SEASONABLE RECIPES.—Preserving Sinks from Rot.—In hot weather it is almost impossible to prevent sinks becoming foul, unless some chemical preparation is used.

To Destroy Flies.—To one pint milk add a quart pound of raw sugar, two ounces of ground pepper; simmer them together eight or ten minutes and place it about in shallow dishes.

Wisconsin law is evidently modeled after that of the Medes and Persians. A little convict in the State prison there having, during the recent fire, saved the building and its inmates from certain destruction by blowing off the steam in the engine room, at the peril of his own life and at the cost of a severe scolding, we are told that "a movement is on foot to censure his pardon, partly on account of this exhibition of bravery, and partly because it has been proved that he was innocent of the charge for which he was imprisoned."
