

LOCAL MATTERS.

WEATHER PROBABILITIES—July 23, 1878.—For the Middle Atlantic States, clear or partly cloudy weather, cool, but not very warm, stationary temperature, and rising barometer.

ALEXANDRIA LIGHT INFANTRY.—The Alexandria Light Infantry held a business meeting last night, with Capt. F. L. Smith in the chair. The committee on band having no report were discharged, and a new committee, consisting of Messrs. A. E. Slaymaker, George McBurney, Jr., and J. F. Young, was appointed. An amendment to the constitution was adopted separating the offices of Secretary and Treasurer.

Also one to provide for life members at \$100 each, and to grant certain privileges to honorary and contributing members. The company then went into an election for Junior Second Lieutenant, it being understood that the lowest candidate on each ballot, after the second, would be dropped.

The ballots resulted as follows: First ballot: R. W. Wheat, 19; F. E. Marbury, 16; Alexander McBurney, 4. Second ballot: R. W. Wheat, 12; F. E. Marbury, 11; J. V. Partridge, 9; A. McBurney, 2.

Third ballot: Wheat, 11; Marbury, 11; Partridge, 9; L. E. Payne, 8. Fourth ballot: Wheat, 13; Marbury, 12; Partridge, 10; Payne, 4. Fifth ballot: Wheat, 16; Marbury, 13; Partridge, 11. Sixth ballot: Wheat, 23; Marbury, 15; G. Brent, 5.

A motion to adjourn was made and carried, there having been no election, the State law requiring a majority of all the members of the company.

THE CANAL.—The Cumberland Alleganians says that while the loaded canal boat Elizabeth, Captain Daniel Snyder, of the New Central line, was on her way to Georgetown on Sunday, by some mischance she fouled with a light boat coming up. The team of the latter dragged the team of the former with the driver into the canal. The team of the Elizabeth consisted of a horse and a mule. There is a steep stone wall at the point where the accident occurred, and before the driver or horse could be rescued they were both drowned. Our informant could not give us the name of the driver. The mule was subsequently gotten out unharmed. The accident occurred near Wide Water.

The Wash & McKaig basin wharf at Cumberland has been transferred to the canal company at a cost of \$85,000. The wharf which the canal company has been putting in at the dam, and upon which workmen have been engaged for the past month, was completed on Saturday last. It is built so strong that no fears need be entertained of its washing away by the highest waters.

Mr. Hammond proposes to rip up the tow path from the lock to Brenke's store, where the back nearly gave way at the last frolic, and will begin the work in a short time.

SERIOUS ACCIDENT.—While the excursion barge Cockade City was making a landing at Marshall Hall, yesterday, Mr. Charles Redgrave, the brother of the captain, was tripped by a heaving line, and fell from the hurricane deck. In falling, he struck the wharf and badly bruised his face and head and then went overboard. He would have been drowned, but for the heroic exertions of Capt. Redgrave, who at once jumped overboard, seized him by the waist, and succeeded in supporting him until assistance was rendered. The injured man was brought to the city and his wounds attended to.

NOT KILLED.—A dispatch received at this office from the telegraph operator at Warrenton contradicts the report of the killing of W. L. Hunt, at Salem, on Saturday. The dispatch says that there were knock downs both at Salem and Warrenton, but that no one was seriously hurt at either place. Since the above was written, a gentleman now a resident of Fauquier, but formerly of this city, informs the reporter that Mr. Hunt was struck on the head and remained insensible for twenty-four hours, but finally regained consciousness.

MARRIAGE.—In Washington, last evening, Mr. Will A. West, of the Washington Critic, and Miss Minnie M. Parker, daughter of Mr. S. S. Parker, were married by Father Walter, at St. Patrick's Church. Mr. Alfred J. Clarke, of the Critic, and Miss Ella Tiller, bridesmaid. Mr. West is a son of Frank S. West, for many years connected with the Richmond Dispatch, and the new couple have the warmest wishes of the journalists of this section.

COUNTY COURT.—Judge James Slinger presiding.—CONTINUATION OF YESTERDAY'S PROCEEDINGS.—Septimus Brown vs. John Wilson, upon a claim of Joseph Wilson for property levied upon; judgment for plaintiff. Court then adjourned until court in course. It is understood that there will be no court held in August.

DIVORCE SUIT.—A suit for divorce was instituted in the Corporation Court to day by William Montague against Cornelia Montague on the ground of abandonment of the former by the latter for over five years. The parties are colored, and were married in the 3rd Baptist Church in this city in 1868, and lived together but a short time when the wife went to Washington city, where she now resides.

NEARLY DROWNED.—A small negro boy, whose name could not be ascertained, while bathing at the outlet lock of the Alexandria Canal yesterday evening, got beyond his depth and would have been drowned but for the efforts of Harry Wardfield, a youth who was bathing near by, and who succeeded in grasping him and hauling him out.

ORDERED AWAY.—The government steam yacht Hamilton, of which Capt. Thomas B. Travers, of this city, is the commander, has been ordered to New York, and left for that city this evening. The steamer Mary Washington will, in future, convey the supplies to Fort Foote.

RABBI CALLED.—The Hebrew congregation of this city has called Rev. B. Kahn of Troy, N. Y., to the charge of their synagogue and he will take charge on August 1. The synagogue is being renovated, repaired and put in beautiful order.

POLICE ITEMS.—The only case at the Mayor's office this morning was that of Gabrielle Williams, colored, charged with threatening to burn the house of Mrs. Edelen. She was discharged on giving a promise to leave the neighborhood.

CITY COUNCIL.—The City Council will hold its regular meeting to night. It is expected that after electing the remaining officers and transacting some business of minor importance both Boards will adjourn until October.

PERSONAL.—L. M. Blackford, esq., principal of the Episcopal High School, near this city, has arrived safely at Queenstown, on his European tour.

Twenty minutes is the average time for Lohle's Headache Specific to cure nervous and sick headache. Large bottles, only 50c. If you have rheumatism, Darang's Rheumatic Remedy will cure you.

For upwards of thirty years Mrs. Winslow's Soothing Syrup has been used for children. It corrects acidity of the stomach, relieves wind, colic, regulates the bowels, cures dysentery and diarrhea, whether arising from teething or other causes. An old and well tried remedy. 25 cents a bottle.

Local Receipts.

Marriage licenses have been granted in Washington to Elias Turner and Martha Warrick, both of Marlinton station, Va.; Charles W. Ricketts, of Rockville, Md., and Laura C. Titus, of this city.

The postoffice at Bout's Hill, Fauquier Co., Va., has been discontinued for want of a candidate; the papers go to New Brighton.

MY SUFFERINGS with inflammatory rheumatism were intense. I settled in my wrist; I could not use them; was helpless till I used Giles' Lining of Iodide Ammoniac. The result was wonderful; pain and swelling disappeared.

E. W. VOORHIS, 213 W. 35th St., N. Y.

WHAT A SATISFACTION it is to have elegant, light, wholesome rolls, biscuits, muffins, waffles, or corn bread for breakfast; no grumbling or sour faces then. DOOLEY'S YEAST POWDER makes all these things perfection itself.

COMMERCIAL. ALEXANDRIA MARKET, July 23.—The stock of Flour on hand is very light, and but little is coming in. Wheat is 1c better, and sales were made of 2000 bushels at from 60 for inferior to 60 a101 for good to choice. A lot of Corn remaining over from yesterday was offered, but no sale reported. One small lot of Rye was offered, but withdrawn, and 381 bushels of new Oats brought 25 and 30.

BALTIMORE CATTLE MARKET, July 22, 1878. Beef Cattle—Prices to-day ranged as follows: Best Beefsteaks.....4 87 & 5 49 Generally rated first quality.....4 50 & 4 75 Medium or good fair quality.....3 25 & 4 25 Ordinary thin Steers and Cows 2 50 & 3 00 Extra range of prices.....2 50 & 5 40 Most of the sales were from.....4 00 & 4 75 Total receipts for the week 2722 head. Total sales for the week 1732 head.

The market has been sluggish again this week, the supply considerably exceeding the demand, which has been very slow. The quality was not good as was that of the offerings last week, the good grades being very scarce, and prices for them showed no change, quality being taken into consideration. There was a decline on the medium and common grades of 4 to 5c.

Milk Cows—Receipts were quite full this week, and sales very slow, such sales as were made being at last week's rates, at 25 to 35c per head. Sheep and Lambs—With a much lighter run and a greater scarcity of good sheep, the market has been fairly active, both for Sheep for butchers' use, as well as for lambs, and for the latter also for the Eastern markets. We quote fat Sheep at 34c; per lb gross, few selling at the inside figure. Stock Sheep sold at 23c to 25c per lb; stock Ewes 2 25 to 2 75 per head, and stock Wethers 31 to 35c per lb. Lambs 40c to 45c per lb gross. Receipts this week 2318 head.

Hogs—The receipts are light again this week, and prices show an improvement of 2c since our last report, but the market has not been very active at the advance. The quality is scarcely equal to what was last week, and at the close the market hardly showed the firmness it did at the beginning. We quote at 60c, the very commonest selling at the former figure, most sales made at 63c to 65c per lb net. All the offerings, with the exception of about 200 head, were received since last Saturday morning. Receipts this week 2138 head.

BALTIMORE, July 23.—Virginia 60, old, — do deferred 4; Virginia, consolidated, 53; do 21 series 28; due coupons 78. Cotton firm and quiet; middling 11 1/4. Flour quiet, steady and nominal; Western quiet and steady; Western mixed spot and July 48; but higher for Aug and Sept, closing firm all round; Southern red 10 1/2 to 10 3/4; No 2 Western winter red spot and July 10 1/2; Aug 10 1/4; September 10 1/4. Corn—Southern scarce and nominal; Western quiet and steady; Western mixed spot and July 48; Aug 47 1/4; Sept 48 1/4; steamer 45. Oats quiet and firm; Southern 30 1/2 to 35; Western white 32; do mixed 30 1/2 to 35; Penna 30 1/2. Rye nominal. Hay unchanged. Sugar firm and unchanged. Coffee firm and unchanged. Whiskey quiet at 51.

NEW YORK, July 23.—Stocks irregular. Money 1 1/2. Gold 100. Flour quiet and steady. Wheat 1 1/2 better and quiet. Corn to better and moderately active.

PORT OF ALEXANDRIA, JULY 23. Sun rises..... 4 55 | Sun sets..... 7 16 ARRIVED.

50 CENT CORSETS! 50 CENT CORSETS! Best in the city at FERGUSON & BROS., 96 King street.

LADIES' CALICO WRAPPERS AND BASQUES at FERGUSON & BROS., 96 King street.

30 PACKAGES FRESH BUTTER for sale by ALLEN C. HARMON, 17-23. A FINE CIGAR, bought much below the regular price, sold for 6 cents at RAMSAY'S, 17-23.

Foreign News.

LONDON, July 23.—The Blue Book is published containing the detailed protocols of the Balmi Congress and the official report of its proceedings. They disclose nothing of interest to American readers which we have not given in our regular dispatches.

Careful review of the Blue Book establishes the utter falsity of pretended details published in certain New York journals and professing to have been received in cable dispatches to an opposition association or "specials."

Among the frauds thus exposed may be mentioned what purport to be Prince Bismarck's opening speech, Mehmet Ali's protest, and Count Schouvaloff's speech about seizing arms to the Chinese. All these were purely imaginary. So also were the reports pretending to give details of the scene at the death bed of Queen Mercedes, the massacre of Jews in Russia, the Bismarck dog story, and the escape of Vera Bassilitch. The speech in the House of Commons on the 8th inst., attributed to Mr. Cross, Home Secretary, was not made. That gentleman did briefly announce the conditional convention between England and the Porte concluded on the 4th of June, but he stated that it provided for the occupation of Cyprus and not that it stipulated for its cession to England.

LONDON, July 22.—In the House of Commons this afternoon Sir Stafford Northcote, Chancellor of the Exchequer, announced the betrothal of the Duke of Connaught (Queen Victoria's third son) with Princess Marie Louise, daughter of Prince Frederick Charles. The Chancellor said he would move on Thursday the provisions of a grant for the Duke. Sir Charles Dike (radical) gave notice that he would submit an amendment relating that there is no constitutional precedent for such a stipulation.

LONDON, July 22.—It is believed that the debate on Lord Hartington's resolution, which comes up in the House of Commons on Monday next, will last the entire week and that a division will take place Friday next. The Conservatives will support Hon. Randle Edward Plunkett's amendment, expressing confidence in the Ministers with the whole strength of their party. The freedom of the city of London will be conferred upon Lord Beaconsfield and Salisbury on the 31st of August, immediately before the ministerial banquet at the mansion house.

By examining the Parliamentary report in the London Times of the 9th of July, it will be noticed that no mention was made of the highly exciting scene in the House on the occasion of Mr. Cross's statement so graphically detailed in the cable reports manufactured in New York. Nor does the Times have a word about the pretended statement by Mr. Cross that "the treaty has nothing to do with the questions that have been or are to be discussed at Berlin. It may be communicated to the Congress as a matter of courtesy, but no representation concerning it, or any modification of its provision will be listened to. Neither does the Times report the Home Secretary as closing his remarks with the magnificently declamatory remark "will be found well calculated to preserve and forward the best and highest interests of England and Turkey." It is not time that these fraudulent and baseless cable reports should be exposed and checked?

ROME, July 22.—Telegrams from Genoa, Palermo, Brescia, Pavia, Reggio, D'Emilia, Turin, Pistoia and Ferrara describe meetings held in those cities yesterday in favor of "Italia Irredenta" as having been attended by a great and enthusiastic audience. Resolutions of the same character as those passed at Naples last Sunday and at the Patrienza theatre here yesterday were voted. The proceedings every where were conducted in perfect order. Demonstrations were also made in the Goldoni theatre at Ancona, at the Arena, Brannetti, in Bologna, and in the streets of Naples the cries being raised of "viva Trieste" and "viva Trento." Meetings are to be held at Milan, Como, San Remo and Venice next Sunday. Through the excellent precautions taken by the authorities and the firm yet conciliatory action of the police the demonstrations made last night before the Venetian palace, where the Austrian Ambassador to the Holy See resides, and before the Chiusi palace, the residence of the Austrian Ambassador to Italy, were confined to shouts of liberation for Trieste and the Trentino. Almost simultaneously with the first manifestation some companies of the line and of Bersaglieri took possession of the approaches to both palaces, and the police dispersed those who had gathered in front. A band of musicians in the piazza was obliged to play "Garibaldi's hymn" several times in answer to the demands of the crowd. The demonstration was finally ended by a band of young men parading the streets singing patriotic songs and shouting, "Abasso austria" and "Viva la Guerra."

The moderate liberals attribute the demonstration to ultramontane influences. The Liberator observes that the attempted demonstration did not have the results hoped for by its imprudent fanatic promoters in consequence of the calm and dignified attitude of the population. "The La Capitale regrets the demonstration, which, it fears, was organized either by some thoughtless individuals or by agents of those detestable of stirring up agitation in Italy. The Diritto (ministerial organ) maintains the necessity of preserving intact the right of public meetings, but states that the government is firmly resolved to prevent any demonstrations that disturb public order—a fact proved yesterday evening by the stringent measures taken by the Minister of the Interior to stop an attempted manifestation which was highly unbecoming both in form and substance. The Diritto adds: "Neither Signor Anardelli, Minister of the Interior, nor Signor Cairoli, President of the Council, are disposed to yield to intimidation or threats." Referring to the requirements of international usage in relation to the proceeding of the "Italia Irredenta" party the Diritto says: "The Government is fully alive to its duties and obligations towards a friendly power, and as determined to act up to them. A system of overt friendship and latent conspiracy may suit weak governments which have all to gain and nothing to lose by an adventurous policy, but between great States there can only exist either open friendship or open hostility. It would be an act of perfidy to cede upon the Government the responsibility for an agitation, which, in a great measure, is especially directed against itself." The article concludes by expressing deep regret at the present agitation.

LONDON, July 23.—An interruption in the telegraph wires between Paris and Vienna delays the receipt of news from Eastern Europe.

Family Murdered. MEMPHIS, July 23.—A special to the Appeal from Corinth, Miss., says that intelligence has just been received there of the murder and robbery of a family named Sample, consisting of 12 persons, in Tippah county, in that state, Sunday night. Suspicion rests strongly on two citizens of Alcorn Co., and one of Tippah county. No other names are given than that of the murdered family, and no further particulars have been received.

25 BBL'S REFINED SUGAR in store and for sale at bottom prices by B. W. AVERY, 226 King st.

SUGARS ARE LOWER AT MCBURNEY & SON'S, 106 and 170 King st.

FRESH TEAS—new crop 1878—low 1/2 prices. Geo. MCBURNEY & SON, 106 and 170 King street.

BEST CURST TRANQUILIZER OF THE NERVES. The surest tranquilizer of the nerves is a medicine which remedies their supersensitiveness by invigorating them. Over tension of the nerves weakens them. What they need is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter's Stomach Bitters restores tranquility of the nerves by soothing them when the vigor requisite to bear is a tonic, not a sedative. The latter is only useful when there is intense mental excitement and an immediate necessity exists for producing quietude of the brain. Hostetter
