AND VIRGINIA ADVERTISER  
Is published regularly on TUESDAYS,  
THURSDAYS and SATURDAYS, at \$9 per  
annum—payable in advance.

**Sketch of General Lee's Career.**  
ROBERT EDWARD LEE was born in Westmoreland county, Virginia, January, 1807.—He was a son of General Henry Lee, who was Governor of Virginia from 1792 to 1795, and a distinguished officer of the patriot army in the Revolutionary War. His mother was Anne Carter, daughter of Charles Carter of Shirley. He entered the military academy at West Point in 1825, graduated second in his class in 1829, and was commissioned second lieutenant of engineers. He was soon after married to Miss Custis of Arlington, the daughter of George W. Parke Custis, and thus became proprietor of the celebrated Arlington estate. By this marriage he had four sons and three daughters. In 1835 he served as assistant astronomer for the demarcation of the boundary lines of Ohio and Michigan. In 1836 he was promoted to be first lieutenant, and, in 1838, to the rank of captain. When the Mexican war began, he was placed on the staff of Brigadier General Wool, and during the campaign of 1846 he was chief engineer of Wool's army. At the battle of Cerro Gordo, April 18th, 1847, he was brevetted major for gallantry. In the August following he again won a brevet rank by his meritorious conduct at Contreras and Churubusco. In the assault on Chapultepec, September 13th, 1847, he was severely wounded, and received the brevet promotion to lieutenant-colonel. On the 21st of July, 1848, he was appointed a member of the board of engineers, and held the position until 1850. In 1852 he was appointed superintendent of the military academy at West Point, but proceeded under orders to Europe with Captain (afterwards General) George B. McClellan, as commissioner to observe the operations of the allied armies before Sebastopol.—In 1855 he was promoted to be lieutenant-colonel of the Second Cavalry. On the 16th March 1861, he was made colonel of the First Cavalry.

On the 25th of April he resigned his commission, and repaired to Richmond to unite his fortunes with those of his native State. The convention, then in session, had elected him commander of the military and naval forces of Virginia. When the formalities of connecting Virginia with the government of the Confederate States (already organized at Montgomery) were concluded, General Lee received on the 10th May the commission of Major General in the army of the Confederate States, and was assigned to the command of all the forces in Virginia. He was soon after appointed a general in the regular army. His first active operations were in the western part of the State. He was subsequently assigned to the command of the department of the South Atlantic coast. From that position he was recalled to Richmond by President Davis and made General in Chief, with his headquarters in this city. After General Johnston was wounded at the battle of Seven Pines, General Lee again entered the field as commander of the army in Virginia, and continued in that position to the close of the war. His services during that eventful period are too fresh in the memories of our readers to need recapitulation. In 1865 he was elected President of Washington College, and was occupying that position when death closed his career.—Rich. Whig.

**EXPLOITS OF A DRUNKEN ENGINEER.**—The Tallahassee Sentinel relates the following incident:—

The engineer of the freight train on the Jacksonville, Pensacola and Mobile Railroad, going west on Monday morning last—a man named Drew—was so much under the influence of liquor by the time he reached Baldwin that the conductor, Mr. Luttrell, did not consider it safe to allow him to proceed further and therefore procured the services of another engineer, Drew, however, remaining on the engine. When the train arrived at Sanderson, the acting engineer left the engine for some purpose, and Drew, still drunk, got loose from the train and put out with the engine at lightning speed, leaving engineer, fireman, conductor and all behind. As he neared Lake City, the section hands working on the road scattered pell mell into the woods, frightened out of their wits at the tremendous speed the engine was running. The agent at Lake City, when asked about it, said the engine was running about one hundred miles an hour, and there was a man aboard, but he was certainly crazy!

Further west a gentleman saw the engine pass, but could discover no one on her, and said he was very much alarmed, but presently he saw a hand go up and then he knew there was some kind of a human on board. Until he reached Ellaville, where he came out and colliding with an eastward bound train.—The master machinist, Mr. Kennedy, happened to be here, and catching the maniac engineer from the engine took charge of it himself. Fortunately for Mr. Tate, he found another engine at Sanderson, with which he came through to Ellaville. At or near Oustee the body of a man was discovered lying on track, but too late to prevent the train from passing over it and crushing it to pieces. The body proved to be that of Mr. Brannon, who, when last seen, was wending his way homeward with a sack of flour on his shoulder. The front of Drew's engine is said to have been covered with flour, and it is thought he must have run over Brannon, but how the body got back on the track in the position it was when run over the second time, is a mystery not yet solved.

Drew was promptly discharged by the officials here, and has left for parts to us unknown.

**DR. JOHNSTON,**  
Physician of this celebrated institution, has discovered the most Certain, Speedy, Pleasant and Effective Remedy in the world for all DISEASES OF IMPRUDENCE.

Weakness of the Back or Limbs, Strictures, Affection of the Kidneys or Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Langor, Low Spirit, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Dimness of Sight, or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible Disorders arising from Solitary Habits of Youth—secrete and solitary practices mere fatal to their victims than the song of the Sirens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, &c.

**YOUNG MEN**  
Especially, who have become the Victims of Solitary Vice, and dreadful and destructive habits which annually sweep to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entered listening Senates with the thunders of eloquence, or waked to ecstasy the living lyre, may call with full confidence.

**MARRIAGE.**  
Married persons, or Young Men contemplating marriage, aware of Physical Weakness (Loss of Procreative Power—Impotency), Nervous Excitability, Palpitation, Organic Weakness, Nervous Debility, or any other Disqualification, speedily relieved.

He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physician.

**ORGANIC WEAKNESS.**  
Immediately cured and Full Vigor Restored. This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgence. Young persons are too apt to credit excesses from not being aware of the direct and consequential injury now, which that understands the subject will pretend to deny that the natural powers are lost sooner by those falling into improper habits than by the prudent? Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptom of this disease, and which the system becomes deranged, the Physical and Mental Functions weakened.—Loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility, and Wasting of the Frame, Cough, Consumption, Decay and Death.

**A CURE WARRANTED IN TWO DAYS.**  
Relief in Six Hours! No Mercury! Persons ruined by Ignorant, Trifling Pretenders and their Deadly Poison, should apply immediately.
