THE COAL TRADE.—The coming season for the canal seems doomed to open, as did the last one, amid troubles at the mines. The Cumberland Alleganians says: "The miners are very much exposed over the rumor that the companies propose to reduce the cost of mining, and they are anxious inquiries are made as to the rate they propose and the price at which the Miners' Union will stick. We are convinced that the companies, who have signed an agreement to hold together, will not propose to reduce to less than 50 cents per ton. Some of the companies are expected to make an announcement to their employees on Thursday next."

Some of the companies are expected to make an announcement to their employees on Thursday next."

THE COAL TRADE.—The coming season for the canal seems doomed to open, as did the last one, amid troubles at the mines. The Cumberland Alleganians says: "The miners are very much exposed over the rumor that the companies propose to reduce the cost of mining, and they are anxious inquiries are made as to the rate they propose and the price at which the Miners' Union will stick. We are convinced that the companies, who have signed an agreement to hold together, will not propose to reduce to less than 50 cents per ton. Some of the companies are expected to make an announcement to their employees on Thursday next."
