Riotous Proceedings.
A fearful riot took place Sunday at Glen Lyon, five miles from Nanticoke, Pa., in which 300 miners were engaged. The combatants were composed of men of all nationalities, Irishmen, Welshmen, Hungarians and Poles being largely represented. Strangely enough, the mad occurrence was inspired by a Methodist preacher named Taggart.

It seems that it has been the custom of several Hungarian and Polish merchants of Nanticoke to send peddlers to Glen Lyon daily to supply certain boarding house keepers. These latter, in a great many instances, are hired by young unmarried men who club and live together. They order goods of the peddlers, who trust them. The Susquehanna Coal Company always selects Saturday for pay day. Heretofore it has been their practice to pay at Nanticoke. On Saturday, however, for the first time, they paid the men at Glen Lyon, or Morgantown, on Sunday, which day has been chosen by the merchants to make their collections. Rev. Mr. Taggart, of Glen Lyon, has frequently preached against this desecration of the Sabbath, and finally determined to put a stop to it if possible. Saturday he organized a posse of his church members for that purpose. The men got wind of it and made up their minds to resist any overtures of the kind. The collectors made their appearance and the natural excitement of the moment was augmented by a universal indulgence in beer and whiskey. As the day advanced the churchmen became alarmed at the situation and kept themselves in hiding. The feeling of antagonism was so intense, however, that it finally culminated in a free fight between men of opposite nationalities and maddened with drink. Soon 300 men were furiously engaged with sticks, stones and clubs for weapons. The riot lasted half an hour, and men were struck down on all sides. Dozens were carried away with cracked and bleeding heads to their homes. A few women mixed in the fray and several of them were badly beaten. The riot ceased only when the participants were too few to carry it on, the wounded requiring the attention of many, who did not return after they left the field. It is reported that over sixty of the rioters are seriously hurt, many of them fatally. An investigation will be made, with possible arrests. The town is in a fever of excitement.

AUGUST STORMS.—The Signal Service sea-coast telegraph line has been repaired and information has been obtained showing that the storm which prevailed along the North Carolina coast on Saturday last was one of the most destructive that has visited that section for years. At Kitty Hawk the force of the storm blew away the apparatus for measuring the velocity of the wind at the signal station, and the observer reports that the fury of the storm was almost indescribable. He estimated the velocity of the wind at his station as about one hundred and twenty-five miles an hour, and states that the damage to shipping in that vicinity must be unusually heavy. The telegraph line south of Kitty Hawk is entirely wrecked. The poles were torn out of the earth, broken into matchwood, carried out to sea or blown no one knows whither. Among the vessels known to have been damaged by the storm are the following: The American barkentine Walter S. Massey sprung leak off Chickamacomico, N. C., anchored in comparative shelter, and signaled to the signal station at that point for assistance. The Baker Salvage Company has been despatched to the relief of the vessel. The steamer Eagle, of the North Carolina Despatch Company, is reported ashore in Cove Sound, high and dry, and the tug Wm. F. Taylor, of Norfolk, and the steamer Annie, of the North Carolina Despatch Company, are reported ashore near Cherry Point, Neuse river, eighteen miles below Newberne.

SHOT DEAD AT HIS WIFE'S FEET.—Smithton, a small town in Doddridge county, W. Va., was the scene Sunday night of a murder. J. F. Minear and Samuel Males, who occupy, with their families, jointly the same house, had a quarrel over a dog. They separated in a wrangle, and a few hours later Minear was in the door yard talking to his wife with his children about him, when a ball from a revolver pierced his heart, and he fell dead at his wife's feet. The shot was fired by Males from an upstairs window. When the news spread the people became excited and threatened to lynch Males on the spot. Before their threats could be carried out he was hurried off and lodged in jail at West Union. About midnight an angry crowd surrounded the jail and demanded that Males be released. The guard resisted, and the lynchers left, returning several times, but doing nothing. Trouble is feared. The man who was murdered has always borne an excellent reputation. Males is also a married man.

All "Played Out."
"Don't know what ails me lately. Can't eat, can't sleep well. Can't work and don't enjoy doing anything. Ain't really sick, and I really ain't well. Feel all kind of played out, somehow." That is what scores of men say every day. If they would take Dr. Pierce's "Golden Medical Discovery" they would soon have no occasion to say it. It purifies the blood, tones up the system and fortifies it against disease. It is a great antibilious remedy as well.

NEW FEATURES

Randolph Macon College.

For the FIFTY-THIRD SESSION, which opens September 15, 1887, we have pleasure in announcing in addition to the advantages heretofore offered the following new facilities:

I. A general renovation of buildings and improvement of grounds, accomplished during the past session, making our arrangements for the comfort and health of student very superior. Among these we note especially an ARTESIAN WELL, furnishing an abundant supply of pure water, absolutely free from the possibility of contamination by surface drainage.

II. The enlargement of our Scientific Course by the addition of an Adjunct Professor of Physics and the purchase of a large amount of new apparatus, to be imported from Europe for that department.

III. An entirely new feature is our "Department of Physical Culture" upon the Sargent system, under the care of Professor J. B. Crenshaw, A. M. It is designed to do away with the reproach that college training too often destroys the health of the body in its efforts to develop the mind. It offers a regular course of systematic exercises under a competent instructor, and with apparatus constructed not to test the superiority of one student over another, but to develop each one individually to the best he is capable of. Robustness of health and vigor and grace of body are the objects sought. Striking results have been attained at Harvard University and elsewhere where this system has been tried, and we deem its establishment here an important advance. Those who are specially interested in this feature will please write for our special circular.

IV. The new brick building which is being erected for the Department of Physical Culture will also contain:

HOT AND COLD WATER BATHS, SHOWER BATHS, SPRINKLERS, &c., for the use of students.

Attention is called to the reduced expense shown in our last catalogue.

For catalogues or special information address RICHARD IRBY, Secy. and Treas., or W. W. SMITH, A.M., President. aug16 eot2w

GOLD MINING.

THE GOLD MINING COMPANY.

LOCATION—MUSIC MOUNTAINS, MOHAVE COUNTY, ARIZONA.

(INCORPORATED UNDER THE LAWS OF WEST VIRGINIA.)

CAPITAL STOCK, \$625,000.

NUMBER OF SHARES, 625,000, OF \$1 EACH. FULL PAID AND NON-ASSESSABLE.

The capital stock of this company is \$625,000, divided into 625,000 shares of \$1 each.

The company is incorporated under the laws of West Virginia, and the stock is non-assessable, and carries with it no personal liability to the holder.

The Gold Mining Company (location, Music Mountains, A. T.) is as sound a mining enterprise as was ever placed on the market, and its possibilities have never been exceeded. Every share should double in value within a year, and they may quadruple, as they are based on property that would ordinarily have been capitalized ten (10) times as great on account of its known richness and promise.

The shares are made small so that any one can invest. Subscriptions for five shares are as welcome as those for hundreds.

Every dollar of earnings will go to the stockholders in dividends, as there is nothing else that they can be used for.

A Wisewell mill, capacity 20 tons per day, with powerful machinery, has been purchased and will be on the ground ready for erection at the mine within the next thirty days.

The solid basis upon which the company is founded and the practical proofs of the richness of the mine have already secured the confidence of the public, and the stock has steadily advanced in selling value. Within the last few days bona fide sales have been made AT PAR.

There is no better stock on the market for a permanent investment. For full information in regard to this Mine apply to the
