CENTRAL AMERICA. NEW YORK, Feb. 25.—The Panama Star and Herald of February 17th, just received, says: Messrs. Contreras and Rodas, two members of the party who took possession of the American schooner Sunbeam, at Port Limon, on the 1st instant, called upon us on the 14th and stated that their action was solely prompted by the instinct of self preservation, and was not in any manner intended as an act of piracy.

They state that they were pursued by a superior force, and that it was a matter of life and death. Under these circumstances they assert that they offered the captain of the schooner money to take them away, which he refused, and that they then took possession of the vessel by a show of force, but did no violence to person or property by so doing, and meant no injury to the United States.

The Panama Star and Herald of February 17th says: We have received a communication from a respected correspondent in Guatemala in which the official conduct of the United States Minister is complained of and severely criticised.

It is not the first intimation which has reached us to the effect that the officer referred to has succeeded in rendering himself unpopular with his countrymen and the public of Central America. We do not feel called upon to publish the specific allegations brought against him, but in our position as impartial journalists it becomes necessary to take note of repeated charges affecting the conduct of a public servant who occupies the important position of United States Minister to the republics of Central America, with whom it is the interest of the country he represents to maintain and foster the most friendly relations.

Instead of seeking cases to quarrel the Minister ought to be imbued with sufficient wisdom, or at least common prudence, to avoid all show of animosity, and to act in a manner which would conciliate and please the government and people to whom he is accredited. That such has not been the case we regret to say there has been sufficient evidence to prove in the case of Mr. Williamson. Our readers will remember the Eisenstock business and the part he played on the occasion of the visit of the German Charge d'Affaires and himself to the Nicaragua capital. Without rhyme or reason he left Nicaragua and made such representations to his Government that without positive evidence to the contrary, we must conclude that President Hayes was led into the remarkable error when reporting his message to Congress, under date of December 27, of saying that friendly relations had been interrupted with Guatemala when he evidently meant Nicaragua. There has not been any other cause of dissension within our knowledge and that one should have been avoided. As far as Guatemala is concerned, it is very much to be regretted that the world should have been misinformed in so grave a document as the President's message that relations had been broken off when such was not the case.

NEW YORK, Feb. 25.—Accounts from Callao, Peru, of the effects of the tidal wave there on the 27th of January, say the alarm is indescribable and the damage incalculable. The oldest inhabitants of Callao state that they have never seen anything to compare with the scenes of Sunday and Monday, January 27th and 28th. The sea is covered with floating debris. At every moment immense waves of thirty and forty feet high break over the mole and along the whole coast line, spreading havoc and destruction around. Most of the modern structures inside the moles built for the use of the Pacific Steam Navigation Company and for other purposes have been swept away or broken up. Two thousand tons of coal for the English Company has disappeared and the merchandise on the dock has been completely ruined. The wheat mole, the Chucuito mole, the property of the Muelle Darsena, and Meigs' mole are destroyed. The various timber sheds, coal deposits and bathing establishments have been greatly damaged. The railroad running from the dock to Chucuito has been completely undermined. Eight persons were drowned. At Pisagua the condenser was broken to pieces and a considerable quantity of coal and salt-petre lost. At Iquique the earthquake shock

was terrific. It threw the whole town into a state of consternation and alarm. It lasted one minute and thirty seconds. This main shock was followed during the night by forty minor shocks. Land slides are reported. At La Noria several houses at the steamer Kurak collapsed.

Terrible Railroad Accident. (Special Dispatch to the Alexandria Gazette.) FREDERICKSBURG, Va., Feb. 25.—A terrible accident happened on the R. E. & P. R. R. early this morning. A regular passenger train was nearing Millford Station, and it was discovered that the two sleepers were detached. The train was halted, when the cry arose that the detached cars were coming with a velocity of forty miles an hour. The passengers in the coach next to the sleeper rushed for the forward car, when the sleeper came violently in collision with the train, telescoping the platform of the passenger and smoking cars, and catching the following passengers between the cars: E. Faulkner, of Richmond, leg broken; L. F. Donnelly, of Charlottesville, W. Va., one leg broken and the other badly hurt; Warren Wainwright, private secretary of President Robison, killed; John W. Aldridge, foreman of the Fredericksburg News, thigh broken and injured internally. Several others were slightly injured. Physicians were called from here last night on a special train to the scene of the accident. The injured are in a critical condition.

The Louisiana Returning Board. NEW ORLEANS, Feb. 25.—Thomas C. Anderson was called before the bar this morning, the motion in a rest of judgment, was overruled and when asked if he had anything to say for himself, Anderson said, that he considered his case a cruel persecution under the form of law, that he was in the power of the court and ready to receive sentence. Judge Whitaker answered, that the accused had had a fair trial before an impartial jury and that the verdict was fully justified by the evidence. He then sentenced Anderson, in consequence of the recommendation of the jury, to the mercy of the court, to the lowest term under the law, two years at hard labor in the State penitentiary and costs. A suspensive appeal was granted returnable on Wednesday. A motion to transfer the case to West End, Fairfax county, Virginia, was filed and will be heard on Wednesday, March 6th.

The adjourned meeting of the stockholders of the Alexandria Library Company will be held to-morrow.

The work of repairing the old Eagle Hotel on Union street, belonging to Captain E. H. Patsy, which was recently damaged by fire, was commenced this morning.

The ferry steamer, City of Washington, which has been thoroughly overhauled and repaired, was put on the Washington route this morning.

TORTURES THAT NEED NOT BE ENDURED.—People suffer a great deal of pain unnecessarily. Among tortures that need not be endured are those inflicted by the rheumatism and gout, since the acid element in the blood which produces them by contact with the sensitive covering of the muscles and joints may be eliminated by the use of that matchless de-purifier, Hostetter's Stomach Bitters, before the inflammatory symptoms are developed to any great extent. When it is considered what excruciating tortures rheumatism inflicts, and what intense it is when fully developed, to attack the heart, the advisability of an early use of such a reliable antidote becomes at once apparent. The rheumatic virus is expelled from the blood by the increased action of the kidneys, which act as strainers, producing by the Bitters, the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup or any disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you. A GENTLE HINT.—In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day—it is no wonder that our children, from us by neglected colds, half the deaths resulting directly from this cause. A bottle of Boschee's German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup or any disease of the Throat or Lungs, its success is simply wonderful, as your druggist will tell you.
