

LOCAL NEWS.

WEDNESDAY EVENING, FEBRUARY 12.

For this section colder, westerly wind, fair weather.

THE FARMERS' CONVENTION.—When the GAZETTE's report of the Farmers' Convention closed yesterday evening, Secretary of Agriculture Rusk had just commenced his speech. He advised the farmers to unite for the industry they represented. He said: "We have one million appropriated for agriculture and two millions for one vessel to sail around and look at the rest." He thought the farmers should find out the cause of every disease among cattle, &c., and also the remedy. He said the farmers of Virginia should say to Congress "We want our rights or we will know the reason why."

After the Secretary concluded his short address a recess was taken in order that the members of the convention might take leave of him, as he had to hurry back to Washington.

The second question was then taken up, "Do farmers' wives and daughters receive due consideration for their efforts to make farming successful?"

Mr. Chapin said he was ashamed to speak for the rights of the ladies as the men were not properly asserting their own, but hoped their rights would be properly appreciated.

Col. Beverly spoke in behalf of the ladies and their efforts. He said their efforts were not properly appreciated and he would raise his voice in their behalf, though he did not think they should vote and did not believe they wanted to. He said he wanted the congressional appropriation for the Agricultural Department increased, and then the ladies should receive their share of the benefits.

Mr. E. E. Mason thought the ladies did not want any more "telly," they wanted substantial aid; he thought that ladies who held property should vote.

Col. Daniels also spoke in favor of the recognition of women's services and commended what had been said in reference to more money for circulation and more money for the Agricultural Department.

The president then announced the names of Messrs. C. Lukens, Adam Martin and W. H. Garrett as additional members of the executive committee, after which the convention adjourned.

The meeting was well attended and was a very pleasant and instructive one. Many of the farmers present were accompanied by their wives and daughters, who took a deep interest in the proceedings.

ELECTRICITY.—In Richmond last night the bill recently introduced in the legislature for the prevention of danger from electric currents was discussed by Messrs. Thos. A. Edison, H. P. Brown, Henry Morton, and Hugh R. Garden, all of New York, before a legislative committee. The design of the bill has been represented to be the lessening of danger from electric wires, but the opinion of many has been that its conception only contemplated the adoption of one system and the abolition of others which could not operate under such restrictions as are thereby imposed. The matter affects the electric system in operation here so the Mayor and Council requested the representatives in the legislature from this city to look after the citizens' interests. To-day the Mayor received a telegram from Delegate Hume stating that the Senate committee this morning unanimously reported against the electric tension bill. This will end the matter.

POLICE REPORT.—Last night was cloudy and cool till about 4 o'clock when it became clear. There were three prisoners and three looters at the station house.

The mayor this morning disposed of the following cases: Dennis Patton, colored, arrested by officer Brenner for being drunk and disorderly, was fined \$5 or given 60 days in jail.

Geo. Homer, colored, arrested by officers Betts and Taylor charged with an assault on Georgeanna Day, and Sally Bryant, colored, charged with disorderly conduct, were dismissed with a reprimand.

Don Malby, colored, arrested by officers Davis and McCann for being drunk and disorderly, was fined \$1.50 or given 10 days in jail.

CONFEDERATE REUNION.—Col. W. A. Smead, commander of Lee Camp of this city, to-day received from Col. E. V. White, commander of Clinton Hatcher Camp of Leesburg, an invitation for Lee Camp and all ex-Confederates in this city and vicinity to attend the reunion of Clinton Hatcher Camp to be held in Leesburg on the 25th instant. Addresses will be delivered on the occasion by Gen. Rosser and by Senators Hampton and Butler. The ex-Confederates are promised the warmest reception and most hospitable entertainment, and all are cordially invited to be present. At the banquet to be given at night covers for 500 will be laid. The invitation will be submitted to Lee Camp at a called meeting to be held soon.

THE C. & O. CANAL.—The bill authorizing the Chesapeake and Ohio Canal to lease its property and franchises was reported favorably by the Maryland house committee on ways and means yesterday. The measure, in its terms of lease, is identical with the provisions contained in the bid of the Washington and Cumberland Railroad. The bill authorizes the Chesapeake and Ohio Canal Company to lease its canal and all its works to the Washington and Cumberland Railroad Company and waives and releases all liens of Maryland upon said canal and all its property in favor of said lease.

GRANGERS.—The District Grange of Northern Virginia was to have met in this city to-day, but the meeting had not been held up to 3:30 o'clock. The legislative committee of the Grange was to have appeared before the Agricultural Committee of Congress to-day, and on their return the meeting, it is said, will be held. The members in this city say but little business other than the election of officers and the reception of the legislative committee is to be transacted.

Sight Restored. Mr. A. K. Hawkes: Dear Sir—About one year ago my sight began to fall, with the usual symptoms, viz: after reading for a short time my eyes became confused and there seemed to be a dimness before them, also accompanied with pains in the eye ball. Being satisfied that glasses were imperatively demanded, applied to you for them, and, I am happy to say, with wonderful results, for after having worn your crystalized lenses for a short time my eyes regained their accustomed strength, and I can now read the finest print for hours with perfect ease without glasses.

MONETARY AND COMMERCIAL.

NEW YORK, Feb. 12.—Continuing yesterday afternoon's decline, the stock market opened today 1/4 to 3/4 lower than yesterday's closing prices this morning for the regular list. There was considerable activity in the leading stocks, but the selling movement seemed to have exhausted itself in the first few minutes, as while there were further fractional losses sustained in some stocks, the general list soon rallied and displayed a firm tone throughout the remainder of the hour. At 11 o'clock the market was quiet but firm, generally at small fractions better than the opening figures. Money easy at 3 1/2.

Receipts of Flour are good and the demand fair at current figures. Strictly choice samples of Wheat continue in constant demand, but damaged and common grades are extremely dull; sales consequently show a long range, say from 55 for screenings and tail-ends all the way up to 83 for prime milling Whests. Corn is quiet and without change; car lots 36.38. Bye 43a53. Oats 25a30. Butter, Eggs, Poultry and other produce are steady and firm.

New York Breadstuffs Market. NEW YORK, Feb. 12.—The breadstuffs markets were badly demoralized this morning. There were sellers all around, but Greener & Kneeland, with representatives of foreign houses, were especially anxious to rid themselves of holdings. Wheat by noon had declined 1/4 to 3/4; Corn also had gone off 1/4 to 1/2. An especial feature was the May option trading in Oats, which reached 600,000 bushels at from 27 down to 26 1/2. May Wheat was sold down to 85 1/2, and May Corn at 37 1/2-16. The prolonged indifference of exporters, continued heaviness of the cables and the fact that stocks generally hold in full volume gives uneasiness.
