Los Angeles Herald

SUNDAY, JULY 18, 1875.

THE Leader says GORHAM scalped Booth and Bidwell in his speech at Stockton. As GEORGE has already done this thing about six or seven times, we begin to wonder about how many scalps those two men have to spare.

In a few months the Odd Fellows of Los Angeles propose to commence the construction of a large and elegant hall. The Order now owns two valuable lots and has a considerable sum of money on hand and at interest.

The Odd Fellow's Hall Association have declared a dividend of 4 1/2 per cent on the capital stock for the quarter ending June 30th.

It is a little curious to observe the solicitude manifested by our contemporaries for the Democratic party. They condescend with the party for the action of the Democratic committee in postponing the Crawford primary election.

We can tell them that the committee acted wisely and with due consideration for the expressed views of their time-honored leaders. The committee will in due time call an election for delegates to an old-fashioned County Convention, where the representative men of the party from every precinct will have a hearing and the party get the benefit of their honest deliberations.

If any one supposes that the Democrats of this county do not mean business, let them wait till they put their men in the field in due and ancient form.

The failure—most signal failure—of the Santa Monica land speculation scheme, ought to convince those who are tempted to enter into wild-cat speculations of like character of the utter worthlessness of a subsidized press.

No enterprise was ever more thoroughly advertised or more floridly puffed than this of the Jonesville manipulators. Everything possible was said in favor of it, and love, money nor regard for justice and right could get a word against it in the San Francisco or other papers employed by the managers.

telegraph lines, and we see no reason why it will not succeed. Under proper training, the soldiers will become proficient operators, line builders and electricians. Their time belongs to the Government, and if this time can be utilized in time of peace, it will be a good thing for both the Government and the soldier.

CHICAGO, July 14th.—A Tribune's Washington special says: The Custom receipts have steadily decreased during the past two years. The year ending June 30th, 1875, the receipts were \$188,500,000. The following year they fell off \$25,000,000, and the total receipts this year show a still further falling off of \$1,000,000. The cause of this is explained partially by the Commissioners of Customs upon the grounds of the dull state of business throughout the country.

Spadra as it was—its future to be not a Commercial but an Agricultural Centre—Pomona reserved—Scenery—Cucamonga Mountain.

EDITOR HERALD: Spadra has lost its importance as a centre of supply. The new depot at Colton will be the shipping point for those citizens of San Bernardino who are not in league to "break up the Southern Pacific Railroad" by hauling their goods from Santa Monica, and the advantages of Pomona will inevitably secure to it the trade of the surrounding country.

WASHINGTON, July 16th.—There is no truth in the rumor that England and Germany are co-operating with the United States in pressing on the Spanish Government the policy of abandoning her west Indian possessions.

NEW YORK, July 16th.—The Board of Directors of the American Rifle Association met yesterday afternoon. The only business before them was to arrange for the reception of the victorious team on their return to the United States. A committee was appointed, and authorized to take such measures as may seem proper to make the demonstration complete.

CHICAGO, July 16.—Prof. Donaldson and Mr. Marswald of the Evening Journal made a balloon ascension yesterday, leaving this city at 5 P. M. The balloon was inflated in San Bernardino across the Lake and was seen by a schooner at 7 o'clock, with the basket dipping in the water. The schooner neared them. The balloon again ascended and bore away north. Nothing has been heard from them since.

BEAVER, July 16.—Deputy Marshal Jerome Cross arrived here this evening with P. Klinger Smith in charge. Cross has been after him since June 22nd and has been in San Bernardino county, California. When found Smith was willing to come and give his testimony.

PORTLAND, July 14.—The Wallawalla Valley, Oregon, has been reopened for settlement by the whites. General Howard has ordered two companies of cavalry to establish a camp in the valley for the preservation of peace.

LONDON, July 16.—Competition is open to Americans at Wimbledon. They will have an opportunity to test their skill in other matches in the contests. The rules require the use of English rifles. The Americans have had some practice with these arms.

SAN FRANCISCO ITEMS. SAN FRANCISCO, July 17th.—The Editorial excursion party arrived last night by the Vallejo train.

The ticket of the Temperance Reform party is falling in pieces, Col. J. B. Goodrich, candidate for Lieutenant Governor, and W. H. Baxter for Secretary of State, have sent in their declinations. Anthony, for Clerk of the Supreme Court, also declines to run on the ticket.

The railroad officers at Fourth and Townsend streets were alive with electricity for several companies. The other officers of the roads are to be chosen within a day or two. For the Sacramento Valley, L. Stanford, C. P. Huntington, Mark Hopkins, E. H. Miller Jr. and C. Crocker were elected Directors. For the San Pedro and Visalia, L. Stanford, C. P. Huntington, Mark Hopkins, E. H. Miller Jr., Robert Robinson, C. H. Cummings and N. P. Smith. For the Stockton and Cooperopolis the same Directors as those elected for the Stockton and Visalia road. For the Central Pacific, L. Stanford, C. P. Huntington, Mark Hopkins, E. H. Miller Jr., Robert Robinson, C. H. Cummings and Chas. Crocker. For the Northern Railroad Company, L. Stanford, C. P. Huntington, Mark Hopkins, E. H. Miller Jr., Robert Robinson, C. H. Cummings and Chas. Crocker. For the California Pacific, R. P. Hammond, George E. Gray, J. L. Willcutt, Chas. J. Robinson, N. T. Smith, Moses Hopkins and J. O. B. Gunn.

CHICO RANCH. Is to be cut up into small tracts, and that will, of course, increase the importance of Pomona. So far as a place of residence is concerned, any part of the adjoining country would be as fine with a water supply, were it not that the Pomona is so favorably situated as a centre of supply. A depot is to be erected immediately, a store is to be built, and a Postoffice has been petitioned for. Town lots are selling at good prices, say from \$100 to \$150 each. The climate of Pomona is somewhat less oppressive than that of Los Angeles at the same temperature. At two o'clock yesterday the temperature was ninety-four degrees at the house of Mr. Hutchinson near by, and still it was pleasant for walking. The intervening hills rob the coast winds of much of their moisture, and hence the superiority of the climate. As to SCENERY. If any one can imagine what it is to have at hand an ever-changing view of the Cucamonga peaks, distant about ten miles, he can understand one of the great features of life at Pomona. The views all around are pleasant, but this is grand. A trip to San Bernardino over the new railroad shows up this mountain to fine advantage through many miles of riding.

NEW YORK, July 16th.—This afternoon Judge Donahue gave his decision ordering the bill of particulars admitted by the defendant in the civil suit of the people vs. Wm. M. Tweed.

Important to Merchants Dealing with China.

WASHINGTON, July 1st.—At the request of the Treasury Department the Secretary of State has issued a circular to the Consul officers in China, instructing them that all invoices of goods shipped to the United States should be made out in taels, and a certificate should be attached in each instance embodying the name of the particular tael in which the invoice is made out and its value in United States money. This course was rendered necessary by the great number of taels prevailing in China and the diversity of values attached thereto.
