

By Yesterday Evening's Mail. Letter from Orange County. Correspondence of the Alexandria Gazette. GORDONVILLE, Monday, July 19.—Sunday last was a great day at Tolebarth, which is some half mile from Madison Run Station, on the Orange and Alexandria Railroad, and about five miles from Gordonsville. The dedication of the new Baptist Church took place, and we saw almost as great a variety of persons as can be seen in the same number anywhere. There was the venerable head of the aged, blossoming for the grave; the middle-aged, the blooming youth, and the lovely hearted child, all enjoying themselves, notwithstanding the day was quite warm. After the first service by Rev. R. A. Dickerson, the ladies of the neighborhood brought out their baskets, which were well filled with the very best of fried chicken and delicious pies, of which we were all invited to partake, and you may be sure the chicken, &c., disappeared, when you consider that one of the congregation walked from five to eight miles, as is usual in the country. After the meal, another sermon was preached by Rev. M. D., and the congregation duly dismissed. The new church is built of brick, and is said to be one of the prettiest in the county, and does much credit to the contractor, as well as to those who were instrumental in having it built. We hope that much good may be done through the instrumentalities of the truly pious and amiable pastor, Rev. Charles Quares. Our village is quiet, and whilst we write the earth is drinking in one of the gentlest showers. W.

Letter from Warrenton. Warrenton, Va., July 20.—Since I last wrote you, we have been favored with several copious showers of rain, which had the tendency to relieve us of the oppressive heat from which we were suffering. The effects of the rains upon vegetation are distinctly visible, and already the corn crop gives promise of a good yield. The M. E. Church, South, have determined to hold a camp meeting, for this circuit, to embrace the first Sabbath in September. It will be held at Bethel, four miles from this place—upon the same ground that was last year used for the same purpose. The venerable Chief Justice Tancy and family, are now at the Fauquier White Sulphur Springs, where they intend spending the season. The aged and distinguished jurist, though feeble, is in the enjoyment of tolerable health. That he may long live, and his valuable services be continued to his country, is the earnest wish of all who know him. The July term of our County Court, will be held on Monday next. The following are the Justices: Beckham Payne, P. J., A. M. Smith, J. G. Richards, Wm. Colvin, and Robert Hume.

THE PURCHASE OF MOUNT VERNON.—The terms upon which Mount Vernon has been purchased, as we learn from the Philadelphia Enquirer, are as follows: \$1,000,000 cash paid to Mr. J. A. Washington; \$750,000 to be paid on 1st of January, 1859; \$1,000,000 to be paid on 22d of February, 1861; \$1,000,000 to be paid on 22d of February, 1862; \$1,000,000 to be paid on 22d of February, 1862.

THE DECEASED PAYMENTS are to carry interest from date, and possession and title to remain with Mr. Washington, till paid in full, with the proviso of obtaining possession at any time, by thirty days' notice, when the Association is prepared, and does pay the entire amount of purchase money. The \$18,456.66 to be paid to Mr. Washington, and the same now in the treasury of the Association, contributed by private persons and public bodies, and gathered from the lectures of Mr. Everett, are sufficient to meet the January payment; but the means necessary to meet the interest on the notes and the three subsequent payments are yet to be raised.—Richmond Enquirer.

ROCKINGHAM COUNTY.—A correspondent of the Petersburg "Express" states that a bee mania is raging there now, and every body is anxious to have a swarm of bees.—It is no unusual occurrence to see gentlemen walking the streets with a swelled face. An Editor in this place has got the "bee fever," and purchases several hives. The drones have been very plentiful about his hive, and he has been killing them off. A few evenings since he was at his employment, when he got hold of some that were not "drones," and he has been running about with a swelled head since. He has concluded to let the "drones" alone. The wheat and oats in this county have been pretty nearly all harvested, and the wheat will not yield more than half a crop. What there is, is very inferior, and we are informed some of it will not weigh more than 45 or 50 pounds to the bushel. The oat crop is tolerably good.

HAY AND GRAIN PROTECTORS.—This is a new down-East invention, consisting of cloths or coverings, unobscurable to mildew, which can be at once thrown over the hay cocks, or corn, &c., in the field during wet weather. These coverings are fastened down by pegs driven into the ground, and range in price at from 25 cts. 62 cts., according to size. Chas. & F. of Boston, prepare the articles.—Rich. Eng.

WATERMELONS.—The first of this delicious fruit that we have seen this season, was yesterday found on the well-supplied table of the enterprising proprietors of Jarratt's Hotel.—Petersburg Democrat.

John McDiab, a giant from Georgia, passed through Norfolk on Friday. He weighs 300 lbs., and is said to be 7 feet in height.

LOCAL ITEMS. COTTON FACTORY.—It is stated that the Mount Vernon Cotton Factory, in this place, has been sold to Dr. John Reencranz, and others, of Philadelphia, for \$35,000. The purchasers have commenced putting the machinery in good running order, and expect to commence operations in August—hands now being employed with this view. We are rejoiced to hear this.

TRAMMELL AND SMITH.—Nothing has yet been heard of the whereabouts of Trammell and Smith, who broke jail on Sunday night last. The tag which went in search of them down the river, returned on Monday night, without having seen any thing of them. The jailor, it will be seen, offers a reward of two hundred dollars for their apprehension.

A CANAL BOAT SUNK.—A boat having on a load of coal was sunk in a water 10 feet deep, near the wharf of the Cumberland Coal and Iron Co., in this city, on Tuesday last. It appears that the bands were intoxicated, and unable to manage the boat, which struck against the rock, at the entrance of the canal from the wharf, with such force as to sink her almost immediately. The boat, and the cargo by the Frostburg Coal Company, and the water has since been drawn out of the canal and efforts are making to raise the boat.

NO BOATING YET.—The "Strike" remains unsoftened, and boating matters upon the canal are still *status quo*. As we stated last week some of the companies had signified their willingness to give \$1.25 per ton freight (which price is at present satisfactory to the boatmen) but one of the largest shippers—the Cumberland Coal and Iron Company, still refuse the advance from \$1.15 to \$1.25, and, of course, large bodies control smaller ones, hence no prices can be established until that company is agreed. The persistent course of the Cumberland Coal and Iron Company is very strongly condemned by the citizens of this county in general, and perhaps very justly too.—Cumb. Citizen.

The corner stone of St. Andrew's Free Episcopal Church, on 14th street, in Washington, was laid on Monday evening. Several of the Protestant Episcopal Clergy of the District united with Rev. Mr. Harold, the Rector, in performing the appropriate services of the occasion.

GOOD SALE.—We learn that Doct. John S. Hughes, of Rippahannock County, sold a short time since, a negro man, a blacksmith, for the sum of \$1700. He was purchased by a gentleman from Mississippi for his own plantation.

We learn that the Baptists purpose holding a Camp-meeting, within four miles of Leesville, Rappahannock County, and the same distance from Jefferson, in Culpeper County, commencing on the 13th of August.

RAKE—A match race is announced to take place on Thursday, (to-morrow), at the course near the Long Bridge, for \$500 aside.

More Rain yesterday. The Corn is growing apace.

WASHINGTON CITY FINANCES.—The assessed value of real and personal property in this city, amounts to twenty-six millions of dollars, producing an annual revenue of \$175,000. The sum derived from licenses is about \$69,000, making the total revenue of the city of Washington about \$244,000. The collector of taxes has reported to the register that the whole amount of taxes collected for the year ending July 1, 1858, is \$211,186 75, whilst the amount collected during the preceding year was \$162,001 26. These statistics show an increase over the collections of 1857 of \$49,185 40. We might allude in this connection to the indebtedness of the city, which was incurred by the purchase of railroad stocks and of the preferred bonds of the Chesapeake and Ohio Railroad Company; the latter having been retained by the corporation a close year or three thousand dollars a year. The whole indebtedness at the present time is estimated at about \$240,000, although this is rather a matter of conjecture than of actual calculation. We understand that the Mayor is having prepared a clear and concise statement of all the indebtedness of the city and its financial affairs.—Union.

BY MAGNETIC TELEGRAPH. THREE DAYS LATER FROM EUROPE. ARRIVAL OF THE NORTH STAR. NEW YORK, July 20.—The steamship North Star arrived here this forenoon, from Southampton on the 7th. She brings intelligence that the Atlantic cable had again parted about one thousand miles from Ireland. The Niagara and her tender, the Gorgan arrived at Queenstown on the 5th, but the Agamemnon and Valorous had not arrived.

The steamship Asia had arrived out. The Niagara and Gorgan arrived at Queenstown on the 5th of July, with news that the cable had parted on board the Agamemnon on the 29th of June, about 1,000 miles from Ireland, when they had paid out 142 miles. All was going on perfectly well on board the Niagara, when the signal from the Agamemnon ceased, and from the electrician's test it was believed that the cable had parted.

After the communication ceased, the Niagara was allowed to swing by the cable, and in addition to that strain four tons were applied to the breaks. Although the wind was blowing fresh at the time, the cable held her an hour when a sudden pitch caused by a heavy sea, snapped it, and the Niagara bore away for Queenstown.

Should nothing be heard of the Agamemnon, the Niagara, after coaling, will again proceed to mid-ocean—she having still 1,300 miles of the cable on board. It was conjectured that the Agamemnon had not consumed the average quantity of coal at the time of the accident, and is therefore awaiting the return of the Niagara. On the receipt of the intelligence, a universal regret was expressed at the Liverpool Exchange, and a fall in shares took place.

COMMERCIAL.—LIVERPOOL.—Cotton had advanced 1/4; sales of three days, 32,900 bales. Speculators taking 4,000. Fair and middling qualities had improved most, and the market closed firm. Breadstuffs.—The weather had been favorable for the crops, and prices had advanced. Richardson, Science & Co. report Flour 6d 1/2; high—quoting Baltimore and Philadelphia at 2 1/2 cts 6d, and Ohio 2 1/2 cts 6d. Wheat is higher; red 6s 3d 1/2; white Western 6s 3d 1/2; 6d, and white Southern 6s 9d 1/2 5d. Corn firm, with a partial advance of 6d 1/2; white 3s 6d, yellow nominal at 3s 2 1/2 3d. A CARD.—WM S. KEMPER and his sons, D & K. KEMPER, having purchased the ALEXANDRIA BOARDING SCHOOL PROPERTY, APPARATUS, &c., will take charge of that Institution after the 21st of July, and will be glad to receive the very high testimonials they possess from the different members of the Faculty of the University of Virginia, where the father was for seven years Proctor, and the sons were both educated, that I think them highly qualified to conduct the establishment in a manner that will sustain, or even add to, any reputation it has hitherto possessed, and justify entire confidence to the confidence of those who may have children or wards to entrust to their care. BENJAMIN HALLOWELL, Alexandria, Va. 6 mo 19th, 1858.

THE ALEXANDRIA BOARDING SCHOOL. From the preceding card, it will be seen that the undersigned has purchased the buildings, apparatus, &c. of Benj. Hallowell's Alexandria Boarding School, and will open the institution for its 35th annual session on the 1st of October next, closing on 15th July following, in conjunction with Messrs. J. G. CLARK and DELAWARE and KOSCIUSKO KEMPER. The location of this School is undoubtedly one of the best in the country, as is evidenced by its having been constantly full for many years. The buildings were erected expressly for use as a Boarding School, and are admirably adapted for that purpose. Gas and water are introduced throughout the establishment.

The object of the School will be to prepare Boys for the University of Virginia, or any other College, or to fit them for the duties of life. The course of study will embrace the elementary English branches, the Latin, Greek, French, German, and Spanish Languages, a complete course of pure Mathematics, Natural Philosophy, Chemistry, and Astronomy.

The costly and extensive Philosophical and Chemical Apparatus, a fine Telescope, Globes, Engineering Instruments, and a large collection of Minerals, Shells, &c., will give our students advantages rarely offered by private schools.

The Principal was connected with the University, for seven years, as Proctor and Patron, his teachers were all educated there, and besides their diplomas, they possess very flattering testimonials from their Professors. Mr. Clark especially is exceedingly well recommended; he is at present, Assistant Instructor in Mathematics in the University, but will resign that position at the close of the present session, and every effort will be made to sustain his high reputation it has enjoyed under Mr. Hallowell's management.

TERMS.—For Board, Washing, and Tuition in all the branches except Modern Languages, \$250 for the session, payable half at the commencement and half at the middle of the term. Instruction in French, German, and Spanish, each, 25 cts. Charge for Fuel and Gas, \$10. The above are identical with Mr. H.'s terms except that Latin and Greek are no longer made extra charges, but are now included in the regular course. The session will also be prolonged two weeks.
