THURSDAY EVENING, FEBRUARY 3.

A DIAMOND FOR TEN CENTS.—In 1841 Geoffrey Luther and his son were engaged in gold mining on Wilson's Branch, Georgia. Their appliance was of the rudest kind, consisting of "slane and rick boxes" and the traditional miner's pan. On one occasion Colonel John E. Rowles, then a lad about 16 was sent by his father to Mr. Luther's works to see him about some business matter. While there the elder Luther and another gentleman worked off some little distance and he happened to over-see the young man, who was "panning out" some earth and showing young Rowles the gold. In doing so he noticed an exceedingly beautiful pebble, and called Mr. Rowles's attention to it, and while they were admiring it the other gentleman returned, and they so noticed his beauty. The gentleman, without any idea of its value, remarked to the boy, "I'll give you a dime for it." "All right," said he, and accepted it gladly. Some time afterward the gentleman was to Gainesville and showed the stone to Dr. Daniel, that gentleman believed it to be a diamond, but was not certain, and finally paid the gentleman \$30 for it and took it to New York. He sent it to London, there being at the time no diamond cutters in the United States, where it was pronounced a diamond of the first water, and he received for it \$300. It was afterward rumored that it sold for a much larger sum than this but nothing is known positively of its history beyond its sale in London.

GOOD REASONS FOR THE DOCTORS' FAVOR.—Montreal, Ga., March 23, 1880. We have for twelve months been prescribing ("Swift's Syphilitic Specific") in the treatment of Syphilis and many other diseases for which it is recommended, and the results have been most satisfactory, not having been disappointed in a single instance. We think, for all diseases it is recommended to cure it stands without a peer, and that all the medical profession will sooner or later be forced to acknowledge it in the treatment of syphilis as a sine qua non. W. L. GALLWAY, M. D. J. F. RICHMOND, M. D.

ATLANTA, Ga., May 22, 1879. One of our workmen had a bad case of syphilis of five years' standing, and was cured entirely with "Swift's Syphilitic Specific." W. L. GALLWAY, M. D. J. F. RICHMOND, M. D.

ALEXANDRIA GAZETTE.

The ALEXANDRIA GAZETTE, begun in 1769, is the oldest newspaper in the State, and the only daily published in Northern Virginia. It has survived, with few exceptions, all the public presses in America which saw with it the dawn of the nineteenth century. It lives, too, not in decay, but full of life and vigor, giving all the news, telling the truth without fear, favor or affection, trenching on the privacy of no man's home, but full to the brim with all public information, and giving daily honest judgments of public men and public measures.

It furnishes the news telegrams of the New York Associated Press and of Reuter's European agency, being, with but three exceptions, the only paper between Baltimore and Richmond that is thus connected with the great fountains of the world's news.

With the coming year all the long tried and improved methods of making a standard newspaper will be continued, with such additional facilities as past experience justifies the proprietor in believing will add to the capacity of the Gazette to serve its readers. It expects to render faithful service to the city, the state and the country by a candid criticism of men and events in the interest of the people of the Commonwealth of Virginia.

To meet all the demands upon it, the Gazette will be made a WASHINGTON and RICHMOND NEWSPAPER, as well as an ALEXANDRIA JOURNAL. The Richmond and Washington news of past years has left little to improve, but yet greater effort will be made to insure absolute perfection in these departments.

The city of Alexandria will find as usual its daily history in each evening's issue, and the intelligence of that section of the Commonwealth which nature has bound to Alexandria by the curvature of its mountains or the courses of its rivers as well as that portion linked to us by the iron bands of railways, will be assiduously chronicled.

The Business and Commercial columns of the Gazette will be filled with the earliest and most exact commercial news, edited with such painstaking care as will render an error, where even slight errors are dangerous, impossible.

The Cattle Markets of all the leading points of the world whose rates affect this market will be quoted, and regular statements of the Baltimore, Georgetown, Washington and Alexandria sales of cattle will appear.

The Flour, Grain and Produce movements will be noted daily, and the sales of the Alexandria and neighboring markets given with accuracy and dispatch. The Grocery and other markets will receive constant attention, and the money or stock markets of the country epitomized for its columns, full details being given to all stocks, &c., which find investors in this section of the country.

The advertising columns of the Gazette offer inducements which experience has shown to afford greater returns for a small investment than any other which can be made.
