

LOCAL NEWS.

ORANGE AND ALEXANDRIA RAILROAD.

The following order was, on Monday, made by the Board of Public Works, relative to the management of the above named company:

Whereas the Board of Public Works of the State of Virginia did, on the 11th day of May, 1865, take possession of the Orange and Alexandria Railroad, its engines, cars, works and property, for and on behalf of the State of Virginia, in pursuance of powers conferred on said Board by the 39th section of the 61st chapter of the Code of Virginia, edition of 1860; and whereas, the said Board, for the purpose of putting the road aforesaid, its property, and works in good repair, did, in an order passed 30th June, 1865, appoint Philip Quigley, of Wilmington, Delaware, and Andrew Jamieson, of the city of Alexandria, and State of Virginia, its agents to exercise the rights and privileges vested in the said company in pursuance of law—the said Board reserving to itself the power of revoking the said order—and, whereas, it was not the purpose of the said Board to continue such agency any longer than a legally constituted Board of Directors could be organized to take charge of the road, its works and appurtenances; and, whereas, it is now certified to the Board of Public Works that a duly constituted meeting of the stockholders of the Orange and Alexandria Railroad Company was held in the city of Alexandria on Tuesday, the 6th instant, pursuant to an order of the said Board, made agreeable to a joint resolution of the last General Assembly relating thereto; and, whereas, it is also certified that at the said meeting of stockholders, John S. Barbour, Jr., Esq., was duly elected President of the said road for the current year, and Robert A. Coghlin, Wm. D. Hart, Wm. G. Cazenove and Daniel F. Slaughter, Esqs., Directors thereof; and that the President and Directors, together with John G. Meem, Richard H. Cunoingham and Lewis B. Williams, Esqs., appointed by the Board of Public Works, Directors on the part of the State, have organized as the Board of Directors of said company, and are now prepared to assume the control and management of the said Orange and Alexandria Railroad. Therefore,

Resolved, That the order of the Board of Public Works, passed the 31st day of June, 1865, appointing Messrs. Quigley and Jamieson agents as aforesaid, be and the same is hereby revoked, and that the said agents be, and they are hereby directed, to turn over to the said President and Directors of the Orange and Alexandria Railroad Company, the said road, with all the property of every kind and description thereunto belonging, or in any wise appertaining; it being understood by the Board that the stockholders of the Orange and Alexandria Railroad are willing to assume the liabilities of said agents, as exhibited in their statement furnished to this Board and marked No. 2, and that said Quigley and Jamieson, agents aforesaid report to this Board as soon as practicable a full account of their proceedings as such, under the foregoing order and resolution.

The Board of Public Works made another order directing the clerk of the Board to turn over all the books and papers in possession of the Board belonging to the Orange and Alexandria Railroad Company, to Col. W. E. Gaskins, who had been duly appointed the agent of the company to receive them. The order was immediately executed.

We are informed by Mr. Quigley, one of the persons mentioned that notwithstanding the above, the road had not been turned over to Mr. Barbour and the Directors' doct, up to noon to-day, and will not be until the accounts are settled, of which, however, he states, there is a probability for an early adjustment.

Now is the time for all good citizens to aid the Superintendent of Police in cleaning the streets, alleys, and their own premises. When the cholera is approaching us by regular and almost certain stages, it is not time for persons to allow filth to accumulate upon their premises and in front of their doors. Let the Superintendent be cheerfully aided, and we may avert, or at least ameliorate, the scourge; and if some refuse or are dilatory about the matter—this most important matter to us all—we trust the Superintendent will discharge his duty, and execute the law.

MAYOR'S OFFICE.—James Thompson, and Elizabeth his wife, colored, were placed in the watch house last night, for quarrelling and disturbing the neighbours. This morning Elizabeth was discharged upon the payment of fees and costs, and James was sent to work house.

Harriett Nalls and Sarah Sherwood, white women, charged with keeping a bawdy house, frequented by negroes, were fined and in default of payment, Harriett was sent to the work house for forty days, and Sarah, who was very violent, was committed to the same institution for ninety days.

The people of the upper country, are enquiring about the Manassas Gap Railroad. We can give no information. A meeting of the Stockholders will soon be held, and the affairs, condition and prospects of the road be then made known from official sources. The road was an important one for Alexandria, and we ardently hope it may again be turned to the advantage of the country, and the city of Alexandria.

The Fredericksburg Herald says:—"The question of connections, &c., having been settled by President Daniel, of the R. F. & P. Railroad, and Col. Stewart, of the Alexandria & Fredericksburg Railroad, we presume that work will be commenced upon the latter road in a day or two. It is expected to push the road as far as Mt. Vernon by the 4th of July."

The managers (President Garrett and others) of the Metropolitan Railroad line have abandoned the Sligo-Creek-Bladensburg route of approach for that road from Point of Rocks to Washington, and have adopted a line more in accordance with the wishes of the people of Washington. The road is to strike the city line at Delaware avenue.

Yesterday in the U. S. Senate, Mr. Morrill reported from the District Committee, a joint resolution appropriating \$25,000 for the temporary relief of the destitute inhabitants of the District of Columbia to be expended under the direction of the Commissioner of the Freedmen's Bureau. It was passed.

John Jackson, a negro, charged with stealing two vests from C. D. Patterson, this morning, was committed to jail by Justice Beach for trial at the next term of the court.

The roes of white perch, which some house-keepers throw away, when properly cooked, are the finest part of the fish. They should be fried as oysters are.

The prices of beef, veal, and pork, are declining in the Northern markets.

The Washington Star says that the "Government has received from its agents in Virginia information concerning the condition of affairs in that State at the present time. The relations between whites and blacks are much the same as heretofore."

Messrs. Davis & Brenner, worthy and energetic young men, have purchased from Mr. Geo. Siggers his book and periodical store, and will continue the business at the same stand, on King street one door above Pitt street. We speak for them a share of the public patronage and hope they may receive the encouragement that industry, and perseverance entitle them to.

MESSRS. O'NEIL & DWELLY, 83, King St., have just received a new and very desirable lot of goods, suitable for the spring trade, which they are making up at prices corresponding with the decline in gold. Gentlemen in want of an elegant suit of clothes will do well to give them an early call.

To our friend E. S. Fleming, No. 86 King street, we are under obligations for a pair of the best spectacles that it has been our fortune to possess since it became our misfortune to need ocular assistance. We can confidently recommend those in want, to call on Mr. F.

Messrs. Hulfish & Raut, Wheelwrights and Blacksmiths, at West End, do admirable work as we can attest, and those who patronize them may expect neatness, dispatch and, what is very important, cheap work.

The business matters of the GAZETTE office will be attended to, at the office, by Edgar Snowden, Jr., with whom advertisements, subscriptions, &c., can be left.

The days and nights are equal in length to-day. The sun enters the summer solstice.

OYSTERS.—According to previous announcement, a large number of men engaged in taking oysters in the surrounding waters, assembled on Saturday afternoon for the purpose of taking into consideration the law and tax bill imposed on oysters by the Legislature.

Various speakers addressed the meeting and the prevailing sentiment seemed to be that the oyster tax was unconstitutional, and ought to be resisted on that ground.

In accordance with this sentiment the following petition was introduced and unanimously passed by the meeting:

To the Honorable Court of Norfolk County: We, the citizens of Norfolk, Portsmouth and Norfolk county, engaged in the oyster business in the waters of Virginia, most respectfully petition that no inspectors be appointed immediately, according to the terms of tax until the constitutionality of said law is thoroughly established by competent authority.

The following preamble and resolution was also passed by the meeting:

"Whereas, A bill has recently been passed by the General Assembly regulating the oyster business, prescribing legitimate oyster grounds, placing restrictions and limitations on the trade, and imposing an onerous tax; now therefore, be and the same is hereby Resolved, That we believe such laws to be unjust and burdensome, and that the tax on tonnage is alike unconstitutional, unlawful and well calculated to seriously impair, if not utterly ruin the oyster trade."—Norfolk Day Book.

RECONSTRUCTION.—Under the heading, "New Reconstruction Resolutions," the reports of the proceedings of Congress on the 16th instant, give in full a series of resolutions offered by Senator Stewart, of Nevada. Why these resolutions are supposed to embody any new plan of reconstruction is as insoluble a mystery as why Mr. Copperfield called his country place "The Rookery."

Mr. Stewart sets forth that "whereas one of the most prolific sources of unfriendly sentiment is the conflict of opinion on the subject of negro suffrage, and "whereas it is now most evident that there is no probability, whatever, that Senators and Representatives for the Southern States will be allowed to occupy the seats to which they have been elected until such States shall have complied with certain fundamental conditions, therefore, resolved, that universal, negro suffrage, repudiation of the Confederate debt, and relinquishment of all claims for compensation for the emancipation of slaves, shall constitute the leading features of these fundamental conditions."

Mr. Stewart has heretofore been a moderate man, and a friend and supporter of the President. Having endorsed the President in his declaration to play "hardest fends off" with the Radicals, he now acknowledges himself backed. He takes their designs and parades them before his late associates and friends as a "compromise" to which they all may consistently subscribe.—Rich. Times.

"PROGRESSING BACKWARDS."—We have all heard of the famous Dutch officer who being ordered to the front, took one step forward and two back; and this, according to the testimony of General Custar, is the unhappy condition of Texas. He is reported to have testified before the immortal Fifteen, that six months ago the people of that State were more loyal than they are to-day, and he significantly added that "they are specially dissatisfied because they are not allowed representation in Congress."

Granting the correctness of General Custar's opinion, (which is but an opinion,) ought not the reconstruction committee—so called with felicitous irony—to devote themselves to the restoration of the dying sentiment of Unionism in Texas? As a State, she will add to the power, wealth and dignity of the Republic; but as a conquered province, she will be worthless—except as a head stone in the grave-yard of American liberty.—Norfolk Virginian.

Yesterday, in the Supreme Court of the U. S. in regular order of business, the case of Newell, appellant, vs. Norton, libellant—a case is admirably arising upon a boat collision in 1858, on the Mississippi river—was called under the order referred to, and the Court entered upon the merits of the case as of course.

The National Intelligencer says:—"The laws of the United States are in unobstructed operation throughout all the States, and therefore the practical constitutional relations of the several States, so far as they concern the Executive branch, are restored. To this may be added a second of the three co-ordinate branches. The other of the great tripod of the nation is still out of practical relation—the Legislature."

FASHIONS.—We saw a lady the other day just from Richmond with a Richmond bonnet. It was cut close at the ears, and such a ridiculous thing we never saw. Now we know what's what in bonnets at least. We are in constant communication with New York, and had the other day of a correspondence from Paris—and we tell our Albemarle girls that Richmond is all bosh—there is no such fashion as one sees in Richmond. The crop-cared bonnet was the fashion a month ago; but it has entirely gone out. The Paris bonnet is a rectangular parallelepiped, with the bottom and the front face knocked out.

As for the rest, ladies in New York wear mud-colored dresses and wrappings, reaching about four inches below the knee, round-toed boots, buttoning above the ankle, carriages about two inches long, face painted red, and no feathers. Ladies in the best best circles all take a newspaper.—Charlottesville Chron.

NEW MORMON ORGANIZATION.—The headquarters of that branch of the Mormon organization which is under the leadership of Jos. Smith Jr., son of the prophet, and opposed to the doctrine of polygamy, are at Plarao, Kendall county, Illinois, on the line of the Chicago, Burlington and Quincy railroad. A conference of this branch of the Church will be held at Plarao in April next. Its membership now numbers of all about 50,000, of which 10,000 are on the Pacific coast; 20,000 in Iowa; 6,000 in Illinois, and the rest are scattered throughout the various States. A new church building is now being erected four miles from Plarao, on Fox river, where Isreal L. Rogers, Bishop of the Church, resides. The name of this branch of Mormonism is the reorganized church of Jesus Christ of Latter Day Saints. Joseph Smith Jr., resides at Plarao. Its members are rapidly increasing.

HOG DISEASE.—The excitement about the trichina disease is said to have had a very great effect in diminishing the consumption of hog flesh in New York. The New York Times mentions one of the great popular eating-houses of the city, in which hundreds of plates of swine, in the various ways in which it is prepared and served up, were called for daily, but where now the calls are limited to one or two per diem. The late rumor that the disease had actually made its appearance in this country, will increase the public apprehension. It is feared that the hog trade of Cincinnati, Chicago, St. Louis and other Western cities, will be quite seriously affected for some months at least. We have been unable to discover any real grounds for this panic. The subject has been investigated by scientific men, and they say that there is as much danger in eating beef as hog.—Rich. Republic.

In the Maryland Annual Conference of the Methodist Protestant Church, yesterday, a report was made proposing the formation of an Asbury Circuit, in Anne Arundel. Rev. L. W. Bates pronounced it unpardonable, pro-posterous, and an outrage to call any circuit after a Methodist Episcopal Bishop. He would sooner lose a circuit; yes, a half dozen churches, than to do so. It was a wonderful proposition, and the world would think the body of its way to a lunatic asylum, to do so. The report was ably advocated by the Rev. D. Evans Reese, and William D. Massey, esq., of Alexandria, who saw no objection in the least to the name of the reverend Bishop Asbury. Mr. Massey said he was willing to receive into the ministry a man named either Asbury Jones or Jones Asbury, all other things being right. He repudiated the idea of losing a Christian church on account of its name. By a vote, it was called Broad Neck Circuit.

DIED.

In Washington, on Saturday afternoon last, at 7 o'clock, in the full peace and glorious hope of the Christian faith he had long professed, Mr. HARRISON TAYLOR, in the 63rd year of his age. For many years a consistent member of the Baptist Church he leaves among his brethren a precious memory which embalmes no words of bitterness, for none such ever fell from his lips; and a venerated name which shall long "blossom in the dust" where his body is destined to lie, awaiting the resurrection of the just.

AGENCY

FOR THE PURCHASE AND SALE OF REAL ESTATE IN VIRGINIA. We have in our hands for sale a large number of VALUABLE FARMS in Loudoun, Fauquier and other counties in "the Piedmont region" of Virginia—a section of the State which is justly celebrated for its wealth, society, soil, fine grass and peculiar adaptation to stock raising.

Many of these farms are equal to any in the State; some of them are priced VERY LOW, and none of them higher than they would have been before the War.

Among them we name the following:

LOUDOUN COUNTY.

1st. A farm of 90 acres, four miles north of Middleburg, enclosed and divided with stone and rail fences, in fair order, a large frame dwelling-house, and all necessary out-buildings, in good repair, with fruit orchard, and abundance of wood and water. This is a remarkably fine grazing farm, and also produces good crops of grain.

2d. A farm of 245 acres, adjoining the town of Middleburg, well fenced, generally with stone, finely watered, and with plenty of wood. The dwelling is of brick, handsomely located, with all necessary out-buildings, except the barn and stable, which are of wood. The land is of fine quality, and the farm a most desirable one.

3d. A farm of 570 acres, on the turnpike, 3 1/2 miles east of Snickersville, with fine three story dwelling, and all necessary out-buildings, except the barn, which was burned; a large orchard, of the most choice variety of fruit. Eighty acres of timber, and fine running water in every field. This is a first class Loudoun farm.

4th. A farm of 404 acres, five miles N. W. of Middleburg, near the Snickersville turnpike, fenced with stone, 100 acres of fine timber, well watered, and a good orchard. The dwelling is of brick, and the farm a most desirable one. This is a first class Loudoun farm.

5th. A farm of 404 acres, five miles N. W. of Middleburg, near the Snickersville turnpike, fenced with stone, 100 acres of fine timber, well watered, and a good orchard. The dwelling is of brick, and the farm a most desirable one. This is a first class Loudoun farm.

6th. A farm of 350 acres, on the Snickersville turnpike, 1 1/2 miles above Aldie. A fine dwelling, with all necessary out-buildings, except the barn; the fences of stone and rails, in fair order. Wood and water and fruit in abundance. The land is in good condition, and is of superior quality.

7th. A farm near the last named, of 350 acres, with a commodious stone dwelling-house, kitchen, smoke-house, barn, &c. The land is of fine quality, is well watered, and is now all in grass. The fences have been generally injured or destroyed during the war, but there is an abundance of timber and fuel on the land to renew it.

8th. A farm of 224 acres of first rate land, 2 miles below Philomont on the Snicker's Gap Turnpike. The dwelling is plain but comfortable, the out-buildings good. Abundance of fine timber and pure water, good fencing, a nice orchard. 50 acres in wheat and the balance in Virginia barn paper.

9th. A farm of 400 acres near Middleburg, with comfortable improvements, good fencing, fine land plenty of wood, water, fruit, &c. A beautiful and productive farm.

10th. A farm of 175 acres, with 40 acres adjoining the last named, and 4 miles N. W. of Middleburg. The house is small, and the out-buildings but ordinary. The land is of unequal quality, well enclosed with stone, and with an abundance of wood and water.

11th. A farm of 900 acres, near the turnpike, 5 miles above Aldie. The land is in grass, and is of a capable of high improvement. The fences of wood, and is in good condition. The buildings are indifferent. Two hundred acres of fine timber. This land will graze 1000 sheep. A small portion of the timber converted into plank would pay for the farm. It can be bought for \$20,000. Virginia barn paper.

12th. A tract of land at Aldie, Va., of 700 acres, well enclosed, a large and handsome dwelling, two large barns, and shedding for stock, two tenant houses, and every necessary out-building. The land is of the best quality, and there is no better estate offered for sale in Virginia barn paper.

13th. A farm of 530 acres, 3 1/2 miles from Aldie, on the Prince William and Loudoun line well enclosed. 150 acres of splendid timber, and the land taken in grass. Has upon it a dwelling with 5 rooms, good barn, stable, &c.

14th. A farm of 200 acres, in grass, and is capable of high improvement. The fences of wood, and is in good condition. The buildings are indifferent. Two hundred acres of fine timber. This land will graze 1000 sheep. A small portion of the timber converted into plank would pay for the farm. It can be bought for \$20,000. Virginia barn paper.

15th. A farm of 414 acres, near Long Branch Church, with good dwelling-house, barn and other out-buildings. The land is of fine quality and taken in grass, and there is upon it a fine orchard, and an abundance of wood and water. Also, 87 acres of good land adjoining, which will be sold with the above, or detached, as may be preferred by the purchaser.

16th. A farm of 500 acres, 3 miles south of Middleburg, with comfortable improvements, except barn, which was burned; a valuable mill site, the mill having been burned. This is considered a most desirable and the best home farm in Upper Fauquier, and no particular description is necessary. It is in perfect order, and is sold because the owner is advanced in life, has no children, and has lost all his labor.

17th. A farm of 200 acres, adjoining No. 16 with neat cottage, and all necessary out-buildings. The land is good, is fenced with stone, and has wood and water in abundance.

18th. A farm of 232 acres adjoining No. 16 with large stone house, kitchen, stable, &c. This is fine land, well enclosed, and most desirable property.

19th. A farm containing 400 acres, 5 miles S. W. from Salem, Fauquier Co., with comfortable dwelling (10 rooms) and all necessary out-buildings in good order. The land is of fine quality, has abundance of timber and water and is well taken in blue grass. It will be divided if desired, into three 200 acre farms, each a desirable home farm in Upper Fauquier, and no particular description is necessary. It is in perfect order, and is sold because the owner is advanced in life, has no children, and has lost all his labor.

20th. A farm of 70 acres, are low grounds. The improvements are good in every particular, and the land of fine quality. The farm can readily be divided, if desired.

21st. A valuable tract of land, containing 85 acres, 1 1/2 miles from Alexandria, on the road to the Episcopal Seminary. This land was handsomely improved before the war, but the buildings and enclosures have been entirely destroyed. It has upon it several handsome building sites, can be readily divided, and may be bought at a most moderate price, in a handsome property to any one who can divide and improve it.

22d. Also, a lot of 40 acres, at Bailey's Cross Roads, in Fairfax County, 4 miles from Alexandria in timber and unimproved.

Also a large stone hotel in Middleburg, being the only one in the town. This is a valuable property, and with good management would be a source of large income.

A handsome dwelling house in Charlottesville, &c.
