

ALEXANDRIA. WEDNESDAY EVENING, OCTOBER 19.

AT A meeting of the London anarchists last Monday, one of the speakers declared he was "tired of billy-shallying measures and weak kneed resolutions. If the comrades really wanted to help brethren across the water they should do something striking and manly. He for one was for killing Minister Phelps. That would give the corn rades of Chicago heart. Perhaps then they would see that the only way to bring about a social revolution was to kill all who opposed it, and that the best way to begin was to knife them all, from the scoundrel President Cleveland to the church-going hypocrite Cyrus McCormick." The meeting adjourned with groans for the American Constitution. And yet fifty of the delegates to the general assembly of knights of labor voted for the adoption of a resolution condemning the righteous sentence that has been passed upon the anarchists who murdered so many of the policemen of Chicago while in the discharge of their sworn duty.

GEN. MAHONE has succeeded in driving nearly all his old and effective lieutenants away from him; but Mr. John Wise still remains firm in his allegiance, and has been promoted to the General's second in command. How the original Virginia republicans re-lit receiving orders from him and obeying them may be imagined readily when it is remembered that not so very long ago Mr. Wise wrote a letter in which he said: "A large portion of the white republican vote in Virginia hitherto has been made up of men who are not republicans in principle, but as a matter of trade and barter-men without character and influence-aptates for the price of their apostasy; men in the community that would starve without office, who became republicans for office, and whose tenure of office not only added no strength to their party, but brought it to disrepute and turned respectable men from it."

AND NOW Dennis Kearney, the famous sand lot orator of San Francisco, has turned up in New York city, to harass the republicans there still further, by not only preaching, but by proving, that while the entire republican congressional delegation from New York opposed the bill for the exclusion of Chinese from this country, and the consequent prevention of competition with Chinese cheap labor, the entire congressional democratic delegation from that State supported that bill. If the democrats don't carry New York next month with all the aid they now have, their chance of carrying it next year will be hardly worth mentioning.

THE LAW passed by the last Congress limiting the jurisdiction of U. S. courts to suits involving over two thousand dollars, instead of five hundred as previously provided, so as to hinder the operation of U. S. courts in Virginia coupon cases, is acting injuriously upon the trade of several Atlantic coast cities, which have been compelled thereby to refuse credit to the smaller merchants in the Western States, as suits against the latter can now be prosecuted only in county and State courts. In a general government no laws should be enacted for special effect.

THE WASHINGTON Republican says: "Again, we say elect men to the general assembly of Virginia who are not committed to repudiation, direct or indirect, and are in favor of an equitable adjustment of the debt." Good enough. But if this advice be taken, as it should be, no republican will be elected to the legislature, for every one who may be elected will vote to send General Mahone back to the U. S. Senate, and General Mahone is not only committed directly and indirectly to repudiation, but is the one man in Virginia who made repudiation possible.

WHERE ARE the successors of the old juriconsults who made the Virginia bar the most distinguished in the Union, that a mouthy lawyer from New York has to be sent for to plead the case of Virginia before the U. S. Supreme Court? The fact that one has been sent for implies either that Virginia has a poor case, or else that there has been a sad deterioration in the ability of the members of her bar.

THE PRESIDENT had larger and more magnificent receptions in the North, because the cities there are larger and richer than those in the South; but, judging from the published accounts, the most requiring cannot complain of the hospitable treatment he has received ever since he touched Southern soil.

WHIPPED AND SHOT.—Thirty-one of the leading white citizens of Edgefield, S. C., not long since were tried for lynching Mr. Culbreth, a wealthy farmer, whose domestic relations were not of the orthodox character. Following their example last Thursday night, a band of masked negroes went to the house of Robert Robertson, colored, living near Edgefield, dragged him from his bed, and, after covering his face with a sack, carried him to the woods and whipped him until life was almost extinct. After this one of the party fired at him, the ball taking effect in his neck. Robertson recognized Clark Burrell and Frank Highlands of the party, and besides these warrants will be issued for others. The cause that led to the whipping was the intimate relations of Robertson with the wife of one of the attacking party.

There was a republican meeting at Fairfax Court House on Monday, which was addressed by Edmund Waddell, J. M. Thorne, R. R. Farr and others. The democrats have them on the hip, however.

FROM WASHINGTON.

(Special Correspondence of the Alex. Gazette) WASHINGTON, D. C., Oct. 19, 1887.

The Virginia Democratic Association of this city have been investigating the antecedents of John Jarrett, who has been recently addressing the people in Virginia on the tariff. They say he is the same man who was sent to Mr. Morrison's district in Illinois, with money last fall to defeat that gentleman; that he was at one time a workman, but has grown rich as president of the Amalgamated Labor Association; that the monopolists of the East sent him to the West last fall to defeat tariff reformers as were obnoxious to them; that for his notorious activity in bribing voters, he was threatened with indictment at Bellevue, Ill., last fall, and that whilst professing to have no politics, he is well known in Pennsylvania as an active republican.

It is said to the extent it is now. From cousin Folsom and Secretary Bayard's son down through all the grades of the administration, the relatives, near or distant, of the men in high position, hold government offices. It was mentioned a short time ago that Senator Pugh had three sons besides other relatives in office, and to day it is stated that Attorney General Garland has two sons holding government offices.

Col. Robert Rogers is associate counsel with General Roger A. Pryor and Mr. J. R. Tucker in the case of the Chicago anarchists. Should the application for a writ of error to be made to Associate Justice Harlan, of the U. S. Supreme Court, to-morrow or next day, fail, as it is expected to do, Col. Rogers has been selected as the counsel to appeal to the Governor of Illinois for a pardon or commutation of sentence.

Mr. James Voorbees, son of Senator Voorbees, who made his first appearance on the dramatic stage last year, is afflicted with mental aberration. His friends were searching for him here yesterday with the intention of confining him in the asylum at St. Elizabeth. For a year or two past his eccentricities have made his friends anxious about him, but it was not until recently that his inability to take proper care of himself became apparent. He is liked by all who know him, and the hope is general that he may soon be restored.

Three experimental lines are now being run for the Mt. Vernon Avenue, the proposed new road from this city to Mt. Vernon. Mr. Newby is running one, Mr. Cox another, and Mr. Gillingham the remaining one. It is understood that none of the land owners on either will ask damages, and that the surveys will be completed, the route selected, the estimates made, and the bill for the necessary appropriation be ready for presentation to Congress during the first week of the session of that body. Mr. Fox of the Republican of this city, who owns a farm in Alexandria county, and who is therefore privately as well as publicly interested in the construction of the new road, went to Alexandria to-day to consult with those members of the committee having the matter in charge who reside in that city.

Quite a party of Richmond visitors were in the city yesterday. They said that the managers of the so-called reformers there had been over to Petersburg and received their instructions and "sugar" from the "old man," and would make a vigorous effort to carry that city next month, but that the democrats there are confident of success.

Rusten Effendi, who has been Secretary of the Turkish Legation in Washington since 1874, died at his residence in this city last night.

It is said at the Treasury that the lowest bid for the enlargement of the U. S. building at Harpersburg, Virginia, is that of J. D. Tinsley, of Staunton.

A dispatch from New York received here to-day says Mr. Patrick Ford, of the Irish World, has abandoned the labor party, for the reason that its campaign has been turned into a war against the Catholic Church.

To show how the administration's so-called civil service reform policy permeates all branches of the government, it may be mentioned that a gentleman of this city who went to see public printer Benedict the other day to recommend a fact that the applicant was a good democrat, was informed by Mr. Benedict that had nothing to do with the case, and that republicans and democrats were all alike to him.

At the meeting of the national democratic association of this city Monday night several federal officials were present as members of the Executive Committee, including the Secretary of the Department, Sergeant Terry, of the Interior Department, and others, and this, too, though Mr. Oberley, chief of the civil service commission, says that a federal official who is a member of such an association is liable to punishment under the civil service law.

VIRGINIA MEDICAL SOCIETY.—The eighteenth annual session of the Medical Society of Virginia began in the hall of the House of Delegates, in Richmond, last night. About one hundred and twenty-five members and many ladies and visitors were present. The body was called to order by the president, Dr. Bedford Brown, of Alexandria. Dr. Landon B. Edwards, of Richmond, acted as secretary. Dr. Thomas J. Moore, of Richmond, delivered the address of welcome to the body. Dr. William S. Christian, of Middlesex county, delivered the annual address to the public and profession. The names of sixty-three doctors were proposed for fellowship in the society, and on motion were unanimously elected.

The Virginia State Board of Medical Examiners met yesterday morning in the Senate chamber. Most of the day's session was occupied in discussing the resolution which was finally adopted, providing for the appointment of a committee to petition the Legislature to repeal the feature of the law permitting applicants to appear before three individual examiners during the intervals of the meetings of the board.

THE KATKOFF-BOULANGER PLOT.—The Paris correspondent of the London Daily Chronicle learns that the late M. Katkoff and Gen. Boulanger were in close communication. The former is even said to have promised to aid Gen. Boulanger to launch himself as dictator. Katkoff advised Boulanger to pay scant attention to the Russian and German embassies, but to push on in the direction of war. Gen. Schwinitz, the German ambassador at St. Petersburg, managed to intercept one of Katkoff's letters and conveyed it to Emperor William. The Emperor complained to the Czar, who became greatly incensed when he heard of the affair, and declared that he would never admit Katkoff to his presence again. The disgrace hastened Katkoff's death.

A GAS BILL for \$780.—Archbishop Henrick was yesterday presented with the largest gas bill ever made out to an individual in the history of St. Louis. In 1876 the meter at the Archbishop's residence was, by some means, dropped from the records of the gas company, and from that day until the present time no bill had been presented. Recently the Archbishop had occasion to complain of the poor quality of gas furnished him and looking up the matter it was found that he had been entered on the books eleven years ago as having no meter. His Grace's bill was promptly made out for \$780 and he as promptly sent his check for the amount.

Warren S. Kerfoot died at Berryville, Clarke county, on Monday.

William MacWilliams, a noted stump speaker and prominent politician of Florida was killed last night in Jacksonville by George Bangs, a clerk of the city. There was trouble between the two men. Bangs, it is said, held a duel bill of MacWilliams for money due on billiards about which they had had some words.

Judge William Archer Cocke, author of several works on State and federal law, died at Sanford, Fla., yesterday aged 70. He was attorney general of the State at the time of the count of the electoral vote in 1876, and was the only democratic member of the canvassing board. He refused to agree to the action of the majority of the board.

Miss Annie Lachs, who threw a pancake into Mrs. Cleveland's lap the day the presidential party were at the fair grounds in St. Louis, was fined \$50 in the police court yesterday. She disclaimed any disrespect for Mrs. Cleveland, and said she threw the cake in a spirit of fun, but the testimony was against her, and the court thought the fine worth \$50. An appeal was taken.

VIRGINIA NEWS.

The democrats of Petersburg have determined to make nominations for the Legislature.

Arrangements are being made to give to all the visiting military to Richmond on the 27th refreshments at the monument grounds when the procession halts after the parade.

Detective Riley, of Norfolk, who was shot by Detective James, died yesterday. James has been committed for trial. He says the shooting was done in self defense, as he thought that his life was in danger.

Robert Dawson, a white married man, aged forty, was arrested at Luray yesterday, charged with an attempt to commit a felonious assault on an eight-year-old girl. He had a hearing and was sent to jail to answer an indictment at the next term of the County Court.

Gen. Wade Hampton and his daughter, Miss Daisy Hampton, will be the guests of Governor and Mrs. Lee during the Lee monument celebration. On the night of the 26th the Governor will give a public reception at the Governor's mansion in honor of the distinguished visitors who will be in Richmond then.

Thos. Skinker, a native of Fauquier county, died recently at St. Louis, Mo., aged 82. Fifty years ago he moved to a farm 6 miles from St. Louis, which he purchased at a moderate cost. In a few years the extended city limits embraced his farm and made him a millionaire. He was a brother of Jas. K. Skinker, of Fauquier, and first cousin of Judge James Keith.

AN INTERESTING STORY.—Some time ago as the story goes, Mrs. Clara E. Tyler, of Philadelphia, wrote to Gov. Lee that she desired to make a contribution to the monument to be erected in Richmond to the memory of Gen. Lee. Yesterday the Governor received a letter from her sister stating that on the occasion of the Governor's visit to Philadelphia during the recent celebration Mrs. Tyler left her home, taking with her considerable money. In attempting to cross a street to reach Gov. Lee, who was passing in the parade, the lady was knocked down by a passing vehicle. She was removed to the hospital, where she soon afterwards died. In her dying moments the lady softly murmured, "I must pass to see Gov. Lee." This she several times repeated. The dead lady's friends could not understand what she meant by her strange request, but the mystery has been fully explained to them by Gov. Lee. He wrote Mrs. Tyler's sister stating that he had been in correspondence with the deceased in regard to the contribution to the monument, and this will explain to her perhaps what prompted the dying words of her noble sister, who lost her life while attempting to see Gov. Lee to hand him money to assist in erecting the monument. It was known that she had a large roll of money when she left home, because her sister asked, "Why are you taking so much money with you?" Her reply was, "It is to pay a debt of honor." She never lived to pay "the debt."

For three weeks I was suffering from a severe cold in my head, accompanied by a pain in the temples. I tried some of the many catarrh remedies without any relief. My Catarrh Remedy was recommended to me. After only six applications of the Balm every trace of my cold was removed.—HARRY C. CLARK, 1st Division New York Appraiser's Office. I was troubled with catarrh in my head to such an extent for three years. After using one bottle of Ely's Cream Balm I was entirely cured.—Wm. J. CLINE, Victor, N. Y.

COMMUNICATED.

The A. L. J. and General Lee's Monument.

It is sincerely hoped by the people of Alexandria that their Light Infantry will be present at the ceremony of the laying of the corner stone of the monument to General R. E. Lee, at Richmond, on the 27th and 28th instants. Indeed, we think that the company cannot honorably absent itself on that occasion, which is one to stir to its depths the heart of every Virginian. The company has been signally honored in the past by being assigned to represent the militia of the State whenever occasion has required such representation, notably at General Grant's funeral in New York, and at the Constitutional Centennial at Philadelphia. In the opinion of military men qualified to judge, our company ranks second to none in the Commonwealth. We learn that an effort was made to secure a sufficient number of the members to agree to go, but that it was unsuccessful for the reason that as the company has already spent eleven days on trips this year, many of the men cannot spare the time or the money for another trip, and hesitate to ask their employers for the necessary leave of absence, and also that the company is about to go heavily in debt to make repairs to its armory and does not see its way clear to expending the amount needed for this trip. These things may be true, but we are nevertheless satisfied that there is no employer in this city who will refuse to his clerk or other employee the opportunity to march in the ranks of the Alexandria Light Infantry on this occasion, and that the people of Alexandria will in the future, as they have in the past, help the boys to repair and extend their armory when they want it done. This is, most probably, the last trip the Alexandria Light Infantry will take before next summer, and certainly they ought to be allowed to do honor to one of Virginia's greatest sons. I am glad to hear that to-night another effort will be made to get a sufficient number of men. Our soldier boys must go to Richmond.

County Items. The County Court will meet Monday, when a special grand jury will be summoned, and it is expected Court will be in session all the week.

The Treasurer of the county will sell all lands delinquent for State taxes and county levies at the next term of the County Court, beginning on Monday next, and take a final report of such sale to the Auditor of Public Accounts at Richmond.

It is understood that there is considerable dissatisfaction among the republican leaders in the county as to who shall manage the present canvass and how the same shall be conducted. There are many old and reliable republicans who are outspoken in their opposition to General Mahone, who say that a vote for Messrs. Baldwin and Corbett, the republican nominees for the State Senate and House of Delegates means simply, if they are elected, two votes for General Mahone for the U. S. Senate, and they say emphatically they have had enough of Mahone in their lives. The nomination of Mr. Corbett, some months ago, by the republicans and his work since left the impression in the county among some who would receive quite a large vote, but since Judge Stuart's nomination the subject has been more carefully considered, and it is being conceded by men of all parties that it would be much more beneficial to the county's interest to re-elect Judge Stuart. It is safe to say that Judge Stuart will carry the county by a considerable majority at the coming election.
