SIGNS OF THE DAY.

The prosecution in the trial of the safe burglary conspirators, at Washington, concluded their evidence yesterday, with the exception of one witness, who will be produced in court to-day. The opening statement of counsel for Harrison and Whitney, of counsel for the Government, was made by Mr. Smithers. He claimed that the evidence of Hayes and Zerruth in regard to the conspiracy were alleged to have been fabricated or broken down by the establishing of alibis on behalf of the accused.

When the recent stringent law broke up the business of the proprietors of betting establishments in England, they established themselves in France and commenced operations. Rev. J. E. Gerdeman, of the Catholic Church, is reported to have disappeared with the female organist at St. Boniface's Catholic Church, Philadelphia, of which he was pastor. A statement that Gerdeman absconded with funds of the church and his parishioners is doubted, but an investigation by the Bishop of the diocese into the affairs of the departed clergyman is to be made at once.

The body of George E. MR. BARBOUR'S SPEECH.—It was mentioned in yesterday's Gazette that Mr. Barbour had made a speech at Culpeper Court House, on Wednesday last, in acknowledging the compliment of a serenade. The following is the report given by the Culpeper Observer:

"Mr. B. related in glowing terms how the people of his old county had supported him, both white and colored, Conservative and Republican. He said, 'I'd rather be in my place, having carried my county by a majority of 1700, and Gen. Hutton's own township by a majority, than to have a seat in Congress. The struggle we have commenced, I mean to carry out, throughout the Commonwealth. (He then pitched into Gov. Kemper for having left the executive mansion, and voted against him. Hereupon loud cries, give it to him!) Whatever may be the result, I know that I received a majority of 1700 in my county, and Gen. H. only 38 in his. They defeated us by giving Syphax money to get five or six hundred votes. They will be ashamed of their associates, and owe their success to the ultras I sought to bring about peace and reconciliation, and if not elected, I am proud of the vote Culpeper has cast for me."

SECOND GROWTH OF STRAWBERRIES.—Mr. James A. Piper, residing in the western suburbs of the city, has strawberries on his vines, of second growth, as large as a cherry, and have the appearance of coming to maturity if carefully protected. This is a rare occurrence in this latitude.—Staunton Virginian.

City School Board.

A called meeting was held last night, present: Edgar Snowden, Jr., esp., Chairman, Messrs. S. F. Bacon, W. F. Carne, Kemper, McKenzie, Swale, Wheat and Whittington, Trustees, and R. L. Carne, Superintendent of Schools.

Joseph Hopkins, esp., elected by the City Council a Trustee of Public Schools for Southward district, in place of E. F. Witmer, esp., took the oath of office before the Superintendent and his seat as a member of the Board.

The Chairman informed the Board that the meeting had been called to attend to certain matters relating to finances, and to consider the crowded condition of the schools. He presented a note for \$1,000, to C. C. Bradley, which had been paid, and on motion of Mr. Wheat, it was ordered to be cancelled and filed. He also, informed the Board that, in conjunction with the Committee on Finance and Accounts, he had borrowed \$1,000, for four months, from the Citizens' National Bank, giving the note of the Board, under seal, therefor.

The Superintendent then read for the information of the Board a statement of the probable receipts and expenditures for the current year, showing that, with the aid of the Peabody fund, there would be no difficulty in meeting expenses if the schools were economically administered.

He also, gave a statement of the number of children in each school from which it appeared that almost all the schools had more than the fifty allowed by the regulations. He thought, however, that a new school could not be profitably established, but that it would be well to authorize the Principal of Hallowell School to permit one of her older pupils, who was anxious to do so, to assist Miss Lila Morris in teaching, as there were over seventy children in her division. It would require a room and fuel in addition to the present arrangements.

Several trustees inquired whether any further arrangements had been made concerning colored school houses, whereupon, Mr. Kemper, from the Committee on School Houses and Furniture reported that that committee had just had an interview with Messrs. George L. Seaton and A. S. Perperer, trustees of colored school houses, by whom, they had been informed, that they had determined that the school houses should not be again rented for fairs or balls; that the school room using the assembly room of Lee building had been rented to vacate, and that no boys would, hereafter, be allowed in that building, and, finally, that the houses and furniture would be repaired and all the money received for rents applied to insure the buildings and improving them and the furniture.

This report being perfectly satisfactory, was accepted, and on motion of Mr. Hopkins, the Superintendent was authorized to allow a pupil from Hallowell School to assist Miss Morris, and that another room be used for that purpose, the chairman stating that there were not seats for all the children in the room now occupied.

The Superintendent stated that the proprietor of the Stereopticon which was exhibited here last spring, would give an exhibition for the purpose of furnishing the assembly room of the Peabody building, if furniture was procured.

Mr. McKenzie said he had about twenty-five benches, in a damaged condition, which he would present for the purpose, and they were accepted, a vote of thanks being, at his request, withdrawn by the mover.

On motion of Mr. Wheat, the Superintendent was authorized to arrange for the proposed exhibition, and the Committee on School Houses and Furniture to purchase the necessary chairs and benches if it could be done cheaply.

Mr. Kemper, from the Committee on School Houses and Furniture, reported sundry expenditures on the Peabody Building, which report was accepted.

On motion of the Superintendent, referred to the Committee on Finance and Accounts, Mr. Wheat, from the last named committee, reported a bill of the Virginia Sentinel, for advertising, \$6.37, which was ordered to be paid.

Mr. Kemper, from the Committee on School Houses and Furniture, reported that they were about to have a ventilator placed upon the water closets, and had contracted for iron steps to the male department, at Peabody Building. On motion of Mr. W. F. Carne, the action of the committee was approved.

The Board then, at 8:30, adjourned.

THE THIRD TERM AGITATION.—To-day the usual Cabinet meeting was held. As there was no business of any particular importance, the thoughts of the President and the members of the Cabinet naturally turned upon the elections.

In the course of the conversation the President expressed himself more at length on the third term than he has ever conceded to do heretofore. Without renouncing any such idea on his own part he said that a careful examination of the returns in the different States showed conclusively that the people in rendering their verdicts were not influenced by the wild and senseless cries on this subject which he pointed to what he considered two notable instances in proof of his assertion. The South Carolina republican convention had emphatically pronounced for him for a third term, and its candidate for Governor had been triumphantly elected in the face of all the enormous odds against him. On the other hand, in the Utah district of New York, where the republicans had always had an overwhelming preponderance, Mr. Ellis H. Roberts insisted upon the congressional convention which nominated him pronouncing against the third term and Mr. Roberts was defeated.—Wash. Cor. of the Balt. Sun.

ROUND HILL.—This new terminus of the Washington and Ohio railroad is now a scene of bustle and business activity. The track has already been laid to within a short distance of the site of the depot, and the work of grading and filling up is nearly completed. Several gangs of hands are employed on the extension to Snickersville, and the work is being pushed forward with an earnestness that indicates business on the part of the management. The depot building will be erected at an early day, when the running of the cars to Round Hill will be commenced, and the shipments of the products of the fertile farms in that vicinity will present a sight that will cause rejoicing.

A new road has been laid out and constructed leaving the turnpike at a right angle, a short distance west of the store, which is a decided improvement on the old one, and every thing bears the impress of progress and well directed enterprise.

A new building has just been put under roof by Mr. Wright, and the foundation for another substantial stone structure has been dug, and it will be put up without delay.—Loudoun Enterprise.

COL. LAWRENCE MARYE.—We announce with pleasure the election to the Tennessee State Senate, from the Chattanooga district, of Col. Lawrence Marye. The vote by which he was elected will be gratifying to his many friends in Virginia. In Chattanooga, where Maynard, Radical, for Governor, led his popular opponent, Judge Porter, 146 votes, Marye tied his Radical opponent, whilst in the county of Hamilton he led over 500 votes, thus securing his election. Col. Marye has only resided in Chattanooga about three years, and the result is a strong proof of great personal popularity. He is a native of Fredericksburg, and a brother of the Hon. John L. Marye, formerly Lieutenant Governor of Virginia.
