

CONGRESS.

[REPORTED FOR THE ALEXANDRIA GAZETTE.] Senate, Wednesday, May 3. The House bill for the relief of the Shawnee Indians was taken up and passed.

On motion of Mr. Davis, the resolutions offered by him some time ago, on the slave-trade question, were made the special order for Monday next.

Mr. Johnson, of Ark., moved that when the Senate adjourn it be to meet on Friday next, so ordered.

The Senate then went into Executive session, and after a short time therein, adjourned.

House of Representatives. The Speaker laid before the House a message from the President of the United States, communicating documents in relation to the affairs of Utah, not heretofore published, to show the condition of that Territory.

Mr. Kellogg, of Illinois, asked leave to introduce a bill to exempt from duty the iron for the Central American Railroad Company. Various objections being made to its introduction, it was passed over.

Mr. Dunn, of Ind., moved a call of the House. He said apparently there was no quorum present, and as he believed there was one in the city, he wanted the country to know who those members were that absented themselves from the sessions of the House.

The call being ordered, a quorum was found to be present. On motion, the House resolved itself into Committee of the Whole.

Mr. English, of Ind., addressed the House, declaring that both wings of the Democratic party at Charleston had shown a disposition to rule or ruin, and declared that the people would hold to a strict responsibility those who, on minor differences, imperilled the supremacy of the Democratic party.

Clouds lowered upon the Democratic party, but he believed in God, that the result of absolute Black Republican rule would be the establishment of negro equality.

Mr. Seward, of New York, declared to Gov. Smith, that he would rather have free negroes of Va., than white Irishmen.

He mentioned the advice of a Black Republican preacher to Indiana Sunday School girls to marry a negro rather than a white man who drank whiskey; alluded to the Helper book declaration that negroes were more qualified to be citizens than Irish or Germans; and finally declared that under even moderate Black Republican rule, a white man might be arrested on the affidavit of a negro; on a warrant issued by a negro magistrate; by a negro constable; committed to the custody of a negro jailor; tried by a jury of negroes; convicted by a negro jury; executed by a negro hangman, and after his death a negro might marry his widow.

He said that the black race could only be elevated as slaves. As a free man the only ambition of a negro was to be a boss-barber, to have a banjo, and a white wife. He concluded by calling on all true men to rally and put down Black Republicanism as fatal to the best interests of the country.

Mr. Colfax, of Ind., and Mr. Davis, of Mass., contradicted certain matters of fact stated by Mr. English, which led to a colloquy.

Mr. Smith, of N. C., then addressed the committee, denying that the policy of the founders of the federal government was opposed to the extension of slavery. He cited the slave territories received from North Carolina and Georgia with an express pro slavery proviso annexed to the act ofcession as proof of this.

The committee then rose and the House adjourned.

Methodist Quadrangular Conference. BYTALO, May 1.—The quadrangular General Conference of the Methodist Episcopal Church commenced its sessions in this city to-day. Bishop Morris of Cincinnati presiding.

A FINE IMPROVEMENT.—The past ten years have probably added more largely to the architectural beauty of this city than any previous thirty years. The good work still continues. Many handsome, and some very elegant improvements are now in progress, and others projected.

Among the latter, is an elegant addition to the Chair and Cabinet Manufactory of C. C. Bradley & Co. It is to take the place of the frame building, at the corner of King and Alfred streets, so long the business location of the Messrs. Bradley.

The new edifice will be of brick, with four stories, rising to a height of sixty feet. The King street front will show on the lower story, six finely carved doors, opening into three stories—the story to be capped by a neat cornice, which will form a base for two pilasters that will rise between the ranges of windows, and seem to support a cornice five feet wide, and of elegant design, with which it is intended to crown the building.

Each of the three upper stories will show on the King street side, three windows of the newest designs, and finished off with a rich cornice. The cornice and upper windows of the Alfred street front will be similar to those on King street. The lower story, on Alfred, will differ from that on King street only in having one door—at the extreme Northern end—in lieu of six, and three false windows.

Three new stores, neatly ornamented, and fitted up with every moderate convenience, will occupy the lower story of the new building. The other stories, which are to be reached by a spacious stairway, will be used by the Messrs. Bradley in the prosecution of their extensive Home Manufactory.

They will be furnished with everything needed for useful purposes. The second story which will be brought into use as a Furniture Ware-room, will be fourteen feet in height, and the finest room of the kind in this section of the country, and may easily be converted into a saloon for public meetings, exhibitions, &c.

The whole improvement will be as creditable to the skill of the architect, Mr. Mossell, as to the liberal spirit of the Messrs. Bradley. The old building will cumber the ground for but a few days longer, and as soon as it is cleared away, the new building will be commenced.

FIRE DEPARTMENT, LAST NIGHT.—The annual meeting of the Department was held at the Friendship Engine House, last evening, present: Major Geo. T. Whittington, 1st Vice President, and Messrs. Carnie, Rudd, Walker, Molair, Adams, and Latham, and the Chief Engineer.

After the reading of the minutes, the certificate of qualification of Samuel R. Adams, esq., as Warden No. 5, was read and ordered on file, and the Committee on Printing By-Laws made a report, which was accepted.

The Committee on Badges, reported that, with the approbation of the Mayor, they had ordered a five pointed silver star for each Warden, with the words "Fire Wardens" on each side, and for each President, an oval badge of the same material, with his designation, the same to be worn on the left lapel at fires.

The election of officers was then proceeded with, as required by the By-Laws, and the following gentlemen were duly elected, viz: George T. Whittington, of No. 1, President; Hugh Latham, of No. 2, 1st Vice President; Richard H. Stabler, of No. 4, 2d Vice President; Richard L. Carne, jr., of No. 5, Secretary, and John W. Green, of No. 3, Treasurer.

On motion of Mr. Latham, it was ordered, that immediately upon the receipt of the new badge, the Secretary hand over the same to the respective Presidents and Wardens, and that they be required to return the same to that officer, the President on the day of the 1st meeting in January, and the Wardens on the day after the election of Fire Wardens in each year.

And the Department adjourned to meet at the Hall of the Star Fire Company on Wednesday, the 6th of June next.

COUNTY COURT.—The County Court of this County opens its May term at the Court House, in this City, on Monday next.

The following are the Justices appointed by the Court to hold the term: Turner Dixon, presiding Justice; H. Fowle, L. B. Powell, R. V. Jolett, and Robt. Brockett, associate Justices.

The term is that of an ordinary monthly Court, but its proceedings will be of considerable interest, as during the term the Commissioners to hold the Spring election will be appointed, and other interesting county business transacted.

JAPANESE EMBASSY.—The United States naval commission charged with the care of the expected Japanese Embassy by the President, have engaged for their occupancy, while sojourning in the Federal Metropolis, a suite of about sixty rooms at Willard's Hotel. The Messrs. Willard are now busily engaged in fitting them up for their reception, their mode of living being in many respects essentially different from that of American or European travelers.

TRAINING OF THE OFFICERS.—The training of the officers of the 175th Regiment of Virginia Militia, commenced yesterday afternoon, and will be continued to-day and to-morrow. The training is conducted by A. T. M. Rust, Brigade Inspector. The general muster of the Regiment takes place on Saturday.

GREEN PEAS.—Mr. J. W. Ryan, whose stand in the Market always contains something tempting to the appetite, yesterday offered to those willing and able to indulge in luxuries, some very fine Green Peas, the first that have been offered in our market this season. Mr. R. has our thanks for remembering us. B. T. PLUMMER.

LOUDBON ITEMS.

The Loudoun Mirror of yesterday, contains the following items of interest. Gen. Asa Rogers has been promoted to Major General of 2d Division Virginia Militia, and Col. Robert L. Wright appointed Brigadier General for the 6th Brigade, 2nd Division, Virginia Militia, vice Gen. Rogers, promoted.

The sale of Megawick's property, which took place a few weeks since, under a decree of the Court, has been set aside by the Judge, and ordered to be resold.

The young man, Stonestreet, whose injury on the railroad we noticed last week, is still living, though we regret to state, with slight hopes of his recovery.

The Circuit Court is still in session. A good deal of business has been disposed of during the week. The case of Beatty's Administrator vs. John W. Gover's Trustee, involving some \$4,000, was taken up on Friday, and is progressing at this time, (Tuesday evening.) Counsel for the plaintiff, Tucker, Harrison, and Chancellor; for the defendant, Janney and Tebbis.

A contract has been entered into between the Post Office Department and the Alexandria, Loudoun and Hampshire Railroad, and Lewis McKenzie, Esq., President, for the conveyance of mail daily mail between Alexandria and Leesburg. We congratulate our people upon the success of this arrangement. Our mail facilities will be greatly improved, and the vexatious annoyances to which we have been frequently subjected under the old plan, we hope entirely obviated.

The first mail transported under the new order, was received at this place on yesterday, Tuesday. In the above connection, we are requested by the Postmaster at Leesburg to state, that hereafter, all mail matter destined for Alexandria, Washington city, or any point South of that, will be forwarded over the above route—the mail closing each day at 11 o'clock, a. m., until further ordered.

SOUTHERN MANUFACTURE.

Reaping and Mowing Machine.

FOR 1860.

KIRBY'S AMERICAN HARVESTER.

THE SUPERIORITY OF KIRBY'S AMERICAN HARVESTER, over all others, will become more obvious by looking at its several superior points in detail, and comparing them with all the other machines which are combined in one MACHINE, in the most simple and effective manner. In some of these excellencies it is entirely unequalled, and in none of them is it surpassed. While other MACHINES may equal it in some of its details, no other MACHINE in the world which COMBINES ALL THE EXCELLENCIES that are found combined in KIRBY'S AMERICAN HARVESTER.

We would call the attention of Farmers to the following facts: 1. That—This is the most perfect Combined Mower and Reaper in use; better than any single mower as a mower, and better than any single reaper as a reaper.

2. That—It is the strongest and the lightest; being made entirely of iron, except pole, seat and platform. The finger-bar is of wrought iron, of great strength and lightness.

3. That—It has a Revolving Track-Clearer, which is the best made, and will clear all the material that is cut from the uncut grass, and without leaving the cut grass in bunches.

4. That—It requires one-third less draft than any other MACHINE. 5. That—No PRESENCE IS MADE UPON THE HORSE'S SEAT, as in the case of the other machines, which is a great objection, and makes the driver uncomfortable.

6. That—Its ability to work on rough ground is not equalled by any machine yet produced. The finger-bar working up and down, independent of the driving wheel, enables the machine to go through deep furrows, ditches, hills, where no other machine could follow it. It will work from 2 to 18 inches high.

7. That—It can be moved in mowing either with or without the reel. 8. That—In mowing and reaping, the position of the driver and raker are the most convenient and easy, enabling them to do their labor with but little exertion.

9. That—While the machine is in motion the driver can, by means of a lever, throw the cutters down, and raise or lower the finger-bar to pass obstructions, or move from field to field.

10. That—It is easily managed, marvelously simple, well built, compact, not liable to get out of order, made of the best material, and with the most perfect adjustment. THE MACHINES are in all cases warranted to give satisfaction, or no sale. Manufactured by D. M. OSBORNE & CO., 145, Pratt street, BALTIMORE. Address, KNOX & BRO., for Alexandria, Va. ap 28—60—1m

A BEAUTIFUL COUNTRY RESIDENCE FOR SALE. I AM AUTHORIZED TO SELL that new and beautiful residence on Shuter's Hill, with TWENTY ACRES LAND attached, belonging to, and now in the occupancy of Knott's heirs. This is one of the best situated in Fairfax County, and therefore not liable to Corporation taxes—is half way between Alexandria and the Theological Seminary, with excellent roads to both, and only half an hour's walk to either. THE HOUSE is a double story, with a porch, and finished in excellent style throughout. The kitchen is thirty feet from the house, but is connected by a shed, and between the house and kitchen, under the shed, is a fine well, by attaching hose to which water can be thrown all over the house in case of fire. There is an excellent smoke-house, barn, and stable, carriage and corn-houses, excellent fencing, most of it being well set in clover and timothy, and there is a peach and apple orchard of young and choice trees, a large patch of choice strawberries, vegetables in every variety, shade and ornamental trees, and every desirable convenience.

Two never failing streams of water run through the place, and there is also a spring of excellent water, with a horse over it, not far from the dwelling. To any one wanting a quiet and pleasant home, with all the conveniences, and many other attractions and advantages, and will be sold at a bargain. B. T. PLUMMER.

N. B. I have authority also to sell TWO DWELLINGS, in the city, one a brick, and new, and the other a frame, and pleasantly situated. Apply to—B. T. P. my 1—60—1m

LATER FROM EUROPE.

ARRIVAL OF THE CANADA.

HALFAX, May 2.—The steamer Canada has arrived, bringing dates from Liverpool to the 21st ult. The Arabia had arrived out. There has been nothing determined in reference to the fight between Heenan and Sayers. The referees will make known the decision next week. Both the combatants declare their anxiety to become friends. The friends of Heenan claim that he actually won the belt, but Sayers' friends are equally sanguine.

The Prince of Wales was to have sailed for Canada in the end of April. The Sicilian insurrection had apparently subsided. COMMERCIAL.—Cotton was lower; Middling qualities had declined 1/2. Some authorities say that inferior grades had declined fully 1/2. Sales for the week amounted to 58,500 bales. The estimated sales on Saturday were 10,000 bales. The following were the principal firms: Flour.—McIntosh, Spence & Co. quote Flour firm, at 24@26s. Wheat firm, but quiet. Corn has advanced 3d. @ 6d.

Some circulars quote Flour at an advance of 6d., and Wheat advanced 1d. Provisions quiet. Rice firm, with large sales at 3s. 6d. @ 4s. ad. advance. Rosin is dull, and slightly lower. Turpentine dull, at 35@35 1/2. Consols closed at 94 1/2 @ 94 1/2.

The New Mexican Mail.

INDEPENDENCE, Mo., May 1.—The Santa Fe mail from Pawnee Fork arrived to-day. The conductor reports the road alive with emigrants, who were getting along well.—The grass is not very good, but they can obtain corn some three hundred miles out. There has been no thorough mail since the 4th of last month, and there is no telling when one will arrive, as there are not yet sufficient gold in the mines to start the mail. Two companies of United States infantry were left at Collinswood. They are to be stationed at Pawnee Fork.

The Philadelphia Election.

PHILADELPHIA, May 2.—Henry, the present incumbent, and People's candidate for Mayor, is elected by a majority of 816. Downing, (Dem.), for City Comptroller, is elected by 120. The rest of the People's ticket is elected. The Select Council stand—13 People's and 11 Democrats. The Common Council stand—52 People's and 36 Democrats. Nearly 70,000 votes were polled.

Railroad Accident.

ALBANY, May 1.—At 3 o'clock this afternoon, the morning way freight and passenger train ran off the track within a mile of this city, owing to the displacement of a switch. Three of the freight cars were thrown down an embankment twenty feet high, shattering them to pieces. The locomotive did not go down in the ditch, and the engineer and fireman escaped without injury. No passengers injured.

Fire in Chicago.

CHICAGO, May 1.—A fire broke out this morning in the clothing store of Barrett, King & Co., which destroyed the entire stock valued at \$35,000; fully insured. The building was owned by L. Bigelow, whose loss is \$15,000; insured \$10,000. The building a livery, occupied as a livery stable, was crushed by a falling wall; lost \$12,000.
