**ALEXA GAZETTE & VIRGINIA ADVERTISER**  
(FOR THE COUNTRY)  
Published Tuesdays, Thursdays and Saturdays  
At five dollars per annum.  
Transient advertisements inserted at \$1.00 per square, (eight lines or less) for first insertion, and twenty-five cents for each subsequent insertion, and on its left is a large parlor, prettily furnished, rather than elegantly, furnished. Its walls are moderately adorned with choice original paintings and a few rare engravings.  
A marble bust of a boy—a clever work—rests in a ped. stall to the end of the room nearest the street. On the centre table are a few costly bound books.  
The servant said the Governor was just then at breakfast. Wouldn't we step into the parlor and be seated? We did so, and my friend and I passed a short portion of our waiting in inspecting His Excellency's album, which lay open-leaved on the centre table. One of the two dozen or more pictures with which it was filled, certainly twenty were those of young, handsome, refined looking ladies, and in the centre leaf of the pictured beauty was the pleasant face of the Governor, smiling as blissfully as a fresh bridegroom.  
In the event of the Governor's election, there need be no fear but that the White House will be presided over by feminine grace, beauty and intellect, if the pictures in the album afford any indication upon which to base such an opinion.  
A quarter of an hour passed, and two more visitors called, one on the very heels of the other, and were shown into the parlor. The four of us talked St. Louis and the weather, but principally St. Louis. Within another quarter of an hour half a dozen workmen apparently had arrived, and came and twos, and were seated in the broad hall way.  
Presently the Governor came into the room, showing a face in which the keenest eye could detect no unbusinessness. His present and prospective honors sit lightly on the bachelor statesman. He spoke for a few moments to one of the party, and then turned to us. We stated the purpose of our visit, and after some conversation respecting it, said:  
"I suppose that the rush of congratulatory telegrams has not yet ceased and the letters have only begun to put in an appearance? All of those that were printed were exceedingly flattering."  
"Very kind indeed, sir. Oh," said he, suddenly, "did you see the one from the Greeley family? I thought that one of the best, and I think, too, we shall secure a greater part of that liberal vote."  
"It looks that way," I replied, more to draw him into further political talk than anything else, and I was rewarded for the remark.  
"Yes, sir. It seems to me that not only that large vote will be ours, but a very respectable Republican vote. There's no denying it that a great number of professed Republicans, particularly among the poorer classes, which quite naturally lean toward our party, are thoroughly sickened with the contumacious misrule, extravagance and corruption of the Washington authorities."  
"Don't you have more or less hopes of receiving the support of the old barometer vote?"  
I think just this. "We—the Governor throughout, with continued modesty, used the plural pronoun speaking of his party—out of himself—in this State will be able to get one-third of the republican farmer vote, one-third of the German republican vote—at least one-third of that over the whole country—a large majority of the mercantile and commercial vote of the State, and."  
"Certainly, Governor," I broke in, "the Germans secure your friends, both in the West and here. I have heard your friends claim that some action of yours—years ago—on the sumptuary laws is the loadstone which attracts their steel like regard."  
"Oh, yes," said the Governor, smiling, "I know what you refer to. Yes, yes. By the way, just excuse me a moment, and I will get you the opinion—that's it."  
With this he went out of the room, and returning in a moment was delayed in the hall by the workmen's delegation before mentioned. He quickly and pleasantly disposed of them, reading some paper they presented, and politely saw them to the door.  
"Here it is," said he, returning to the room; "here's what you mean, and he came near to two we had risen, holding two copies of a two-leaved pamphlet in his hands. "You see (pointing to the date), 1855, twenty-one years ago next October—before you were drinking lager, my young friend. This was written when I allowed my name to be used as a candidate for the Attorney Generalship in a contest we all knew beforehand to be hopelessly a foregone one. Well, you see my opinion was asked on a law entitled, 'An act for the prevention of intemperance, pauperism and crime'—a very bad thing."  
"Here, I say," and he read in a low tone of voice and rapidly an extract.  
"That was my opinion on that measure twenty-one years ago, and I have seen no reason to change it—none whatever. I think that it is the loadstone you speak of."  
The Governor gave my companion and me the two pamphlets and I marked the portions he had read.  
"Well, sir, what do you think of the party's chance in the West? Will you be able to carry Indiana?"  
"I certainly think we will."  
"Are you acquainted, Governor, with your associate on the ticket, Mr. Hendricks?"  
"Oh, yes, passably well. I regard him as a very able, upright, estimable gentleman."  
"Happy in the association," I remarked.  
"Is there another Western State the democrats can carry?"  
"Yes, I'm inclined to hope that we will carry Michigan—probably Wisconsin, too."  
"South Carolina and Louisiana of the Southern States will probably go the other way. The rest your party claim, I believe?"  
"Louisiana is ours. South Carolina may be doubtful, but the rule of mismanagement and occupation is not so strong there as it was quite recently. Of the Western States you mention

my advices from these indicate we can carry two, if not three. There seems to be an effort to create an impression that I have agents in every little school district in the State and hundreds scattered throughout the country. Such is not the case. Friends whom I have and may never see have kindly written me, and I should be ungrateful if not thankful for the interest they manifest."  
"Will your party cut much into the republican vote?"  
"I think we will. The gentleman who just left the room—you noticed him—is an original republican, an active, influential man, never an office holder. He is with us heartily. They call, and I hear from them every day."  
"Your friends in the city attribute your nomination as much as anything else to Mr. Kelly's unskillful war upon you. It looks so, and the impression, I see by the papers, is becoming more general."  
"It has, no doubt, had a good deal to do with it. Mr. Kelly waged a bitter war at St. Louis. He is a good fighter, and I think I see he has no regrets, however."  
"Well, that's good democracy. He quarrelled with me (and with Senator Kernan and Governor Seymour I believe too) because I would not interfere in the local fight in the city last fall which proved so disastrous to Tammany Hall. It was none of my business, either as a member of the democratic party or as an official—certainly not as the latter. As a democrat I regretted the existence of two factions within the party; but who shall assert that both were not equally democrats. It would have been unbecomingly and undignified in me to have interfered, and it would have had little use, may be, too."  
"I understand from a pretty reliable source that Mr. Ottendorfer, the Kaiser of the German democracy, will insist on a change of the name of Tammany Hall, as well as its organization. Some other name, according to him, should be adopted."  
"Well, that's not my business. It might be better. Indeed, I believe I counselled it after the odium Tweed and those other rascals brought upon it."  
"There are some rumors that Mr. Kelly's brain is affected—a similar attack to that which felled him a few years ago to visit Europe."  
"Oh, I don't think so! Certainly I hope there is no truth in it. I never understood that he was mentally impaired when he went to Europe. It's not likely."  
"A campaign club, named after you, fired 100 guns in your honor right before last in Madison Park. I see a democratic evening paper claims to have done it. A little crowd must be eaten."  
"I didn't hear that," said the Governor, with a merry twinkle in his eye. I haven't had time to read the newspapers much recently—that is, all the campaign news and opinions.  
"I think you shall try to have printed some of your sumptuary law opinions and a few of your remarks."  
"Oh, no," said the Governor hastily, and retreating a few feet, his face assumed an expression of comic perplexity. "I can't be interviewed."

**Gov. Tilden.**  
The New York Herald publishes the following account of a visit to the democratic nominee for President, at Albany:

The Governor's residence looks somewhat out of place in the narrow street on which it is situated. It belongs more properly to the country, resembling a well-to-do gentleman's summer seat, with its neat front garden, well paved walks, close cut grass, broad verandas, low stoop, easy chairs and hanging baskets. Its doorway, directly in the centre of the mansion, is flanked by two iron dogs, modelled after the Italian greyhounds, but a little heavier. Its hallway is broad and on its left is a large parlor, prettily furnished, rather than elegantly, furnished. Its walls are moderately adorned with choice original paintings and a few rare engravings.  
A marble bust of a boy—a clever work—rests in a ped. stall to the end of the room nearest the street. On the centre table are a few costly bound books.

If you feel DULL, DROWSY, DELIRIATED, have frequent Headache, MOUTH TASTES badly, poor Appetite and Tongue Coated, you are suffering from Torpid Liver or "Biliousness," and nothing will cure you so speedily as my Regulator.  
**Hon. Alexander H. Stephens.**  
"I occasionally use, when my condition requires it, Dr. Simmons' Liver Regulator, with good effect."—[Hon. Alex. H. Stephens, Governor of Alabama.]  
"Your Regulator has been in use in my family for some time, and I am persuaded it is a valuable addition to the medical science."—[Gov. J. Gill Shorter, Ala.]  
"I have used the Regulator in my family for the past seventeen years. I can safely recommend it to the world as the best medicine I have ever used for all classes of diseases which it purports to cure."—[H. F. Thigpen, Baltimore Episcopal Methodist.]  
This medicine is acknowledged to have no equal as a Liver Medicine, containing those Southern Roots and Herbs which an all-wise Providence has placed in countries where Liver Diseases most prevail.  
**Lady's Endorsement.**  
"I have given your medicine a thorough trial, and in no case has it failed to give full satisfaction."—[Eliot Mescham, Washington, Fla.]  
**Professional.**  
"From actual experience in the use of this medicine in my practice I have been, and am, satisfied to use and prescribe it as a purgative medicine."—[Dr. J. W. Mason, Florida M. E. Conference.]  
"I have used Mr. Simmons' Liver Regulator in my family for Dyspepsia and Sick Headache, and regard it an invaluable remedy. It has not failed to give relief in any instance."—[Rev. W. F. Easterling, President Oglethorpe College.]
