It has been determined by the Board of Directors of the Shenandoah Valley Railroad Company, to celebrate with becoming and imposing ceremonies, the inauguration of their road, near Front Royal, Warren county, Virginia, on Thursday, the 8th day of September proximo.

This great work is to traverse one of the richest sections of Virginia, from the Potomac river to Salem, on the Virginia and Tennessee Road. It is to pass through the rich and fertile lands of Jefferson, Clarke and Warren counties, and thence into the rich Luray Valley, through the county of Page, on through a similar country in East Rockingham and Augusta, Rockbridge, Botetourt and Roanoke counties.

It is expected that the Governor of our State, accompanied by the Board of Public Works of Virginia—will be present, and, in imitation of the distinguished Dr. Witt Clinton, at the inauguration of the great Erie Canal, of New York, and John Quincy Adams, then President of the United States, at "the breaking of ground" of the Chesapeake and Ohio Canal, and other distinguished internal improvement men of other days, will throw up the first shovel of dirt upon our great work.

A number of distinguished orators from other States as well as our own are expected to be present to assist in the ceremonies, and we have no doubt the ladies will grace and adorn the occasion in large numbers. And we have no doubt some of the finest bands of music in the country will be provided for the occasion.

We are authorized by the President of the Company to extend an especial invitation to that able and intelligent body of gentlemen composing the editorial corps of Virginia, and other sections to be there. We trust many of our countrymen will find it convenient to attend. We promise them the right hand of fellowship and a hearty welcome. We expect the occasion to be one of great interest and therefore we say to our people turn out and give it a hearty cheer.

A grand barbecue will be served on the occasion, with abundance of good things to eat, and plenty of Maecus Buck's best "Switzerland and brandy, the product of the 'Grazeiland of Virginia' to make merry, and of course nothing else.

Visitors to the barbecue from Winchester and lower Valley and from Harrisonburg &c. can reach Front Royal in time by Strasburg and Manassas Road; from Washington, Alexandria &c., by a special train and return in evening.—Page County Courier.

STRUCK BY LIGHTNING.—We learn that the wife of Mr. Araland Marsteller residing at Markham, was struck by lightning on Wednesday last. At last accounts she was in a very dangerous condition, one of her eyes being destroyed and otherwise injured.—Manassas Gazette.

Serious Affair near Middleburg.

[Correspondence of the Alexandria Gazette.] MIDDLEBURG, Va., Aug. 29th 1870.—A very serious affair occurred here yesterday (Sunday), in which Mr. Chas. Davis and about six colored people were wounded. The colored people were holding an association at the time. Mr. Davis was riding through the grounds, and coming across a colored man, by the name of Chas. Manley, with whom he had formerly had a difficulty, ordered him to leave the ground. Upon Manley's refusing, firing immediately commenced between the parties, Manley asserting that Davis fired and Davis the contrary. Manley's friends came to his assistance and fired about fifteen shots at Davis, one of them taking effect in his breast inflicting a painful but not dangerous wound. Davis made his escape from the ground pursued by about a hundred colored people, but fortunately he could not overtake him. They became very turbulent in the streets, threatening vengeance upon Davis or any who abetted him. The mob was addressed by Col. Chancellor and brought to a sense of their duty. Joshua Washington was shot through the face and throat and is supposed to be dangerously wounded. Two other colored men and a woman, and probably others were wounded, but not seriously. The affair not being thoroughly investigated I have, as yet, not been able to gather any more particulars.

SPEECH OF H. O. CLAUGHTON, OF ALEXANDRIA, IN FAUQUIER.—This gentleman, a candidate for Congress from the 7th district, kept his appointment to address the citizens of Fauquier at their Court House on last Monday. He was introduced to his audience by Ex-Governor Smith, who after referring to him as a gentleman of integrity and fine intelligence, proceeded in a happy vein for fifteen minutes or more to impress upon the audience the importance of securing a majority of delegates in the next Congress thoroughly anti Radical in principle, no matter by what name they might be known.

We were deprived of the pleasure of listening to Mr. Claughton's maiden political speech and regret it the more because every person present with whom we have conversed on the subject pronounced his effort a very fine one. To the kindness of a friend, almost a perfect stranger to the speaker, we are indebted for the following synopsis of his remarks.

Mr. Claughton began by saying: "The people have a right to know the sentiments of those who aspire to represent them; and it is the duty of the candidate to express those sentiments in the plainest and most explicit manner."

He believed the Constitution of the United States created the Federal Government, and conferred upon it every power that it possessed, and excluded the conclusion of implied powers. Some time after the Constitution was ratified, the tenth amendment was added, expressly reserving to the States, respectively, or to the people, the powers not delegated to the Federal government by the Constitution.

All the powers "necessary and proper" to execute the delegated powers, he regarded not as implied, but as delegated powers. The Radicals of the hour have totally disregarded this construction of the Constitution. They have trifled with the instrument, broken down its limitations, converted the Republic into a Consolidated Despotism, and trampled with an iron heel upon the rights and liberties of the people. He held it to be the duty of every Conservative to resist by every moral means within his power the further mischief of this Radical and despotic party.

He next drew a line of comparison between the Revolution of '76, and our late struggle for independence, showing that in both instances the war was fought upon a principle—the great and inalienable right of self government. In the former we triumphed. In the latter we failed, but the principle was none the less valuable because trodden in the dust by the foot of the Despot. What was the great and final object of our Revolutionary fathers? It was the happiness and prosperity of the people. Suppose they had failed in securing independence, do you suppose that the duties to their country of Washington, Jefferson, Henry, and the long list of patriotic statesmen who co-operated with them, would have ended there? No, never! They would have continued to labor by every moral means in their power to ameliorate the condition of their country and secure the happiness and prosperity of the people. If the duty of those distinguished patriots demanded this policy at their hands, what reason has any one to disregard his obligations in his own case to-day. We did not make war upon the Constitution of the United States, but upon the abuses of those who administered the Government. That the South was the Conservative section of the Government is attested by history, and the records of the Government itself. That she loved the form of government established by the Constitution of the United States, is proven by the fact that the Southern Confederacy adopted a Constitution almost verbatim with the old one.

All admit that the old Government, administered in peace and happiness to the people. If it was the duty of our Revolutionary fathers, in case of failure, to labor for the advancement of the prosperity and happiness of the people, it is our duty to do the same thing. And now let me implore you to feel the responsibility resting upon you, and to begin an efficient and faithful discharge of that duty by uniting with me in crushing the despotic monster of Radicalism.

This is a very imperfect outline of Mr. C's remarks. The speech was an able one—his diction and manner admirable.—Warrenton Index.

MEDICAL.

TO PHYSICIANS. New York, August 15th, 1868. Allow me to call your attention to my PREPARATION OF COMPOUND EXTRACT BUCHU. The component parts are BUCHU, LONG LEAF, CUBEBS, JUNIPER BERRIES. MODE OF PREPARATION.—Buchu, in vacuum Juniper Berries, by distillation, to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; a very little sugar is used, and a small proportion of spirit. It is more palatable than any now to use.

Buchu, as prepared by Druggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The Buchu, in my preparation, predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacies, nor is it a Syrup—and therefore can be used in cases where fever or inflammation exist. In this, you have the knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation.

With a feeling of confidence, I am, very respectfully, H. T. HELMBOLD, Chemist and Druggist of 16 Years' Experience.

[From the largest Manufacturing Chemists in the World.] November 4, 1869. "I am acquainted with Mr. H. T. Helmbold; he occupies the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

WILLIAM WRIGHTMAN, Firm of Powers & Wrightman, Manufacturing Chemists, Ninth and Brown streets, Philadelphia.

HELMBOLD'S FLUID EXTRACT BUCHU, its weakness arising from indiscretion. The exhausted powers of Nature, which are accompanied by so many alarming symptoms, among which will be found Indisposition to Exertion, Loss of Memory, Wakefulness, Horror of Disease, or Forebodings of Evil, in fact Universal Lassitude, Prostration and inability to enter into the enjoyments of society.

The constitution, once affected with Organic Weakness, requires the aid of Medicine to strengthen and invigorate the system, which HELMBOLD'S EXTRACT BUCHU invariably does. If no treatment is submitted to, Consumption or insanity ensues

HELMBOLD'S FLUID EXTRACT BUCHU, in affections peculiar to Females, is unequalled by any other preparation, as in Chlorosis, or Retention, Painfulness, or Suppression of Customary Evacuations, Ulcerated or Schirrus State of the Uterus, and all complaints incident to the sex, or the decline or change of life.

HELMBOLD'S FLUID EXTRACT BUCHU AND IMPROVED ROSE WASH will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superseding those unpleasant and dangerous remedies, Copsiva and Mercury, in all these diseases.

Use HELMBOLD'S FLUID EXTRACT BUCHU in all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter of how long standing. It is pleasant in taste and odor, "immediate" in action, and more strengthening than any of the preparations of Bark or Iron.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to affect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. HELMBOLD'S EXTRACT BUCHU is the great Diuretic.

Sold by Druggists everywhere. Price \$1.25 per bottle, or 6 bottles for \$6.50. Delivered to any address. Describe symptoms in all communications.
