

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER.

LOCAL NEWS.

ALEXANDRIA.—A writer in the Washington Chronicle, signed "Progress," makes the following remarks in relation to Alexandria:—"It is possible to make Alexandria the great coal depot of the Atlantic coast, as the great mineral resources of a large portion of Virginia may easily be shipped from her wharves to any harbor on the continent. It only needs enterprise and capital to enable her to rival Pittsburg in her contribution of iron and other metals to the industries of our country."

"Again, to speak a word in behalf of the consumers of our city, a few days' sojourn in Virginia has convinced me that immediate steps should be taken by our Legislature to remove the barriers which prevent the producers of one of the most fertile sections in our country from supplying our markets with meats, grain, fresh fruits, vegetables, milk, butter, eggs, &c. The fact is that many of the producers of Prince William, Loudoun, Fairfax, Alexandria, and other counties find it advantageous to dispose of their production in the markets of Alexandria, because they can reach that point over good, free highways, whereas to reach our city they are compelled to pay exorbitant tolls over highways and bridges. Indeed, large quantities of the vegetables and fruits consumed by us are bought by our hucksters in the Alexandria market, and, consequently, are more or less stale. I know several of our citizens who make it a practice to do their marketing in Alexandria, and save money by so doing, besides having the satisfaction of knowing that what they have purchased is fresh, good, and unadulterated. Should Superintendent Du Barry reduce the fare to Alexandria to five cents a trip, as he contemplates, and can well afford to do, and at the same time increase his receipts, hundreds of our citizens will go to Alexandria to do their marketing. I know some of our most prosperous Western cities have not only abolished toll-roads and toll-bridges, but have expended thousands of dollars in improving the highways leading into their cities. Another point of public importance, and that requires immediate attention, is, that Washington should be made the real terminus of the Washington and Ohio railroad, and that, too, without delay. Thousands of tons of produce would reach our market, and thousands of dollars would annually be expended among our merchants, agricultural dealers, &c. Besides, the contribution of coal from the interior would save a million or more annually to our consumers. The great wonder is that our capitalists, our merchants, and our enterprising citizens of all classes do not combine and help consummate these grand results."

POLICE HEADQUARTERS.—The Mayor being absent on a short visit the duties of his office are being discharged by H. L. Simpson, esq., President of the Board of Aldermen. The only case at police headquarters since yesterday's report has been that of Benjamin Boswell, who, for disorderly conduct, was put on the chain gang by Justice May for 30 days in default of the payment of the imposed fine. James Simms, who had escaped from the work house, has been rearrested and sent back there. The cool weather of last night induced four wayfarers to seek and find lodging at the station house last night. Thompson Harris and J. T. Huntington, for disorderly conduct and for tearing down the trees in front of the house of Thomas D. Vitt, were fined and discharged by Justice May. Dallas Peyton, arrested on the same charge, was dismissed as he gave Corporation's evidence.

MARINE RAILWAY.—A practical and experienced ship builder who has lately visited this city and inspected its water front with reference to the establishment of a marine railway here was so favorably impressed that he has proposed to invest \$25,000 in the project, and so confident is he of its success that he has agreed to assume its management at a small annual salary. That good dividends would be declared upon stock in a marine railway located here is not doubted by any one at all familiar with the business of this port.

ANOMOLY.—Mr. Wm. Fisher, an employee at the foundry of Jamieson & Collins, some time since caught a young musk rat, which he brought home and placed with a newly born litter of kittens. It accommodated itself at once to new conditions, and what is strange, it gets along on the best possible terms with its foster brothers and sisters, and, apparently, is looked after with as much solicitude by its foster mother as though one of the legitimate maternal folk.

COUNTY SUPERVISORS.—As stated in yesterday's Gazette no business was transacted at the meeting of the Board of County Supervisors yesterday except the auditing of some small bills against the county. The meeting was called for the purpose of making the county levy, but the Treasurer was unprovided with his vouchers and the meeting had to be adjourned until the 5th proximo.

TROTTING MATCH.—The trotting match yesterday afternoon over the Pique Branch race-course between W. Naylor's brown mare Bessie and A. R. Foot's gray mare Minerva was won by the former. A large number of spectators were present among whom were many from this city, but the race was not exciting as the time made was slow.

THE FISHERY.—No herring, and only about one hundred shad reached here this morning, and they came from the gilliers, as nearly all the shad have "cut out." They sold at \$9. The fishery of 1873 is about closing, and by the end of the current week all the fishermen will have ceased operations, and all the booths at Fish-town will have been vacated.

SALE OF A YACHT.—The yacht Gen. Hancock, belonging to Mr. John Nagle, has been sold to Capt. Cheshire, of St. George's Island, for \$800. She was originally built for the government at a cost of \$3,000 and was used during the war as a dispatch boat between Philadelphia and Delaware.

FIRE NEAR THE ARSENAL.—The fire alluded to in yesterday's Gazette caused the destruction of an old brick building, near the Arsenal, known as Castle Thimble, the property of Mr. Alexander, father of Mr. Columbus Alexander of this city. Three framed shanties and an old stable near by were consumed at the same time.

PERSONAL.—Colonel George Barrett, Chief Engineer of the Shenandoah Valley railroad, who has resigned his position on that road, and assumed the post of Chief Engineer on the New York, Norfolk and Charleston railroad, was in this city yesterday.

SMALL POX.—Another case of small pox—the son of a colored man named William Wilkins, living on Gibbon, near Washington street, was reported to day. The patient was sent to the hospital, where there are now three cases.

MALICIOUS ACT.—A party last night deliberately broke down and destroyed a row of young trees in front of the house of Mr. Thos. Devitt, corner of Duke and Alfred streets. To-day he was arrested and will be dealt with according to law.

PROPERTY SALE.—A farm of 940 acres, situated half way between Warrenton and Salem, belonging to Thomas Smith, was sold yesterday under a decree of Court to Bolling Robinson, esq., formerly of this city, for \$25 per acre.

SUMMER GARDEN.—As will be seen by reference to a notice elsewhere in to-day's Gazette, Fritz Schneider's Summer Garden will be opened to-night. An excellent band of music will be present, and should the weather be favorable, an agreeable time may be anticipated.

KNIGHTS OF PYTHIAS.—The Past Chancellors and Knights of the Order of Knights of Pythias, of this city, will visit Leesburg on Thursday next for the purpose of organizing a lodge of the order in that town.

HOWES' GREAT LONDON CIRCUS.—The famous London exhibition, with its procession, show ground and troupe, together with the finest menagerie of wild beasts ever brought together, is announced to perform in this city on Friday, June 13th. It is said of this exhibition that it brings with it most of the distinguished riders, gymnasts, acrobats, clowns and other athletes, of England and the Continent; including the trained animals belonging to Sanger's celebrated British menagerie, together with the most costly and splendid trappings, costumes, chariots and general outfit ever before exhibited in one establishment. The procession of this combination through the streets in this city they visit, is said to be the most gorgeous that was ever paraded, embracing no less than five chariots of colored, embracing a herd of five Asiatic elephants, attended by their native keepers in original costume, teams of zebras, shag and ponies, spotted donkeys and Flemish horses; with a cortege of nearly one hundred knights in steel armor, ladies in full Circassian dresses, cages of wild beasts, &c. &c., extending nearly a mile in length. Mlle. Dookrill, the astonishing Parisian barabekuckianne, and the famous Romelli family will perform with this troupe. Also, the dumb pantomime clown, Kennel, appears with it.

LOCAL BRIEVITIES.

The Festival of the Sewing Society of the Second Presbyterian Church will open at the Assembly Rooms to-night. The ladies have provided everything good, and the object being a worthy one, the company most agreeable, and the expense light, it is hoped that all who can will go.

The attention of capitalists and those seeking investments is directed to the bonds of the C. & O. R. R., advertised by the First National Bank of this city. The superior advantages offered will be readily perceived.

Among the graduates of the Law Department of the National University, in Washington, at the commencement, which is to take place to-morrow, will be Daniel K. Hawhurst and Frank Stilson, of this place.

During the heat of the noon-sun to-day the Superintendent of police, who is now absent, was sent for, and walked from Naylor's Hill to Fish-town to remove a suppositious nuisance. It is understood that Capt. Keat Davis of this city has been offered the command of the new yacht Treadwell of the Washington yacht club.

Attention is directed to the notice of the Superintendent of Police elsewhere in to-day's Gazette, with reference to refuse animal and vegetable matter.

The maiden argument of Charles E. Stuart, jr., in a case before the Circuit Court of this county, is highly spoken of by his brethren of the bar and others.

The Wawaset is running on the Washington ferry line to-day in place of the steamer City of Washington, which was taken off to have her boiler overhauled.

The base ball clubs in this city and neighborhood are now enjoying the sports of the game in friendly contests with each other.

The report that a colored boy named George Taylor was drowned in Hunting Creek, last night, is incorrect.

The market was quite well supplied this morning with vegetables. Prices were the same as on last Saturday.

Edward Valentine, opposite the market, on Cameron street, keeps constant supplies of clams, received from Norfolk.

The steamer Fairy is now making regular daily trips between here and Farmington.

The first passenger car left Winchester yesterday for Washington via the Metropolitan Railroad.

A regular semi-monthly meeting of the City Council will be held to-night.

Mr. James Brannon lost a valuable horse last night.

The May flies are increasing in numbers.

TELEGRAPH NEWS.

[SPECIAL DISPATCHES TO THE GAZETTE.]

Louisiana Affairs.

NEW YORK, May 27.—A New Orleans special says that the colored supporters of the Kellogg government held a large meeting at Mechanics' Institute, last evening, for the purpose of arranging for better presentation of their cause to the people of the whole country. Lieut. Governor Antone presided and Governor Kellogg and several of his prominent State officials were on the platform. Speeches were made by leading colored orators of the State. Resolutions were adopted asserting that Kellogg was legally elected, and that his supporters were shamelessly abused and deprived of their rights last fall, also providing for the appointment of a committee, whose duty shall be to send North some of their ablest colored orators, and organize in every parish of the State a committee for the collection of evidence and the selection of witnesses and to do everything that is necessary to remove the misapprehension in the North, of the state of affairs in Louisiana, and to present Kellogg's case in the strongest light before Congress next December.

L. L. Martineau, the member of the Kellogg Legislature, who made the affidavit on which General De Blanc and nine others were arrested for conspiracy as defined by the Ku Klux act, testified at their examination yesterday that he made the affidavit on the strength of information which led him to fear that the colored people might meet the Grant parish fair, unless preventive measures were used. His information was in the form of a letter signed by five persons who when called upon the stand knew nothing against the prisoners, and the men mentioned in the affidavit as having been intimidated, and whose names it is understood were filled in after the affidavit was signed were equally ignorant of any wrong on the part of General De Blanc and his men. Martineau admitted that he had consulted with Kellogg and Mr. Billings, before making the affidavit, but refused to say whether they advised it or not.

De Blanc and his associates were promptly discharged. United States Commissioner Shannon saying that the "defendants had been unjustly put to the expense of time and money but this is an expense they must be content to endure for the good of the body politic."

The Indians.

NEW YORK, May 27.—A Washington special gives a letter from Indian Commissioner Smith to Indian Agent Montoth, at Laywell, Idaho, instructing him that prohibiting Catholics or any other denomination from putting services among Indians, although Montoth claims his agency as a Presbyterian one, is wrong, no religion being entitled to quality.

The Yellowstone expedition is expected to meet with hot work, and no correspondents or civilians will be allowed with it.

Extra clothing has been ordered for the troops serving against the Modocs.

SAN FRANCISCO, May 26.—Company A, 1st Cavalry, which was sent from Prescott by Gen. Crook on the 1st of April, to co-operate with the troops engaged against the Apache-Mojaves found a band of savages at the head of Dale Creek on the 6th instant and fought them. In the action five Indians were killed and all their provisions and blankets captured. Immediately after the fight the command received orders from Gen. Schofield to proceed to the Modoc country.

The latest reports from Arizona indicate that there will be danger of another general Indian war should the First Cavalry be withdrawn from that territory.

Four thousand Indians have assembled at New Westminster from all parts of British Columbia, under the pretext of holding a council. Dr. Powell, Superintendent of Indian Affairs in that region, will meet the Indians to-morrow to hear their grievances.

From New York.

NEW YORK, May 27.—The captains of the ships Norcan and R. W. Messer, from Rio Janeiro for New York, died of yellow fever on the voyage. Yellow fever patients are beginning to arrive at quarantine.

A large meeting of Swedish emigrants and the Swedish Interest Society fund.

Three brothers Sealy were arrested yesterday on a charge of heavy frauds in the hat business in Newark.

The trial of John Kelley, on a charge of murder in connection with the Pattenburg riots in New Jersey, resulted in acquittal.

Margaret Lyons, a cook, was found in the street of John W. Elias' house last night, on 52nd street, having jumped from a second story chamber window to escape from Elias. The latter was arrested. The woman is seriously injured.

S. Maguire was arrested in Brooklyn for fatally stabbing James Harris during an altercation about a girl at a picnic in Gorman's, yesterday.

The funeral of Jesse W. Wallack took place at 11 o'clock from the P. E. Church of the Transfiguration, Rev. Dr. Houghton officiating. Among the pall bearers were A. Oakley Hall and Recorder Hackett.

Presbyterian General Assembly.

BALTIMORE, May 27.—The General Assembly of the Presbyterian Church (eleventh day) opened with prayer by Rev. Geo. Duffield, of Michigan.

The report of the Committee on Ministerial Sustentation, and the accompanying resolution, was taken up. The present system of sustentation, its continuance as a separate scheme, or consolidation with the Board of Home Missions was earnestly discussed for two hours. Drs. Van Dyke, of Brooklyn, Campbell, of Rochester, Jackson, of Baltimore, and others taking part. The report of the committee, with a resolution that the sustentation scheme has the confidence of this Assembly, as a wisely formed and well conducted plan, and that it is no longer to be regarded as a mere experiment, was finally adopted. The committee was continued and Dr. Jacobus was appointed Secretary of the committee.

France.

LONDON, May 27.—A special dispatch from Paris to the London Times, says the new French government has resolved to adopt a free trade policy and also to reduce the military expenditures. It is stated in the same dispatch that ex-President Thiers will resume his literary labors.

The News has a special from Berlin conveying the idea that it is the prevalent opinion in the German capital that President MacMahon will prove a counterpart of General Mook, the restorer of the House of Stuart to the English throne, and that his election heralds legitimate restoration in France.

The Wreck of the Atlantic.

NEW YORK, May 27.—A Halifax dispatch states that wreckers from the Atlantic report a large quantity of cargo still in the vessel, and the sides of the vessel having fallen in on the cargo makes its rescue very difficult. The blowing out of the side of the vessel, by powder mangled many bodies beyond all possible recognition, and the divers say heads, arms, legs and feet are strewn on the bottom in all directions. The bodies found require the most careful handling or they will drop pieces. The portion of cargo rescued and sold at Halifax, brings good prices.

Exploring Party.

ALEXANDRIA, EGYPT, May 20.—The pioneer party of the Oriental Topographical Corps, from New York, engaged in explorations of the Bible lands, have gone from Egypt to Syria

and Asia Minor. A scale photograph of the altimeter, devised by one of the corps, has been taken, which, it is claimed, will definitely settle the vexed cubic question. A plan of rapidly taking altitudes of ruins, pyramids, &c., invented by one of the party, is said to work admirably.

From Salt Lake.

SALT LAKE CITY, May 26.—At a meeting of discharged soldiers to-night instructions were given to the general committee to return all moneys contributed to defray the expenses of decoration day to the donors. This action was in consequence of the solicitation of funds from Brigham Young, Elder Wells and other Mormon leaders.

A local newspaper says that speaker Blaine sat in Brigham Young's private box at the theatre. This is not true. Mr. Blaine did not call on Brigham at all, nor did he, like most public men who visit here, permit the Mormons to pay his bills. Brigham met Mr. Blaine on the cars and in a conversation which followed the Speaker talked very plainly to the Prophet concerning the political status of this territory.

Agricultural Congress.

INDIANAPOLIS, May 27.—Delegates to the National Agricultural Congress, which convenes here to-morrow have commenced arriving, and nearly all the States and territories will be represented. Additional importance is claimed for this meeting by the rapid spread of the farmers' movement, and it is expected the subject of transportation will be made the most prominent in its deliberations.

Damage by Floods.

QUEBEC, May 27.—Heavy rains in this vicinity have so swollen the lumber rivers that about five million feet of lumber have gone adrift.

ST. LOUIS, May 27.—Special dispatches from Kansas and Iowa represent that immediate damage has been done to the crops by excessive rains during the past week.

Fatal Affray.

CINCINNATI, O., May 27.—While on an excursion train Sunday between Lexington, Ky., and Winchester, an altercation ensued between two colored passengers named Jack Bradford and John Pearson. Bradford shot Pearson, after which he cut his head nearly off and then threw his dead body from the train. Bradford was arrested.

Fire and Loss of Life.

LONDON, May 27.—A fire, attended with a lamentable loss of life occurred this morning in Berkeley square. Six persons were unable to escape from the burning building and perished, and six others were injured by falling walls. No water was available and the flames spread with great rapidity.

FINANCIAL. THE First Nat'l. Bank of Alexa., Va.

The present high price of Government Securities is increasing the demand for first-class Railroad Bonds; and it is not reasonable to suppose that the present difference of from TWENTY to THIRTY per cent can be obtained for any great length of time.

We are recommending for Exchange or for new investments— THE CHESAPEAKE AND OHIO SEVEN PER CENT MORTGAGE BONDS, interest payable January and July; principal and interest payable in gold in New York city.

Only \$2,000,000 of these Bonds will be offered for sale at present. Price 90 and accrued interest.

They are amply secured, and a very desirable investment. The proceeds will be used in adding largely to the present equipment, and in extending the line from its present tidewater terminus at Richmond to deep water on the Chesapeake bay, where the largest steamers in the world can load and unload alongside the cars.

Also, the CHESAPEAKE AND OHIO SIX PER CENT BONDS, interest payable May and November; these bonds are issued in denominations of \$100, \$50 and \$1,000. Price 88 and accrued interest. The road, 420 miles in length, is now completed, and the business offering is very large, and increasing daily.

Pamphlets, giving a full description of the Chesapeake and Ohio Railroad and its advantages, and particular information concerning the agricultural, mineral and mechanical resources; the remarkable coal and iron deposits; and the opportunities for settlement, investment, and the employment of capital and labor in various industries along its route, copies of which may be had, free of charge, upon application in person or by mail.
