

ALEXANDRIA. FRIDAY EVENING, OCTOBER 12.

Virginia as it is. The Virginia State Convention passed the ordinance of secession on the 17th of April, 1861, subject to the ratification of the people on the 4th Thursday in May.

One of the first acts, however, was to provide for a division of the State. On the 20th of August an ordinance to that effect was passed.

The Texas Legislature has appointed a joint committee to proceed to New Orleans and advise the remains of Albert Sidney Johnson to Austin.

The Richmond Times speaking of the result of the recent elections in the North and West, and of the persistent course of the leaders of the Radical party, says: "Without representation in Congress to defend our interests, and another resort to arms being out of the question, the South has nothing left but to endure the malignity, insults and outrages of a gigantic and merciless despotism with dignity and manliness.

A CONTRADICTION.—The National Intelligence says: "Gold went up yesterday five per cent. on a stock-gambling report in the Philadelphia Ledger that President Johnson had addressed certain inquiries to the Attorney General respecting the legality of the present Congress. We need hardly say that the story is utterly devoid of truth."

NEWS OF THE DAY.

"To show the very age and body of the times." In Baltimore, yesterday, a public meeting was held at the Front street Theatre under the auspices of the American Freedmen's Union Commission, and the Baltimore Association for the improvement of the colored people.

At Hilo, New York, yesterday, the safe at Adam's Express office, was blown open and robbed of \$2,400 worth of United States revenue stamps, of denominations ranging from one cent up to ten dollars; \$1,200 in postage stamps, and \$500 in currency, seven-thirty coupons, &c.

John Hipwell, of the Metropolitan police, was shot dead upon his beat in Brooklyn, on Tuesday morning. The motive for the deed is unknown, and no clue is given to the perpetrator except the fact that a witness states that he saw a man running away immediately after the shots were fired, whom he pursued but could not overtake.

Yesterday's session of the Plenary Council of the Roman Catholic Church in Baltimore, was public. Bishop Blanchet, of Oregon, celebrated a solemn requiem mass for the repose of the souls of the deceased prelates of the church. Bishop Boyley, of Newark, delivered an eulogy on their life and services.

A statistical table, exhibiting the rates of increase of the population of the United States since 1850, the date of the last census, is being prepared at Washington. In 1850 the population of the United States was 21,443,321, and it is calculated that at the present it is fully 35,000,000.

The currency bureau of the Treasury Department has burned fifty thousand dollars belonging to the Merchants' and Mechanics' National Bank of Philadelphia, on account of the signatures of the president and cashier being printed, instead of written upon this circulation.

The National Express. Special to the Baltimore Gazette.

RICHMOND, Oct. 11.—The result of the meeting of the stockholders of the National Express and Transportation Company is that they have determined to make another call of five per cent., making in all a total of twenty-five dollars per share, and to issue one share of new for four shares of old stock.

The Marquis de Boissy, an eccentric Frenchman, whose hatred of the perfide Albion is proverbial, died recently in Paris. He was the representative of a noble family, and had led a life tinged with the peculiarities of a wayward temperament.

The health of the Emperor Napoleon is said to be very precarious, and although he is not said to be in present danger, he has been warned by his physicians against any departure from their injunctions.

LETTER FROM MEMPHIS.

[Correspondence of the Alexandria Gazette.] MEMPHIS, October 7, 1866.—Please state to the gratification of those of your readers who have friends in Memphis that the cholera has almost entirely disappeared from the city.—Only three cases have been reported within the last thirty-six hours, and neither of these has proved fatal.

During the existence of the epidemic, four worthy young Alexandrians, viz: Mansfield, Williams, Fox, and Oliver Crook fell victims to the disease. B. C. White and Wm. New, who were stricken with the disease while assiduously nursing young Crook, are now convalescent.

Below I send a list, as far as I can gather, of the Alexandrians who have located in Memphis. They are all well and doing well: E. S. Plummer and three children; B. T. Plummer; Miss Nannie Plummer; Dr. C. W. Chancellor; Colonel Morton Marye, wife and two children; Chas. S. Price; Geo. Price, wife and children; Miss Sallie Gibson; A. Murray; B. Crook; G. S. Ridgley; R. Crook; J. Os. Padgett; E. Swain; John M. Burke, M. Fadelley; William Perry; Dan Perry; D. Hoce, wife and children; Wm. New; B. C. White; Edward Corson;— Sinclair; Wm. Price; B. K. Pain; Bernard Perry; Singleton Ridgley; Jas. H. Fowle;— Smith; A. Sagle; Rev. Father Rotchford; W. L. Dennis.

Richmond, Fredericksburg, Charlottesville, Petersburg, and Lynchburg are also well represented in Memphis.

The business of the place, which was much prostrated by the epidemic, has been resumed with great activity. Every face now wears a cheerful expression. C. W. C.

THE STORM.

In Washington, the storm has done much damage. Cellars were flooded and some houses undermined or submerged, and a great deal of property destroyed. Several bridges were swept away, and the street railroad trains delayed.—Portions of Georgetown were submerged, and Rock Creek and the Canal are unusually high.

A despatch from Harper's Ferry was received yesterday in Georgetown, warning the merchants to prepare for a freshet, as the water is higher than ever before known in that region, reaching to the railroad ticket office, and stopping railroad travel.

Reports from Bladensburg say that the whole village is submerged, and that property has sustained much damage in consequence.

At Three Mills, on the Frederick road, the flood has carried away the bridge and washed out the head gate of the mill and part of the race.

A dispatch from Baltimore, dated yesterday, says: "There are heavy floods on all the streams in this vicinity, and the cellars of many houses in the city were filled with water. There has been considerable damage and some loss of life. A number of milldams and bridges have been carried away. The bridges on the Franklin and Frederick turnpikes are gone. Several houses have been swept away. A family of six persons, and another of three have been drowned.—Several bodies were found to-day. The Ilchester bridge on the Baltimore and Ohio road, was also destroyed."

Up to a late hour last evening there were upwards of three feet of water in Water street, from Washington to Congress streets, in Georgetown. During the day a number of frames and large quantities of drift wood passed down the Potomac.

The Chesapeake and Ohio Canal, between Georgetown and Seventeenth street, was overflowed at all points, and the low grounds in the neighborhood of the old glass-house were flooded. The water covered the island known as Eldorado, at the mouth of the canal, and the proprietor left it, taking such articles as he could conveniently carry away.

No such rain storm has occurred in this section of the country, before, for twenty years.—It is estimated by scientific research that up to 12 o'clock yesterday five inches of rain had fallen. The flood has injured portions of the Baltimore and Ohio Railroad, and the Northern mail has been delayed in consequence.

FOREIGN ITEMS.

In England the people are complaining of what they have to pay, for royalty, the items of which are thus set down: "The Queen's expenditures, including her civil list, \$1,925,000 a year; the Duchess of Cambridge, \$30,000; the Duchess of Mcklenburg Strclitz, \$15,000; the Duke of Cambridge, \$60,000; Princess Royal of Cambridge, \$15,000; the Princess Mary, \$40,000; Princess Alice, \$30,000; the Prince of Wales, \$200,000; Princess of Wales, \$50,000; King of the Belgians, \$250,000; all of which amounts to an annual total of \$2,615,000, and is swollen by other personal pensions to \$3,000,000.

A regular trade in autographs has sprung up in Paris, and a price-current is published illustrated by fac similes of rare and curious specimens. At a recent sale by these persons, a letter of the French Emperor, priced at one hundred francs, was purchased by the French Government.

The Marquis de Boissy, an eccentric Frenchman, whose hatred of the perfide Albion is proverbial, died recently in Paris. He was the representative of a noble family, and had led a life tinged with the peculiarities of a wayward temperament.

The health of the Emperor Napoleon is said to be very precarious, and although he is not said to be in present danger, he has been warned by his physicians against any departure from their injunctions.

Galignani's Messenger, of the 19th ultimo, says: "Most unfavorable accounts of the vintage are being received from the wine-growing countries of Burgundy and the centre of France.

VIRGINIA NEWS.

A letter from Fauquier county, in yesterday's Gazette, mentioned the fatal affair at Oak Hill, last Monday, in which Mr. Marcus Buck Bayly killed Mr. James F. Jones. The Warrenton Sentinel says, "the difficulty grew out of a charge on the part of Mr. Jones, that Mr. Bayly had been disloyal to the South, and that he had, during the war piloted the Federal troops to his—Mr. Jones' house. It seems after a slight scuffle between the parties, Mr. Bayly retreated into his store, returned with a pistol, with which he fired upon Mr. Jones, the ball entering his neck, ranged downwards, and lodged in his lungs, from the effects of which he died in a few hours."

Hon. Willoughby Newton, as president of the Agricultural Society of Virginia, has written a letter declining to lend his co operation to a horse and cattle show and general fair, to be held in Richmond in November. He says he concurs entirely with the Executive Committee, which after deliberate consideration, decided that it was "inexpedient if not impossible to hold a fair this fall."

A meeting of the stockholders of the Virginia & Tennessee R. R. commenced in Lynchburg on Wednesday. A sale of a considerable amount of shares in the stock of the Virginia & Tennessee Road, was made on Wednesday in Lynchburg, the prices showing an appreciating tendency. The first lot offered brought 10, then 25, 26 and 28.

Some idea of the mortality that has occurred amongst the negroes in Richmond from cholera, within the last month, may be gotten from the report that the Quartermaster's Department has issued ninety-nine coffins to bury pauper freedmen.

The Lynchburg News announces the arrest by the police of that city, of a young man named John E. Booker of Amelia, charged with obtaining \$1,800, under false pretences, from his cousin John T. Jetter.

The remains of the lamented General Ashby were removed from the University Burial Ground on Tuesday morning. They were carried to Winchester.

The Washington correspondent of the New York World reports as the result of the Cabinet meeting on Wednesday last, in the case of Mr. Davis, that it was determined, according to current belief, to turn Mr. Davis over to the civil authorities for trial. If this decision be correctly reported, the United States Marshal will be required to bring Mr. Davis before Judge Underwood's court for such action as that court may be disposed to take.

One of the "strong minded women," of New York,—Elizabeth Cady Stanton,—has announced herself as a Candidate for Congress from the eighth district in that State. Her principles are—"free speech, free press, free men, and free trade."

COMMERCIAL.

ALEXANDRIA MARKET. FRIDAY, OCT. 12TH, 1866.

The market this week opened with considerable activity, and a promise of increased business, but the storm and flood of the past two days has almost put a stop to receipts of produce and transactions. There has been but little change in prices, but the market continues very steady.

Cattle \$8 25 per 100 lbs. The market closed with a better feeling than for the last two weeks. About 100 head of cattle failed to reach here on account of high water.

Sheep.—The supply was moderate, and prices but little changed from last week.

The New York Commercial reports a concession in the dry goods trade among jobbers, and adds: "Goods are very low from the combination of circumstances preventing trade during the summer months, the fear of cholera, and the lateness with which the trade set in."

The usual monthly sales of Scranton coal recently made in New York, show a still further decline. Lump coal brought \$4 50 to \$5 25 per ton as against \$5 25 to \$5 90 on August 29, and \$6 25 to \$6 40 in June. Grate coal brought \$5 15 to \$5 25 per ton as against \$6 90 to \$7 01 in June.

ASIATIC CHOLERA. PREVENTIVE AND CURATIVE. The cause of Cholera is always found in a deranged state of the digestive fluids, particularly the bile which has been put in disorder by climatic or other atmospheric causes. The bilious ducts are thus prevented from taking part in the circulation, and consequently the whole circulation is thrown into disorder. The more one's system is thus deranged by unhealthy eatables, or irregular habits of living, the more easy will we become the victims of ASIATIC CHOLERA.

Asiatic Cholera is a terrible complaint; it takes its victims with a rapidity unknown to any other malady; the slightest neglect against sanitary rules is almost surety punished with death. Yet Cholera is curable, like other diseases, and in this Elixir we possess a remedy which is a perfect safeguard against it. Experience in thousands of cases, particularly in 1850, in Germany, and in the cholera season, just past in Cairo, Constantinople and other cities of Europe, has proved the use of PROF. WINDRUM'S CHOLERA ELIXIR the surest preventive against the malady.
