wanted.
