

ALEXANDRIA. FRIDAY EVENING, NOVEMBER 4.

THE WISDOM of the GAZETTE's oft repeated advice to the Cleveland administration, to delay not one hour beyond the earliest practicable moment in appointing well approved democrats to take the places of the republican sycophants who by hook or crook are still clinging to the federal seat in Washington, has just received a forcible illustration in the conduct of certain leading printing office employees, who audaciously contrived to pervert the late great labor demonstration at the national capital into a boycott of the democratic candidate for Governor of Maryland. Perhaps in all the annals of political insolence nothing like the behavior of these foremen of a great bureau of a government controlled by a democratic administration, was ever before experienced. It is proper, however, after all, that honest democrats should thank these republican bravos for their manifestation of ingratitude and treason to the powers that are feeding them from the national democratic crib. The fable of the frezzy viper, which, when warmed into life on the bosom of its foolish benefactor, began to use most industriously its venomous fangs, might be studied with much profit by this most amiable, much deceived, self-styled democratic administration. An improvement, however, is not improbable; neither may it be very remote. We shall see.

AT YOUNGSTON, Ohio, last night, Senator Sherman, General Mahone's candidate for the Presidency, said: "Three months ago there was no disposition on the part of republicans to revive the war issues and stir up animosity between the North and the South." What a whopper! Why Senator Sherman himself, after his return from Cuba, went to Illinois and waved the bloody shirt furiously. But Mr. Sherman's reputation for veracity has never ranked high since he perjured himself by swearing that he did not remember whether he had written the famous Weber letter, by means of which the vote of Louisiana was stolen for Hayes, and he made Secretary of the Treasury.

IF THE Governor of Illinois be like most men who possess the requisite qualifications for gubernatorial chairs, and if he reported attempt upon the life of the Chief Justice of the country because he announced the opinion of the U. S. Supreme Court in the case of the Chicago anarchists, be true, the last remaining thread upon which the lives of those miserable men suspended—his pardon, has been broken. Were he to pardon them under such a condition, his action, whether inspired by good or evil motives, would all ways, and not unreasonably, be attributed to the latter.

IF IT were not for the great injury that would necessarily result to the State and all her interests from the resumption of the Mahone regime, some curious people would be disposed to facilitate that resumption, just to see how soon thereafter the General's newly professed love for labor would be forgotten, and how difficult it would be for a laboring man to obtain an audience with him. Why, he was exclusive when in the Senate that he instructed the doorkeepers of that body not to bring him the cards of any such people.

THE REPUBLICANS assert that the protective tariff protects labor. But the fact that when a laboring man goes to a ready made clothing store he has to pay a duty of 92 per cent. on the suit of clothes he buys, while the rich man who goes to a fashionable tailor for his suit, only pays a duty of 57 per cent., knocks that assertion into a cocked hat. But this demonstration of the fallacy of protective assertions is no more glaring than is exhibited in hundreds of other instances.

ONE of the republican candidates for the legislature in Fauquier county, says he is opposed to appropriations for free schools until the State's debt shall have been paid. There is no doubt of the fact that in after years it will be thought very strange that Virginia should have appropriated nearly a million dollars a year to teach her children how to read and write, while at the same time, by her laws, she was trying to teach them how to defraud her creditors.

THE MAHONNETTES say the democrats are opposed to the public schools. Well, they may be; but the fact that they have appropriated to such schools this year \$212,880.90, \$19,000 more than was ever before appropriated for a similar purpose, even during the Mahone regime, surely doesn't warrant any such statement.

ALL THE New York newspapers, except the Star, which support President Cleveland, oppose the election of Col. Fellows, the regular democratic nominee for district attorney of that city.

The Overland Monthly for November has been received from its publishers in San Francisco. Its contents are: The Crocker Art Gallery, Pretext and Thieves, A False, An Unknown Quantity, "Look In Thy Heart," A Difficult Question, Chronicles of Camp Wright, Old Fancies, An Old Cavalier's Pioneer Story, China and China, The Rocky Mountains, Ludian War Papers, David Todd, Recent Poetry, Etc., and Book Reviews.

The Sanitary Engineer and Construction Record, for October, printed in New York, contains a sketch of Chatham, the old Fitzhugh mansion, near Fredericksburg.

FROM WASHINGTON.

(Special Correspondence of the Alex. Gazette.) WASHINGTON, D. C., Nov. 4, 1887. Mr. J. R. Tucker returned to-day from New York, where he and Col. Gordon of Richmond and Attorney General Ayers of Virginia, had a consultation yesterday with Mr. Conkling upon the case of the Virginia State officers to be argued before the U. S. Supreme Court Monday week. All the points in the case were considered, and such as will be used, settled upon. As heretofore stated, the court having limited the number of counsel to be heard on each side to two, the argument for the State of Virginia will be made by Messrs. Tucker and Conkling. Mr. Tucker being informed that Gov. Chamberlain, counsel for the bondholders, is looking for a stenographic report of his speech in the anarchist case, to use against him in the Virginia case, said it made no difference to him whether the Governor found it or not, as he had said nothing in it that would controvert what he intends saying in the latter case.

Republicans from Virginia here to-day say they don't know whether General Mahone has put out any money or not in his present campaign, but that if he has, none of it has come out of the pockets of the men in their respective neighborhoods into which it has been put. They say that \$3,500 was sent to Mr. John Wise by the Diston saw company and other protection friends in Philadelphia, all of which has been used in Richmond, but with that exception they don't know that any other money has been spent, though they have heard that General Mahone has received many and some quite large contributions to his election fund.

The latest cabinet report is that Mr. Dickinson, of Michigan, and not Mr. Stephenson, will be Postmaster General when Mr. Vilas shall be transferred to the Interior Department.

A stock company is being organized here for developing green sand marl, large deposits of which are to be found all along the Virginia side of the Potomac river, and which is said to be one of the most valuable fertilizers ever discovered.

The War Department is in receipt of a telegram from Gen. Terry stating that he has been advised by Gen. Ruger that in accordance with an agreement with Inspector Armstrong, he had ordered all the Crows to assemble at the agency to-day.

It is understood here that the election of Senator Gorman to the directory of the B. & O. R. R. indicates that the West Virginia Railroad, in which he is also interested, expects to obtain possession of the bed of the C. & O. Canal and use it for a railroad track to tide-water.

Mr. W. W. Dungan, receiver of the Alexandria Canal Company says the free bridge across the Potomac on the piers of the canal aqueduct will be open for foot and carriage travel by the holidays, but will not be completed before next Spring.

The President and all the Cabinet officers seem to be confident that New York State will go democratic next Tuesday. The Washington correspondent of a New York banker was to-day offering to bet \$500 that New York would go democratic, but could find no taker.

The package which last evening was delivered to Chief Justice Waite and which upon investigation was found to contain contraband supposed to be an infernal machine, was this morning sent to District Clerk Richardson for expert analysis. At noon Mr. Richardson had not arrived at his office and it is not yet ascertained that the package contains dangerous substances. The person through whom the police indirectly learned that the mysterious looking package had been sent to the Chief Justice was again questioned this morning by the Police Inspector, but nothing new was elicited. It is the general opinion that the machine is a sham and that the whole thing was an attempt on the part of the person who made the alleged discovery to manufacture a "sensation" for sale to newspapers.

It is learned that this person told the story to several correspondents individually and represented to each of them that the buyers would have it exclusively. The person above referred to has just made a confession that he invented the whole scheme and for the purpose of selling the story to newspapers. His name is Sherman G. Hopkins, of New Hampshire. A similar package was received to-day by the Secretary of War, Hopkins, in his confession, implicates Arthur B. Sperry, a reporter on a newspaper here, and says the paper found in the package contained only ink and a very small quantity of powder. Both Hopkins and Sperry were immediately arrested.

The streets of the new town of Roslyn, near the end of the Aqueduct bridge, will soon be graded.

This was the last day of the races. A large crowd, including quite a number of Alexandrians, was in attendance.

REPORTED ATTEMPT ON THE LIFE OF CHIEF JUSTICE WAITE.—The Washington papers of this morning report an attempt upon the life of Chief Justice Waite, of the U. S. Supreme Court. A box containing what is supposed to have been an infernal machine was sent to the house of the Chief Justice last night with the intent to injure or kill him. The Chief Justice, with the members of his family, was seated at dinner when a messenger from the city postoffice called and handed in a box addressed to the Chief Justice marked "Important papers," and the Justice opened it and found that it contained a glass tube, filled with what appeared to be giant powder, vitriol and dynamite, in three separate compartments. At one end was a cap, covered by some black preparation, and to this was attached a wire. One end of the wire had been fastened to the cover of the box, but in stamping the box the postoffice clerk had broken it, and the fastening that held the wire had become detached. This fortunate circumstance was probably all that saved the Justice's life. A reporter called on the Chief Justice, who said that he had received a little box. It came through the mail. It was a little paper box, perfectly harmless, and evidently sent for the purpose of making a sensation. He said: "I opened it myself, and found that there was nothing in it at all. It was a perfect sham. I don't think I would have regarded it as a matter for the police if the policeman had not called to inquire about it. It was mailed in Washington. I regard it as a joke, played by somebody for the purpose of making a sensation."

PREBYTERIAN SYNOD OF VIRGINIA.—In the Virginia Presbyterian Synod at Norfolk yesterday, the committees on bills and overtures reported in an answer to the overture from West Hanover, viz: "That it was inexpedient to appoint a committee to rearrange the bounds of the Presbyteries in the Synod." The secretary of foreign missions, Dr. Houston, gave a most interesting address. He spoke of the work in Japan, China, Brazil and Mexico. The order of the day, the consideration of the report on the evangelization of the colored people, was taken up and the recommendations of the committee adopted.

The Worcester Spy says that the body of a full grown red squirrel was found in a four-and-a-half pound pickled turkey taken at Oxford.

NEWS OF THE DAY.

Gov. Lee left Richmond to-day to attend the Weldon, N. C., fair.

It is said that the New York bucket-shops are preparing to organize a clearing house association.

In Buffalo, N. Y., yesterday, C. J. Hamlin drove his two famous mares, Bell Hamlin and Justini, a mile in 2:18.

Fourteen persons were made dangerously ill in Pittsburg by bad milk, and three of them came near dying, but they are all recovering.

Mr. Jefferson Davis and family left Macon, Ga., yesterday for Beauvoir on a special car elaborately decorated with flowers, bunting and flags.

John C. Eno, the fugitive New York bank robber, has purchased the residence at Lake Beauport, Quebec, which he occupied last summer, for \$10,000.

An engine attached to a freight train struck a street car in Allegheny City yesterday evening, and two passengers, who jumped from the car, were caught under the wheels of the engine and ground to death.

The remains of Surgeon Arthur, of the Navy, who was killed by a fall from a train at Lynchburg, on Wednesday, were carried to Washington yesterday and were taken in charge by Surgeons Ruth and Griffin, of the Navy.

A certificate was filed in the county clerk's office at New York yesterday, setting forth that the Western Union Telegraph Company, through its directors, has increased its capital \$5,000,000. This makes the total stock \$86,200,000.

The negotiations for the sale of the New York Graphic have been concluded, and a syndicate of wealthy capitalists in New York and Philadelphia have finally secured control of the paper. The arrangement will keep the Graphic an independent democratic journal.

Several masked men stopped the east-bound Salt Lake express on the Denver and Rio Grande road a few miles east of Grand Junction, Cal., about one o'clock yesterday morning, and relieved the passengers of their money and valuables. They failed to open the safe in the express car, but mail pouches were cut and registered packages and letters opened. The train was allowed to proceed, after being delayed over an hour, and the robbers took to the mountains.

At Newport, R. I., yesterday, during the torpedo experiments, while a star torpedo was being run out from a boat in which were seven or eight officers and men, it suddenly exploded before it had been immersed in the water. The shock was tremendous, starting the city and shaking the buildings along the harbor front. The boat was badly stove, and the men had to use much exertion to reach the wharf before she sank. Two of the men were very badly injured.

On September 27, a mutiny broke out in the barracks of the Zepita battalion, at Trujillo, Peru, and two companies escaped to the mountains, after mortally wounding the captain of the guard and killing the sentry. The mutiny was caused by the payment of the soldiers in paper instead of silver. The authorities followed the mutineers out about three leagues into the country where a fight took place, in which several were killed. The sergeant who led the mutiny was captured and shot.

A large meeting of democratic knights of labor who participated in the labor demonstration of the previous night in Washington was held last night. The attendance was mainly composed of printers, who desired to protest against the tiddy manner in which they had been led into seemingly sanctioning by their presence a denunciation of Hon. E. E. Jackson, candidate of the democratic party for Governor of Maryland. Mr. E. C. Crump, of Virginia, presided over the meeting. Resolutions eulogistic of Mr. Jackson were adopted.

HIS COFFIN PREPARED.—About thirty miles south of Hartford, Conn., in Middlesex county, at the little village of Moodus, D. C. Wheeler, the village watch tinker, has had his coffin made and got in readiness for his body. He is a pleasant-spoken man, about 50 years old, and has lived in Moodus for years. He is very eccentric and quite ingenious. His reputation for skill in repairing grandfather's clocks has spread through the country, and he has in his shop many quaint and novel timepieces. About the coffin he talks very freely and says: "I want no new fangled silver-trimmed coffins; them 'air things don't suit me, so I jest went out into the woods and selected a tall, straight chestnut tree, and had it cut down, carted to the mill, and sawed into planks, then I selected the smoothest and finest grained of the planks, and had them well seasoned, and took them to Undertaker Bixelow's rooms, and told him to build for me a sensible coffin, with no cheap, plated trimmings, but solid goods. Mr. Bixelow took my measure, and made the coffin. It is ready for use. I have laid down in it and it fits me nicely, except that it is a trifle narrow across the shoulders, but that I shall not mind. You know chestnut stands being placed in the ground longer than any other wood, and that's why I selected it." The casket is finished in oil, with solid silver trimmings and is truly beautiful.

DAN CUNNINGHAM CAPTURED.—Previous to the recent lynching of the Duff brothers and Koon, in Roane county, W. Va., for the murder of Rev. Ryan, it is claimed that one of the men confessed that Daniel Cunningham was the leader of the gang. While he has always protested his innocence, he has evaded arrest, though he claimed to be willing to surrender if he was protected. A reward of \$400 was offered for him, and on Wednesday night he was caught. His pursuers came upon him a few miles below Parkersburg, W. Va. While Cunningham was on the train he jumped off and waded the Ohio to Racine, where he sought refuge in a hotel. His pursuers came upon him about an hour after, and surrounding the hotel, captured him. He begged them to spare his life. A requisition from the Governor of Ohio is to be asked and Cunningham brought over. In the meantime he is under strong guard.

PROSECUTION DROPPED.—Quite an excitement was caused in Woodstock yesterday over the threatened arrest of nineteen boys and young men of that place who celebrated Halloween by removing signs and carrying all portable property to odd places in town. The boys hired counsel, refused arrest without a warrant, lodged complaints with the town council against the mayor and plaintiffs for obstructing the streets with various property which had been removed, and demanded a separate trial. The plaintiffs, figuring up the probable costs, dropped the prosecution.

The breath of a chronic catarrh patient is often so offensive that he cannot go into society, and he becomes an object of disgust. After a time ulceration sets in, the spongy bones are attacked and frequently entirely destroyed. A constant source of discomfort is the dripping of the purulent secretions into the throat, sometimes producing inveterate bronchitis, which in its turn has been the exciting cause of pulmonary disease. The brilliant results which have attended its use for years past properly designated Ely's Cream Balm as by far the best, if not the only real cure for hay fever, rose cold and catarrh.

POSTSCRIPT.

TO-DAY'S TELEGRAPHIC NEWS.

The Arrest of Billy Williams. BALTIMORE, Md., November 4.—At an early hour this morning the police arrested a man supposed to be Billy Williams, who murdered a policeman in Alexandria some months ago. He was found under a bed over a concert hall on East Baltimore street, and when arrested gave the name of Frank Clark, but subsequently confessed that his name was Williams. On his person were found a revolver and a large dirk knife. He will have a hearing as soon as parties from Alexandria come to identify him. Williams is said to be a desperate character.

Attempt to Wreck a Train. CENTRALIA, Ill., Nov. 4.—A villainous attempt was made yesterday morning to wreck the Jacksonville southeastern railway construction train conveying men and material to a point five miles below Walnut Hill where the track is being laid on the extension to Driver's station. Ties were placed under and over the rails on a sharp curve. It was just coming daylight when the train reached the point, but the brakeman discovered the obstruction and the train was stopped within a few yards of it. Over 100 men were on the train, and Contractor Collins says that if they had been running 15 miles an hour, instead of 5, a wreck would have taken place in which many of his men would have been killed.

Injured by a Falling Wall. NASHVILLE, Tenn., Nov. 4.—About 4 o'clock this morning the building occupied on College street by Weikle & Warren as a furniture store, was discovered on fire, and owing to the inflammable character of the material the flames spread rapidly through the building and communicated to the adjoining buildings. The entire block from Bank alley south to the Western Union building was considerably damaged. During the progress of the fire the walls of the building adjoining Bank alley fell in and quite a number of people are known to be injured.

A Policeman Murdered. CHICAGO, Nov. 4.—Early this morning near Albany avenue, a lonely part of the West Side, police officer Keegan was found lying dead on his back with a wound on his forehead evidently made by some blunt instrument. The officer had been murdered while on his beat. When found this morning he still clasped his revolver in his hand but it had not been discharged. There is no clue as yet to the murderer.

The St. Louis Explosion. ST. LOUIS, Nov. 4.—Officers Stone and Palmer, detailed to watch the ruins of the Fourteenth street explosion, while walking over the debris last night at 10:30 o'clock, unearthed an iron semisphere, which on examination proved to be the remains of a dynamite bomb, which, however, it is thought was placed where found subsequent to the explosion.

A Drunken Captain. CHICAGO, Nov. 4.—Edgar A. Hall, brother of the second engineer of the wrecked steamer Vernon, stated yesterday that the last time his brother was in Chicago he told him that Captain Thorp, master of the Vernon, had an attack of delirium tremens while on top of the pilot house. Others say the captain was drunk when the vessel was lost.

Denial. CHATTANOOGA, Tenn., Nov. 4.—Governor Gordon, of Georgia, passed through this city last night and furnished a card for the Associated Press, in which he says that the telegram from Cleveland, Ohio, published in the Atlanta Constitution, in reference to Gen. Morgan and himself is a malicious falsehood.

Breaking Up a Meeting. LONDON, Nov. 4.—The police this morning dispersed a meeting of unemployed workingmen which had gathered in Trafalgar Square and was listening to an address by a man named Webb, who was arrested. The mob made no resistance.

Importation of Silver. EL PASO, Tex., Nov. 4.—The importation of silver ore from Mexico at this point during October was 5,276 tons valued at \$265,808. This gives an average of 176 tons per day and an average value of fifty dollars per ton.

Village Burned. CINCINNATI, Nov. 4.—A special from Castalia, a village near Sandusky, Ohio, says the business part of the town was burned yesterday by what is thought to be an incendiary fire. Total loss \$45,000; insurance about one half the loss.

Dead. MADISON, Wis., Nov. 4.—Hon. Philip Spooner, Sr., father of U. S. Senator John S. Spooner, and P. L. Spooner, ex Insurance Commissioner of the State, died here yesterday, aged 76 years.

A Prize Fight. MINNEAPOLIS, Minn., Nov. 4.—Tommy Warren and Patsy O'Leary had a fight last evening in a hack in St. Paul. As a result they have signed articles to fight to a finish on January 5, 1888, London prize ring rules, with small gloves, and for \$1,000 a side. Each put up \$500 for forfeit bond.

To Advance Prices. INDIANAPOLIS, Nov. 4.—The fruit preservers of New York, Philadelphia, Chicago, St. Louis and Indianapolis held a meeting here yesterday to discuss prices, which will no doubt be advanced, as is said the supply of fruit this season was short and of an inferior quality.

John Stillman, the conductor on the train which went through the burned bridge at Chatworth, Ill., dreams of the wreck, and he has not had a good sleep since the accident. He has lost 43 pounds of flesh. He is on a leave of absence from the road to stay as long as he wishes, with orders to look to the company for anything he wants, no matter what it is.

THE ANARCHISTS.—There was a conference of nearly half an hour between Capt. Black, L. S. Oliver, and the seven doomed anarchists in jail in Chicago yesterday. Black is to go to Springfield immediately to intercede for executive clemency, the last hope of the condemned men, which, it is said, with all their former pretended bravado they are now longing for. August Spies, Samuel Fielden and Nicholas Schwab signed a petition this afternoon humbly begging the Governor to commute their sentence. The sheriff has already begun the building of the scaffold. Carpenters are busy working on the pieces which go to make up the machine of death, and it will not be long before the gallows will be ready. This is regarded as significant that the governor will not interfere.

A Boy's Arm Torn Off.—A lad named Peter Kunz had his arm torn off at the elbow in Reuter's shoe factory, in New York, Tuesday. Although he is only fifteen years of age, he was employed in the factory, and the accident occurred while he was putting some belting on machinery. The firm has its place on the third floor, and about twenty girls and lads are at work there. After the accident the boy was allowed to go down the stairs and wander off. Another boy accompanied him carrying the detached arm in a piece of paper. The wounded boy, finally, was taken to Chambers street Hospital where the stump of the arm was amputated.

Take care of your character. Do not be too much concerned for your reputation. Keep the character right and the reputation will give you no trouble. Character is everything—something that cannot be hid from God or man, that cannot be changed as we change a garment; but we carry it with us wherever we go, and by it we are known every day of our life. Agree, earnest, broad, consistent, symmetrical character—what divine glory it reflects, what blessings it confers on the world!—Selected.

The original warrant on which John Bunyan was arrested for the imprisonment during which he wrote the first part of "The Pilgrim's Progress" has recently been found in England. It fills a half sheet of foolscap; is dated March 4, 1674, and in it Bunyan is described as a "Tycker."

The adopted daughter of a Michigan farmer named Henderson confesses that she set fire to his house five times, poisoned his cows because she didn't want to help milk them, and smothered the baby in order to get rid of it.

The Special Agent of the Equitable Life Assurance Society of New York, Mr. H. C. Rigby, states: "That he was cured of a severe case of lumbago by two applications of Salvation Oil."

In Connecticut a gang of tramps killed and ate a farmer's dog that interfered with them.

MONETARY AND COMMERCIAL. There is still a lack of animation in all branches of trade, and prices are generally lower. Money matters are very quiet, and there is yet a great complaint of the scarcity outside the centre. Government bonds are steady but dull. Virginia securities are a shade more active. Railroad securities are dull.

NEW YORK, Nov. 4.—The stock market opened this morning with a strong tone, most stocks being from 1/2 to 3/4 per cent. above the closing prices of yesterday. The early advantage was improved in the first half hour, the list being strong throughout, and several stocks gained small amounts. There was a reaction after that time, but it was for small fractions only, and the market became steady and dull at something better than the opening figures, though at 11 o'clock the rate was rather heavy. Money easy at 3 3/4%.
