

THE GAZETTE.

TUESDAY EVENING, MAY 25.

In the village of Spenberg, about twenty miles distant from Berlin, is situated the deepest well in the world. It is for some distance 16 feet in diameter, and is 4194 feet in depth. It was begun about five years ago by the government authorities with a view to ascertaining the existence of rock salt beneath the strata of gypsum occurring in the locality. At a depth of 280 feet the salt was reached, but the boring was continued to a depth of 950 feet, the diameter of the bore being reduced to about 13 inches. The boring was subsequently prosecuted by steam until the final depth of 4194 feet was attained. At the lowest point, the salt deposits still continue, exhibiting the enormous thickness of 2907.

A Berlin correspondent, writing of German betrothals, says: There is one disadvantage connected with the German fashion of making these matters so openly known to the public, which, while, I think, prevent our changeable American lovers from following their examples. Sometimes, in the columns of "Daily Intelligence," in which betrothals and marriages appear, occurs such a paragraph: "For satisfactory reasons the betrothal of our daughter Margaret Catharine Gotz with Herr Johann Wilhelm Schueman has been dissolved by us." The names of both parents, in full legal form, follow this paragraph.

"Your hand writing is very bad indeed," said a gentleman to a friend more addicted to boasting than to study; "you really ought to learn to write better." "Ay, ay," replied the young man, "it is all very well for you to tell me that, but if I were to write better, people would find out how I spell."

LEGAL NOTICES.

ICE DEALERS. Notice to Ice Consumers. I desire to call the attention of consumers of Ice to the fact that I have on hand, and offer for sale during the coming summer, from 1000 to 1500 tons of Ice, which I will deliver to any part of the city at the lowest possible rates.

This Ice was collected in good condition from the Pond south of the Canal Basin; was formed entirely from rain and spring water; is free from impurities of every kind; and it would be difficult to assign any reason why it should be inferior in purity to Ice gathered from the rivers of the North.

Ice cut from this Pond is now used at the residences of Col. C. F. Suttle, John B. Dalton, and at the Mansion House and City Hotel, with entire satisfaction to all. In assuming to carry on more largely the business pursued in a small way for many years by my father, I respectfully ask a continuation of the patronage which he enjoyed, with such additional trade as my increased efforts may be able to merit.

Purveyors of Hotels and Restaurants, Confectioners and other consumers of considerable quantities of Ice will find my PRICES VERY LIBERAL. Orders promptly filled by applying at either depot. my 1-4f JOHN S. BEACH.

ICE! ICE! ICE! A full supply of NORTHERN ICE, from the clearest of water, and of unusual PURITY and SOLIDITY, constantly on hand.
