CONTRACT ANNULED.—A few days ago the Committee on Light of the City Council opened bids they had invited for taking down the chimney at the Gas Works, and awarded the contract for the work to Messrs. Stephen Swain & Son, who seemed to the committee to be the most satisfactory bidders.

THE DECLINE AND FALL OF THE PUMPS.—One by one the old pumps go and the wells are being gradually filled up. The one at the corner of Prince and Lee streets which was arched over some years ago caved in last week and was filled in by St. permanent of Police Dobie.

WAR ON CIGARETTE PICTURES.—It may be of interest to youths of this city who have their pockets stuffed with obscene pictures which they get with cigarettes to learn that the city authorities of Atlanta, Ga. are waging a vigorous war against the cigarette picture business.

COUNTY COURT.—Judge D. M. Chichester presiding.—All cases were continued until the September term.

PROPOSED MT. VERNON AVENUE.—There is a good deal of interest manifested on the part of far-sighted Washingtonians and Virginians in regard to the proposition to open up a road from the Aqueduct bridge to Mount Vernon, to be known as Mount Vernon avenue.

ons who have not given the matter any consideration. It will benefit every man who lives around the proposed road, and will bring trade to this city not hitherto thought of. Every merchant will therefore be benefited. Mr. F. R. Windsor, of this city, said to a Washington Republican reporter recently in a conversation concerning the movement: "If that road is opened up, and there is nothing to hinder it, sooner or later, it will be of the greatest importance to that section of Virginia, and of great benefit to Washington as well. If this avenue is made it will not be many years before we will have a street car line running right straight to Mt. Vernon, and small truck farms for miles will spring up like mushrooms. Every good citizen in Washington should bend his best energies to bring the matter to a head at the earliest possible day." Other gentlemen who have spoken on the subject were equally as enthusiastic as Mr. Windsor.

THE GEORGE LAW DISASTER.—The Secretary of the Treasury has received a report from the local board of steamboat inspectors at Norfolk in regard to the sinking of the steamer George Law in Appomattox river on the 21 instant. It appears that the steamer had been chartered by a colored society for an excursion and had about three hundred and fifty persons on board and that the excursion committee forced all the passengers off in order to count them. This had the effect of submerging the air ports afloat, causing the steamer to fill with water and sink. It was shown that the air ports were open when they should have been closed. Mr. W. W. Presson, master of the steamer, testified that Mr. Bauer, the owner of the steamer, was on board at the time and exercised a general supervision over the vessel and that he (the master) trusted to him to see that everything was all right. The board reported that it is the master's duty to see personally to the seaworthiness of his vessel before he leaves her wharf, which in this case the master failed to do, relying upon others to do what he should have done himself, but as no lives were lost by the accident and as there were mitigating circumstances, the board had merely suspended Mr. Presson's license for thirty days.

CONTRACT ANNULED.—A few days ago the Committee on Light of the City Council opened bids they had invited for taking down the chimney at the Gas Works, and awarded the contract for the work to Messrs. Stephen Swain & Son, who seemed to the committee to be the most satisfactory bidders. It afterwards transpired that Mr. Jefferson Hall, who, it is alleged, was the lowest bidder, had taken decided objections to the decision of the committee, and had threatened to sue the city in the event of other parties being entrusted with the work of demolishing the chimney. The committee had another meeting Saturday night and for reasons best known to themselves, rescinded the contract entered into with Messrs. Swain & Son and made another with Mr. Hall. The former gentlemen had prepared material and made all necessary preparations for the work, and, as might be supposed, are rather disgruntled at the action of the committee.

THE DECLINE AND FALL OF THE PUMPS.—One by one the old pumps go and the wells are being gradually filled up. The one at the corner of Prince and Lee streets which was arched over some years ago caved in last week and was filled in by St. permanent of Police Dobie. The water was never drinkable, was too hard for soap-suds, and the pump had been unserviceable for some time. This pump well is not as old as most of the wells on Fairfax street, because as the hill there was, until 1796, upon the bank of the river, it had abundance of water; but after the covers were filled in to make land and the river banked out for a square or more east of the hill-top a pump became necessary, and the well now filled up dates from early in the present century. Most of the Lee-street pumps from Fishtown to the Tunnel have now been abandoned and many of them removed.

WAR ON CIGARETTE PICTURES.—It may be of interest to youths of this city who have their pockets stuffed with obscene pictures which they get with cigarettes to learn that the city authorities of Atlanta, Ga. are waging a vigorous war against the cigarette picture business. The Council has just adopted an ordinance which provides that any person who shall exhibit or sell or offer for sale any obscene, vulgar, or licentious book, picture, or painting of whatsoever character, shall, upon conviction, be fined in the sum of not exceeding \$100, or imprisoned not exceeding thirty days, or required to work not exceeding thirty days on the streets of the said city, at the discretion of the Court. Under this section Atlanta is going to be one of the first places to put the practice of cigarette makers who put pictures offensive to good taste into their packages of cigarettes.

COUNTY COURT.—Judge D. M. Chichester presiding.—All cases were continued until the September term. Thomas C. White and Geo. W. Donaldson were appointed magistrates for the county, and Levi DeVaughn a special policeman, and qualified.

The grand jurors were selected for the ensuing year by the court. The will of Mrs. Colbert, deceased, was probated. After transacting other routine business court adjourned till court in course.

PERSONAL.—Mrs. Nourse and Miss Edith have gone to Maryland for a few weeks. Mr. and Mrs. Jos. G. Grimes have returned from a pleasant visit to Virginia Beach. Mr. Brinton H. Miner, formerly of this city but now of the New York bar association, is in the city on a visit to his uncle, Col. D. A. Windsor.

LOCAL BREVITIES.

The work of repairing Sarepta Hall has been finished. Councilman Gronan lost an infant daughter this morning.

The work of converting the second story of the Sun engine house into a room for holding the Mayor's court is progressing. A little daughter of Mr. John Heisley lay on the steps in front of her father's residence on Fairfax street, yesterday evening, and severely cut her head.

We have received an invitation to the fifteenth annual fair of the Piedmont Agricultural Society at Culpeper C. H. on the 7th and 8th proximo. A young gentleman who had been promised the loan of a horse yesterday was much chagrined to find that it was a wood horse that a free-hearted friend proffered him.

The prizes won by the Sun fire engine at the Troy, N. Y., tournament was that offered for the handsomest engine in the procession. The Sun was not entered in the water-throwing contest.

E. T. Blankenship, aged 34 years, and for some time employed on the Virginia Midland railway as a brakeman, died Saturday afternoon in North Danville, after an illness of about three weeks from typhoid malarial fever.

Mr. Zeller B. Hammerly, son of Mr. J. A. Hammerly, formerly of Leesburg, but now of this city, died yesterday at his father's residence on Queen street, from erysipelas. The deceased was a popular young man and had numerous friends and acquaintances here who will regret to learn of his death. He was eighteen years of age.

The prevailing southeasterly winds last night caused an unusually high tide this morning. Among the damage done to the wharves, etc., was the weakening of Stone's oyster house.

The churches open yesterday were well attended. Rev. Mr. Lloyd preached an excellent discourse last night in St. John's Chapel, West End. In order to repair the plug at the corner of Prince and St. Asaph streets the flow of water in that vicinity was stopped for a short time to-day.

The busiest place on the river border is Norton's wharf, there being absolutely nothing doing at the lower yards, and little elsewhere. The property of Dr. D. N. Rost, a short distance from the city, advertised to be sold on Saturday last, was withdrawn without a bid.

The fluctuations in the weather are beginning to show upon the business of the excursion steamers.
