THE PAUPER NEGROES.—The Committee of the City Council, consisting of Messrs. Barton, Brewis, Brent and Witmer, in conjunction with the Mayor of the city, to whom was referred, at the last meeting of the City Council, the grave and serious matter of the disposition to be made of the pauper negro element in our population, met last night in the chamber of the Board of Aldermen, and with great unanimity adopted the wise course suggested by the Mayor. After the adjournment of the Committee the members called on Col. Lee, the Superintendent of the Freedmen's Bureau of this district, who also favors the plan of the Mayor, and will use his utmost exertions to have it carried out. The following is a copy of the communication addressed by the Mayor to Colonel Lee, and sent to him this morning. The recommendations of the Mayor, in this matter, meet with the approval of nearly the entire community.

MAYOR'S OFFICE. ALEXANDRIA, September 27, 1866. J. P. Lee, District Colonel.

Sir: I have the honor to transmit for your consideration a copy of my communication to the City Council, relative to "Circular No. 10, War Department."

That communication was appropriately referred to a committee, who have directed me to inform you that, in compliance with the duties of the "Freedmen's Bureau," the Alexandria branch will confer a favor upon all concerned, by continuing its care and support over those indigent freedmen, who, by the incidents of the war, have been thrown into our city. The authorities of the city are bound, by law, to take care of our own poor, without regard to color, and although the people are in a depressed condition, they yet are struggling to provide for our indigent citizens. The City Council, however, has no legal power to tax the people to provide for those who have no legal residence amongst us. I therefore respectfully ask a continuance of your supervision until May 1st, 1867, with a distinct understanding with the parties concerned that those who are able must provide for themselves at that time, and those who are not will be disposed of in accordance with the laws of the City and State. You are aware that this city abounds with a large number of those people whose physical abilities fully justify the assertion that they are able to care for their maintenance, but who, through the indulgence and kindness of the "Bureau," have failed to exert themselves for their support. Let these people know that next spring your care and support will be withdrawn, and self-protection will compel them to take place in the market, where they may become useful and self-sustaining. My observations warrant me in making such remarks, and your experience, I think, will confirm them. Hoping that the Chief of your Department may feel justified in acquiescing, I remain your obedient servant.

RECOVERY OF VALUABLE JEWELRY.—On Tuesday last Mr. Edgar S. Fleming, who keeps a watch and jewelry store No. 65 King street, Alexandria, reported to Detectives Clavoe and McDevitt that he had been to New York, and when he returned he discovered that a valuable diamond pin, a large number of diamond-set buttons, pins, sleeve buttons, shirt buttons, and several watch jewels had disappeared from the store. Detectives Clavoe and McDevitt, in their investigations, learned that a man named George Hagedorn, who resides on Tenth street, near police headquarters, was engaged in Fleming's store. They watched his movements, and finally convinced that he was the guilty party, they arrested him, and took him to headquarters. There he confessed the larceny, and informed the officers where the stolen articles could be found. The diamond pin has already been recovered, and the other jewelry will have a hearing.—Wash. Chron.

Mr. Fleming denies that he suffered any such loss as is mentioned above.

THE AQUEDUCT BRIDGE.—Yesterday the ends of the Aqueduct Bridge were locked up to prevent passage over it. This, we presume, was done in anticipation of the immediate opening of the work of reconstructing the carriage-way and repairing the trunk. Plans are now being considered for a very extensive improvement, which, if perfected, will preserve the communication between Virginia and the District at this point. One of the plans is that of Mr. Singleton, the chief engineer of the canal, for the rebuilding of the aqueduct this winter. Another is that of Mr. Rives, formerly an engineer on the Washington aqueduct, which contemplates the construction of a bridge over the aqueduct, with a wagon-way and roadway, and a railroad suspension bridge beside it. It is probable other plans will be submitted.—National Intelligencer.

THROUGH FREIGHTS.—Sealed freight cars came through to this city Monday evening from Baltimore, over the Orange & Alexandria Railroad, and will continue to run daily, on a fast schedule. So freights from this city will go through to Baltimore without break of bulk. A similar connection has been made to Philadelphia. Superintendent Vandegriff is doing everything that can be done to facilitate the transportation of freights over his road. He is alive to every "consolidation" that will contribute to the accommodation of the public.— Lynchburg Virginian.

THE STEAMER EXPRESS.—The steamer Express, from Baltimore and the Potomac Landings, arrived up last night. She reports no news on the River. A portion of her freight consisted of oysters—the finest we have tasted this season; and while seated in Mr. John Phillip's snug and warm wharf office this morning, having as company Capt. Ryther, and a half barrel of as good oysters as we ever ate in December, we felt perfectly satisfied with ourselves and the country at large.

RAILS AND OMBRETTES.—We are requested to call the attention of the proprietors of the omnibuses and hacks to this city to the frequent absence of the vehicles from the wharves on the arrival of the boats. Yesterday morning a hack, who landed from the mail boat, on his own trip, was compelled to wait on the wharf, though sheltered from the rain by the shed there, for upwards of an hour, awaiting a conveyance to take her to a hotel.

THE OLD CUSTOM HOUSE.—This old building, situated on the South-western corner of King and Union streets, is being transformed into a Commissary depot, for the United States troops in this neighborhood. The Soldier's Rest is to be vacated, and turned over to the Quartermaster, who will dispose of the buildings there at auction, and the stores now there are to be removed to the new depot. Capt. Bridges is the Commissary of this post.

THE SWISS FEAST OF PHARMACIES.—This feast commenced at six o'clock on Sunday evening, and will continue eight days. During the first two days the Israelites are strictly enjoined to abstain from secular business.

ENFORCEMENT.—We are informed that some of the original Union men of this place, have arranged for an audience with President Johnson on Monday next, for the purpose of presenting to him an address from the "original Union men" of this State, in which they fully endorse his Reconstruction Policy, the principles of the Philadelphia Conservative Convention, and their disapproval of the action of the late Congress, in regard to negro suffrage.

SERIOUS ACCIDENT.—Mr. Richard Hagan, sr., nearly seventy years of age, residing at the corner of Washington and Oranoco streets, in this city, while cutting down a tree in the garden attached to the old Keen residence, opposite the Cotton Factory, a day or two ago, was caught underneath its branches in its fall, and so severely injured that his life is despaired of.

RAILROAD EARNINGS.—In looking over a statement of the approximate earnings of the Virginia and Tennessee Railroad for the third week in September, we notice that the Orange and Alexandria Railroad paid of the amount the sum of five thousand, nine hundred and seventy-one dollars and seventy-five cents.

DESTRUCTION OF SHEEP.—During the storm on Thursday afternoon last a small tree under which a flock of sheep had taken shelter, on the farm of Mr. Robert A. Claggett, near Marlboro, Prince Georges' County, Md., was struck by lightning, and 52 of the animals killed.

CIRCUS.—Dan Castello's Great Show paraded the streets of this city this morning, to the evident delight of the young people—and some old ones too. The lions attracted considerable attention.

POLICE REPORT.—MAYOR'S OFFICE.—There were no cases worth reporting at the Mayor's Office this morning.

MANAGER'S OFFICE.—William Davis, for assaulting Edward Davis, was held in the sum of \$100 for his good behavior for six months, and, upon the payment of costs, discharged.

THE CASE OF MISS MARY JANE SMITH, of Winchester, against John Green, who, at the instance of the proprietor of Whaley's Line of Stages, forcibly detained five trunks, one box and a bundle, the value of the whole amounting to \$50, the property of Miss Smith, was disposed of by a delivery of the baggage, and the imposition of the costs upon Mr. Green.

DRUGS, CHEMICALS, &c.

BLADES' EUPHONIAL LUBRICATORS! THE PEOPLE'S MOST SURE AND EFFECTUAL REMEDY For Coughs, Colds, Croup, Catarrhs, Asthma, Bronchitis, Diphtheria, and all Pulmonary Diseases.

The LUBRICATOR is a medicinal preparation, in the form of a lozenge, which is the most pleasant and convenient, and contains no deleterious ingredient, and are warranted to be always safe, even for the weakest and most sensitive stomach. In croup they give immediate relief. For coughs and colic they are invaluable.

For Asthma and Bronchitis they have no equal in the market, (vide certificates accompanying each box.) Diphtheria, that dread and desolating disease, they control wonderfully and almost immediately.

No public speaker, singer or teacher should be without them, as they remove hoarseness and strengthen the voice.

Always use them in time, and if the symptoms are severe use very freely.

For Sale by all Druggists. The great sale of these Lubricators last Winter bore ample testimony to their efficacy and superiority over every other form of troche in use. We can confidently recommend them for all affections of the throat. sep 8-17

ASIATIC CHOLERA. PREVENTIVE AND CURATIVE.

The cause of Cholera is always found in a deranged state of the digestive fluids, particularly the bile which has been put in disorder by climatic or other atmospheric causes. The bilious ducts are thus prevented from fulfilling their functions, and consequently the whole circulation is thrown into disorder. The more one's system is thus deranged by unhealthy habits, or irregular habits of living, the more easy will we become the victims of ASIATIC CHOLERA.

Asiatic Cholera is a terrible complaint; it takes its victims with a rapidity unknown to any other malady; the slightest neglect against sanitary rules is almost sure to be punished with death.

Yet Cholera is curable, like other diseases, by a perfect safeguard, a remedy which is thousands of cases, particularly in 1850, in Germany, and in the Cholera season just past in Paris, Constantinople and other cities of Europe, has proved the use of PROF. WUNDERLICH'S CHOLERA ELIXIR the surest preventive against the malady.
