

The Express says the HERALD is shrieking its brains out. We are afraid no amount of shrieking will produce the color of brains in our cotemporary. The stuff is not in it.

If Mr. SABICHI is elected, no Water Commissioners will be appointed and the money spent to secure his election will be collected from the people in the shape of water rent.

Our amiable evening cotemporary refers to the editor of the HERALD as "the man over the way who does the Eatanswill business for the candidate for Mayor." This is classic if not gentlemanly; but the ring cannot expect to obtain all the virtues for \$30 per week.

The organ of the Water Company says it cannot see how its turning traitor to the Republican party and selling out to the Democrats will affect Mr. BEAUDRY. It has the effect of showing that having forfeited principle for money it put itself outside of the pale of respectability and its statements now are not entitled to the slightest consideration. If the ring bought it once, they had no difficulty in buying it again.

The Evening Express does not admire the People's Ticket. We did not suppose it would. There is not a man on it who the Water or Gas Companies will be able to wield against the interests of the people of Los Angeles. If that ticket is elected, as no doubt it will be, there will be no more digging up the streets and leaving them in an almost impassable condition, and the law will be enforced demanding the fixing of the price of water by a Board of Commissioners, and many other things needed by the city will be done which are now prevented by the ring. As the Express is working in the interest of the ring it is hardly to be supposed that it should like the People's Ticket. The ring does not like it.

The Agricultural Prospect.

Although the rains visited us so early this Fall as to do some little damage to the ungathered grape crop, yet their coming has been on the whole a benefit. They prepared the ground for plowing, and it is probable that at no time within the history of the settlement of this valley have there been one-half so many acres of freshly plowed ground thus early in the season as this year. Our reports from all parts of the county are to the effect that the farmers are at work turning over the soil. A sufficient amount of rain has already fallen to place the ground in excellent condition for the plow. There are abundant indications to warrant the belief that next season will be the most prosperous ever seen in Southern California. Especially in Los Angeles valley will this be the case. Our population has largely increased within the past year, and the current of immigration continues to grow stronger day by day. It is hazardous little to say the population of this city and valley will be increased at least five thousand within a year beginning with last July. The class of immigration now flowing into Southern California is composed almost exclusively of mechanics and farmers—just the kind of people most needed to develop the resources of the country. We are entering on a prosperous era, the extent and magnitude of which depends as much or more on the liberality and enterprise of those already here as on the industry and perseverance of those coming among us. Let us encourage people to come here and encourage them to remain. There is land for all, and if those now holding large bodies of it would see it covered with farms, groves, orchards and vineyards, they must encourage immigration and to do this they will do well to remember that there are millions of acres of uncultivated land in California, and if farm-seekers cannot purchase at reasonable rates in this valley they will go elsewhere.

A Damaging Proposition.

There appears to be more than we at the time supposed in the rumor published in the HERALD some days ago to the effect that a scheme for turning the water from several canjans now running through the city over on the high land on the east side of the river will be sought to be carried into effect in case Mr. SABICHI and the candidates for Councilmen associated with him are elected. We understand that the parties who desire to turn the water as mentioned have their plans all arranged and feel confident of success if they can elect Mr. SABICHI. It would no doubt add much to the value of the high lands on the east side of the river to place an abundant supply of water on them, and we should be pleased to see them so supplied, but it would be unjust and we could not endorse the proposition to thus enhance the value of one locality at the expense of and to the great injury of another. If the water is turned from several of the ditches now running through the city, the result will be serious loss to those residents now dependent on those ditches to irrigate their gardens and vineyards. Mr. BEAUDRY has supplied the high lands on the west side of the river with an abundance of

water, but in doing so he has interfered with no man's right nor deprived any one of a single drop which was theirs before he commenced laying his pipes. In accomplishing this great work, which the Evening Express says will add millions of dollars to the taxable property of the city, Mr. BEAUDRY has asked for no assistance from the city, neither in the shape of money nor an exclusive franchise. What he has done he has done with his own means, and others may imitate his example and compete with his enterprise at will. If Mr. SABICHI and his friends would run on water the high land on the east side of the river let them obtain their supply from the flats as Mr. BEAUDRY has done. But when they undertake to stock the Council with men who will deprive a large portion of our citizens of the water on which they are dependent to irrigate their trees, they are seeking to force a measure which is both unwarranted and unjust. We warn those interested that if Mr. SABICHI and his ticket are elected an attempt, and we fear, a successful one, will be made to carry out this scheme.

Why we Respond.

The San Francisco Examiner says, "Let us have peace—peace among the journalistic fraternity"—and wonders why editors will waste their energy in personal abuse of each other. These are questions we have frequently asked our evening cotemporary, but it offers no response except to pour forth a torrent of personal abuse of the HERALD and of every person of whom we chance to say a good word. We regret this weakness or vice in our little neighbor, for two reasons: First, it evinces a maliciousness of nature and depravity of disposition which is unpleasant to look upon in individual or journal; and second, it provokes from us answers and retorts we know are not in accordance with the Golden Rule, which teaches us to do unto others as we would they should do unto us. We know the infirmities of the Express; we know that its cross is heavy to bear; we know that in choosing between principle and interest it bowed before the altar of Mammon; we know that it fell before the glittering gold of the tempter; we know that it knows it has sold itself; we know that it knows it is fighting against the interests of the people of Los Angeles, and we are willing to make room for the leper; we know that we should pardon its weakness and look with compassion upon its unquenchable passion for slander and misrepresentation; we know that from its simplest assertion to its most vehement protestation the people believe nothing until supported by testimony from other sources. Yet, when it pours forth its volumes of billings-gate and nits us columns with vile attacks upon the HERALD and vile slanders of respectable citizens, we cannot resist the temptation to give it a kick. It is so amusing to hear it yelp afterward. We know that in doing this we are wasting our powder on small deer—loading a cannon to shoot a gopher—but we can only offer in extension of the act the human disposition to strike back and the natural promptings to defend the good and true against the false charges and unwarranted attacks of the hired slanderer and the mendacious maligner.

T. B. PETERSON & Brothers, 306, Chestnut street, Philadelphia, publish this day, "Ivanhoe," by Sir WALTER SCOTT, being the first volume of an entire new edition of the Waverley Novels, now in course of publication by them, entitled "Peterson's Cheap Edition for the Million of the Waverley Novels." Each book will be printed from plain, clear type, double column, and each work will be issued complete in one large octavo volume, with a new illustrated cover on each book, and be completed in twenty-six volumes, at twenty-five cents each, or five dollars for the complete set. This will be the cheapest as well as the only complete edition of the Waverley Novels published in the country, as it will contain all the author's notes, as well as all his last corrections and additions. "Ivanhoe" contains a portrait of Sir Walter Scott, engraved on steel from NEWTON'S original picture, painted at Abbotsford, being the last portrait SCOTT sat for, which of itself is worth the price of the volume. A full set of the twenty-six volumes will be forwarded at once, post-paid, by mail, to any part of the United States, to any one, by the publishers, on sending a remittance of five dollars to them for the same. At this low price all persons should possess themselves of a full set, and we would take this occasion to advise all of our readers to make a remittance of five dollars at once, per first mail, to T. B. PETERSON & Brothers, Philadelphia, for the entire set, who will send them complete to any one, at once, free of postage, on receipt of that sum.

Sometimes good fortunes come in troops, like their opposites. Here is William Gaston of Boston, who woke up Wednesday morning to find that he had a Governor's message to write, and now a Denver, Colorado, dispatch states that he had some real estate which he bought there in 1854 for \$4,000 has recently been sold and realized the handsome sum of \$163,300.—Louisville Commercial.

It is yet nearly two months ere the Massachusetts Legislature assembles. Plenty of time for Butler to turn opposition and solicit Sumner's vacant seat in the United States Senate. He hopped from Democracy into the Republican party in half that time, fifteen years ago.—Chicago Times.

Every negro in Savannah who owns over \$5,000 worth of property is a woman.

Latest Telegrams.

EASTERN.

The Ex-Priest at a Young Men's Christian Association. BIRMINGHAM, November 21st.—After the prayer meeting of the Young Men's Christian Association had been in progress half an hour, ex-priest Jaquet entered and took a seat beside Rev. Dr. LeBaron. A few minutes afterwards he arose and said: "I will again ask the prayers of my dear brethren. In my transition I feel and find great difficulties; many things are said, but everything said is not true. To pass from Catholicism to Presbyterianism is a hard transition. Many expect a great storm, but I think that I will initiate our Lord when brought before Him." Mr. Jaquet then sat down, and a few minutes after when one of the members commenced prayer, he got up and immediately left the meeting. Arch Bishop Bailey, in a letter to a newspaper, replies to the statement made by Jaquet; he says he was never formally received into the diocese, and that such position as he had in it was owing to the slightest possession of priest's title. The Arch Bishop states that Jaquet told him that he had formed the habit some years ago to counteract the bad effect of Mississippi water while performing missionary duties, and he had been in the habit after Jaquet had been received into his house he found that he sometimes indulged in more active stimulants.

Reported Cabinet Changes. NEW YORK, November 21st.—The Herald's Washington special says that there is the slightest possibility of the re-organizing of the law repealed by the Forty-second Congress for convening the next Congress on the 4th of March. The Republicans oppose it. The re-organization of the Cabinet, it is said, takes effect after the 4th of March. It is understood that Blaine will enter the cabinet and take charge of the Postoffice Department. It is stated that Washburn asked permission to come home, and the telegram sent him was one granting his request. The Herald editorially argues the question why Grant ought to change his Cabinet, and advanced a number of theories in support of his re-organization. It also argues that Democrats oppose it, and that this should convince the President that such a change will be for his own interests and that of the party. A new Cabinet, strong in public confidence and respect, being in order, and legislation and harmonious relations, would check the career and lower the hopes of the Democracy. The Herald advises Fish to take the lead and resign, and says other members will be forced to follow him, and this will give the President an opportunity to infuse new life, hope, vigor and confidence into the Republican party.

Terrible Torpedo. CHICAGO, November 21st.—Tussumbia, Alabama, was visited by a tornado of the 21st instant. One-third of the residences in the city were destroyed and twelve persons killed. Most of the substantial brick buildings were destroyed and the bridge of the Mobile and Chattanooga Railroad was blown down, precipitating the eastern bound train into Spring creek. No one was killed. The Mayor has asked assistance for the relief of the victims. At Monticello, Ala., by the same storm, several houses were destroyed and two persons killed.

Heavy Storm Reported in New York, New Jersey, Pennsylvania and Maryland. A brick wall of the Round House at Keyser, on the Baltimore and Ohio Railroad, was blown down and two workmen killed and several others injured.

Unconfirmed rumors prevail that 40 persons were killed by the wrecking of a train at the bridge of the Memphis and Charleston Railroad.

Washington Items. WASHINGTON, November 23d.—The resignation of the supervisor-architect, Mr. Millett, has been accepted by the Secretary of the Treasury. It is rumored that Grant favors E. B. Washburn for President and Marshall Jewell for Vice-President. Yesterday the President ordered the removal of the Surveyor-General from Eugene City to Portland, Oregon. It is reported that sixty white miners are working on the Sioux Reservation in the Black Hills, and that Secretary Delano requests the War Department to remove them.

Freights—Steamers—Contested Ballots—Another Democrat. NEW YORK, November 23d.—Freight by the isthmus and railroad is brisk. Hatesas before by the Isthmus railroad, cutting under. Some accommodation is reported as low as two cents a pound. The Granada left Panama for San Francisco on the 17th. At New Orleans yesterday the Returning Board counted the contested ballots. In the Second Congressional District in Virginia, Goode, the Conservative, is declared elected over Pilatt, Republican. The Mayor of Philadelphia has appointed a committee to receive contributions for the Kansas and Nebraska sufferers.

FOREIGN.

From Over the Water. LONDON, November 23d.—Lady Franklin renews her offer of \$10,000 for the discovery of official records of the Sir John Franklin expedition. Heavy fogs in England have rendered travel by land or water dangerous. A number of railroad accidents are reported. The Continental banks are raising the rates of discount. In the French Municipal elections the Republicans have been generally successful. In Germany the Von Arnim affair is going to give rise to many fresh prosecutions.

LONDON, November 24th.—Serrano goes North next Monday on an expedition against the Carlists, which was yesterday by the King. There is another report that the Argentine rebellion is ended. Decision of the English Court of Queen's Bench, relating to Roman Catholic Burial Services.

MONTREAL, November 21st.—Cable dispatches received here to-day announce a decision has been rendered by the Queen's Court in England relative to the famous Guibord case. Guibord was a member of the French Canadian Literary Institute, which having refused to expunge its catalogue of books and papers at the bidding of a Roman Catholic Bishop, Guibord died about three years ago, and

An ordinary burial was refused by the Canadian Bishop. Suit was entered to compel the Bishop to give the body ordinary burial. The case went through the Canadian Courts with contradictory decisions and was finally appealed to the Queen's Court in England, where judgment was rendered, ordering a burial of the body in the Episcopal Cemetery, but without any ceremony. Father Rousselet, the Curé, declares that he will go to jail before allowing Guibord's body to be buried in consecrated ground.

The Transit of Venus Over the Disc of the Sun.

(Translated from La Cronica of the 18th Inst.) Twice every hundred years the inhabitants of the earth can see the beautiful planet Venus delineated as a black spot over the luminous disc of the sun, and that phenomenon offers to the wise a valuable method of computing with mathematical precision the distance which separates us from the sun, the center of our planetary system.

One hundred and five years ago the transit of Venus was observed and the astronomers inferred that we were 111,000,000 miles distant from the sun, but in that computation they acknowledged some 1,200,000 miles as doubtful, and that uncertainty is what the astronomers of the different civilized nations are going to rectify on the 8th of December proximo.

France, England, Russia, Germany and the United States have already named their respective commissions, which, at the time we write this article, should be en route for their respective posts of observation. The French astronomers have chosen Yokohama, the island of San Pablo, Noumea, Mesate, Suez, Reunion and Pekin as the places where they will establish their observatories. The English will have stations in Alexandria, the islands of Kerguelen, Rodriguez, Sandwich, Auckland, the Antarctic polar circle, Australia and New Zealand. The Germans will locate in Japan, the islands of Kerguelen, Australia and Mexico. The Russians will observe from twenty stations situated across Russia, Siberia, China and Japan. The Americans have chosen China, Japan and the Sandwich Islands.

France, England, Russia, Germany and the United States have already named their respective commissions, which, at the time we write this article, should be en route for their respective posts of observation. The French astronomers have chosen Yokohama, the island of San Pablo, Noumea, Mesate, Suez, Reunion and Pekin as the places where they will establish their observatories. The English will have stations in Alexandria, the islands of Kerguelen, Rodriguez, Sandwich, Auckland, the Antarctic polar circle, Australia and New Zealand. The Germans will locate in Japan, the islands of Kerguelen, Australia and Mexico. The Russians will observe from twenty stations situated across Russia, Siberia, China and Japan. The Americans have chosen China, Japan and the Sandwich Islands.

The French astronomers, before leaving Paris, adjusted the magnificent apparatus with which they are provided, and made themselves thoroughly acquainted with its management, so that no delay, no vacillation or irresolution may compromise or endanger the success of their operations. Among their apparatus are counted the magnificent telescopes provided with watch mechanism which causes the instrument to follow the sun in its course, making it unnecessary for the astronomers to move the telescope, and the magnificent apparatus which instantly reproduces the image of the sun by means of an ingeniously contrived system of telescopes. Besides, the French astronomers encased their instruments in wood and the campaign tents which must shelter them.

The transit of Venus over the disc of the sun will last four hours, and the phenomenon of that nature will take place on the 8th of December, 1882, and will be visible in France and other countries where now it will be invisible.

DEED. EARLY—In Los Angeles, November 22d, Mary Morrison, wife of Wm. B. Early, aged 36 years. San Francisco, New York and Providence, R. I., papers please copy. BROWN—At the Sisters' Hospital, Little Hand Brown, aged four years. Saved from the cares of the world, her innocent spirit winged its flight to Heaven.

NEW TO-DAY. Competition is the Life of Trade. As some people say, but really it is not true to the opposition to any one in this world. All smokers are convinced long ago that I keep the best assortment and the finest brands of imported and domestic cigars, tobaccos, pipes, and all smokers' articles in this city, and unparalelled with the field should call.

WANTED.—FIRST-CLASS HANDS at the Eastern Dress-Making business, corner Los Angeles and Commercial streets. nov23-1m
