

Remarkable Escape from Death.

On the 6th instant occurred in this city one of the most remarkable escapes from a horrid death, which are beyond explanation or comprehension. Mr. S. Goujean, one of the contractors in building for Mr. George Oehri, on the corner of Main and Monroe streets, took his little son, a sprightly but rather delicate child, between two and three years of age, to the third story, where the workmen were engaged in having the floor for greater convenience and security in putting on the roof. While engaged in giving some instructions concerning the work, the child was momentarily left unheeded, and in seeking to gratify that curiosity so natural to that age, fell through an opening left for a stairway, to the cellar, a distance of some forty feet. The two sets of joists through which it passed in its descent were unusually close together, and it is scarcely possible he could have avoided striking them, and the floor of the cellar is of solid rock, having some four or five inches of the child, having been in the office of Dr. Johnson, which was taken to the office of Dr. Johnson, and immediately opposite, and its wounds and immediately dressed; but a careful examination showed that not a bone was broken, or even fractured. The only wound the child received was immediately over the left eye, being a cut about three inches long; but the body and limbs were covered with bruises. On yesterday morning the child was doing well, and will soon recover, if inflammation of the brain can be guarded against. - St. Louis Republican.

Regardless of Results.

We have never known railroad Democracy better treated than in the following declaration. It was recently made by Mr. Avery, Democratic candidate for Congress in the Memphis District in Tennessee: "I am a Democrat now—so declared myself three or four years ago, and ever intend to be one—and all questions of party divisions, I have voted with the Democracy and intend doing so as long as I live, in or out of Congress, so matter what may be the result."

Senator Douglas.

The Louisville Courier gets off the following: "A SAD CASE. Little Doug was sofly affected, that he would not eat or drink. He'll remain S. A. D. if elected, and be S. A. D. if he's not."

Mr. Stockton, the United States Minister at Rome, is taking energetic measures for obtaining satisfactory reparation in behalf of a highly respectable American citizen, who was in Perugia at the time of the conflict, by which he was a sufferer, to a considerable amount. This is Mr. Edward Newton Perkins, of Boston, who had arrived in that unfortunate town from Rome, on the 15th instant, with Mrs. Perkins, Mrs. Doane, widow of the late Bishop of New Jersey, Mrs. and Miss Clements.

John Charles Gardner was on Saturday morning released from jail, on giving the required bail in the case of false swearing, on the validity of the claim held by his brother, the bail was \$3,000, and the surety Col. John T. Pickett. In the case of perjury, with which he is charged before the court, at the trial of his brother, the amount of bail was also \$3,000, and the surety Mr. Joseph B. Stewart. - Wash. Star.

The Lynchburg Republican says it has no recollection of any year in which such unanimous testimony was borne in relation to the abundant return which has rewarded the labors of the farmer.

LOCAL ITEMS.

CHESAPEAKE AND OHIO CANAL.—Owing, doubtless, to many of the boats not belonging to the coal companies, or entered in their lines, being shut out or stopped from running by the companies, the arrivals by the canal have not been so numerous this week as they were last. Seventy-two in all have arrived, 64 of them from Cumberland, bringing 7,300 tons of coal and the remainder from various points with tan bark, wood, &c. The receipts of tolls at the Georgetown collector's office for the same period amounts to \$3,970.72, as follows: ascending trade \$399.57, descending, \$3,571.15.—Georgetown Corr. of Wash. Star.

LARKENS.—Two men were seen on Saturday morning last, between one and two o'clock, to take an anchor and chain, valued at about \$15, from a long boat lying near Messrs. Goodland & Thompson's ship-yard, place it in their boat, and make off with it. On examination it was found that an anchor and chain belonging to another boat were also gone, and Wm. Tyler, and J. P. Weems, (neither of them citizens of this place) were arrested for the thefts by Officer Warder and taken before Justice Pierce, when evidence was elicited sufficient to send them on for trial at court for the first mentioned offence, but nothing was proved against them in the latter case. In default of bail, the prisoners were committed.

CHESAPEAKE AND OHIO CANAL.—Owing, doubtless, to many of the boats not belonging to the coal companies, or entered in their lines, being shut out or stopped from running by the companies, the arrivals by the canal have not been so numerous this week as they were last. Seventy-two in all have arrived, 64 of them from Cumberland, bringing 7,300 tons of coal and the remainder from various points with tan bark, wood, &c. The receipts of tolls at the Georgetown collector's office for the same period amounts to \$3,970.72, as follows: ascending trade \$399.57, descending, \$3,571.15.—Georgetown Corr. of Wash. Star.

LARKENS.—Two men were seen on Saturday morning last, between one and two o'clock, to take an anchor and chain, valued at about \$15, from a long boat lying near Messrs. Goodland & Thompson's ship-yard, place it in their boat, and make off with it. On examination it was found that an anchor and chain belonging to another boat were also gone, and Wm. Tyler, and J. P. Weems, (neither of them citizens of this place) were arrested for the thefts by Officer Warder and taken before Justice Pierce, when evidence was elicited sufficient to send them on for trial at court for the first mentioned offence, but nothing was proved against them in the latter case. In default of bail, the prisoners were committed.

FATAL ACCIDENT.—We learn that the road train on the Orange and Alexandria Railroad ran off the track on Saturday evening, near Springfield Station, and one of the cars fell upon one of the employees on the train, Mr. James Sillicks, killing him almost instantly. THE LYNCHBURG FURNACE finished for a distance of about twelve miles out of town. The material train passes over the road, two or three times a week to station No. 1, located at the intersection of the Extension and the Staunton and Scottsville turnpike road. Track laying has been commenced at the Lynchburg end, and will be at intermediate points as soon as the material can be supplied, so that, if no unforeseen detour occurs, there is a strong hope that the trains will pass through to Lynchburg in the early part of next year. - Charlottesville Advertiser.
