REASONS WHY REMINGTON FAMILY SEWING MACHINES Are Superior to All Others.

FIRST—THEIR SIMPLICITY. The use of them is very easily acquired, and any girl of ordinary intelligence is capable of keeping them in order.

SECOND—THE CONSTRUCTION OF THE Machine is such that it may be run at a higher rate of speed than any Shuttle Machine now in the market.

THIRD—THEIR DURABILITY. Being so strong in all their parts and fitted with great mechanical nicety, and being free from the harsh jarring movements and friction so common in inferior machines.

FOURTH—THEIR ADAPTABILITY. By a simple change of the needle and thread they will sew the finest cambric or the heaviest leather.

FIFTH—THEY HAVE NO ROTARY CAMS, Cog-wheels or lever arms to make a noise, run hard, or to get out of order.

SIXTH—THEY HAVE AN ADJUSTABLE FEED which may be raised or lowered at pleasure. SEVENTH—ALL THEIR MOVEMENTS are positive and they cannot be thrown out of time.

Manufactured by the Largest Manufacturing Company in America, possessing a world-wide reputation in the manufacture of their machines, they afford a guarantee of perfection in work and construction.

No other sewing machine has ever been introduced so quickly and met with such rapid sale as the REMINGTON.

It arouses the jealousy, opposition and persistent misrepresentation of the older Sewing Machine Companies through their agents, and even the old Singer Company, through its agents, devotes the largest part of its advertisements to show that it is not an improved Singer, and that its calculations are upon a false basis.

With malice toward none, and charity for all, it will be the aim of the agent of the Remington Sewing Machine to afford to all an opportunity of testing its merits with those of any other, and let them make their own selection.

BUY THE BEST. A. M. JAMES & CO., General Agent for Southern California, 60 and 62 Spring Street, LOS ANGELES, CAL.
