MEDICINAL.

Many people walk on the very edge of danger all unconsciously. They do not wake up to the truth that the slight symptoms of weakness, which they feel may, at any instant, take a plunge into serious or fatal illness.

Once the "running down" process begins it is speedy and there's no telling how it will end. To stop the loss of vitality and build up your strength and weight to the normal, healthy standard, there is nothing equal to Doctor Pierce's Golden Medical Discovery.

It vitalizes the blood and promotes the rapid production of the life-giving red corpuscles. It promotes perfect digestion; enables the liver to filter all poisonous bilious elements out of the circulation, arrests the formation of morbid deposits in the vital organs and builds up new and healthy tissues.

It has been recognized as the only perfect and radical cure for all bronchial complaints, throat and lung affections, and diseases resulting from impoverished blood.

It was taken ill in February, 1892, with a headache and pain in my back," writes H. Gaddis, Esq., of No. 13 S. J. Street, Tacoma, Wash. "I called in a doctor and he came three times. He said I was bilious, but I kept getting worse. I took a course so that I could not sleep any more being propped in bed. My limbs hurt me and I got so poor that I was just skin and bone. I thought I was going to die, till one day I saw the "Golden Medical Discovery" recommended for a cough. I tried a bottle of it and it did me so much good that I tried another one, and it made me sound and well, so I can recommend it to everybody. It saved my life."

no remedy in the world is equal to Dr. Pierce's Pleasant Pellets, which act naturally and mildly, but never fail to effect a complete and permanent cure. There is no substitute for these "Pellets," no matter what any druggist may say. They regulate and invigorate the Stomach, Liver and Bowels.

Tetter, Salt-Rheum and Eczema. The intense itching and smarting incident to these diseases, is instantly allayed by applying Chamberlain's Eye and Skin Ointment. Many very bad cases have been permanently cured by it. It is equally efficient for itching piles and a favorite remedy for sore nipples, chapped hands, chilblains, frost bites and chronic sore eyes. 25 cts. per box.

MR. CLEVELAND'S SPEECH.

At the bolter's banquet in New York last Saturday night Mr. Cleveland spoke as follows:

We are gathered here to-night as patriotic citizens, anxious to do something toward reinstating the prosperity of our fellow countrymen and protecting the fair fame of our nation against shame and scandal. On every side we are confronted with popular depression and complaint. These are largely due to causes of natural and certain recurrence, as the inevitable accomplishment of all humane endeavor, and perhaps they are as largely due to the work of agitators and demagogues who have busily sowed the seeds of discontent in order that in the harvest they may reap personal advantage. While scattering the seeds of discontent they have also cultivated a growth of sectional and class suspicion and distrust, which threatens to choke or destroy that fraternal feeling which leads to considerate counsel in the day of common misfortune and which is absolutely essential to the success of our plan of government. The fundamental truth that our free institutions offer opportunities to all within their influence for the advancement and improvement of their condition has been so far denied that non-accumulation is called a crime, and the necessity and habit of individual effort and struggle which are the main springs of sturdy Americanism are described as unjustifiable burdens, while unwholesome paternalism is presented in handsome and inviting garb.

This power, born of sordid greed, and maintained by selfish interest and partisan ambition, has at last assumed command, and has largely recruited its waiting forces by inflaming those inclined to the patient with tales of an ancient crime against their rights to be avenged, by encouraging the turbulent with hints of greater license, and by offering to the poor as a smooth road to wealth and to those in debt a plan for easy payment, and to those who from any cause are unfortunate and discouraged as a remedy for all their ills, the free and unlimited and independent coinage of silver at the rate of sixteen to one with a depreciated currency and cheap money.

It was a rude awakening for the negligent and over confident and a day of terror for sober and patriotic men when the bold promoters of this reckless creed captured the organization of a powerful political party, and seizing its banners, should defiance to the astonished conscience and conservatism of the country. The danger of the situation arose from the hasty impulse of those whose misfortunes had been cruelly played upon, and from the enthusiasm of unquestioning thoughtless party fealty. The deliverance came through the action of those who saw the trick and loved the principles of their party too well to follow its stolen banners.

Though the first engagement resulted in the defeat of the combined forces of dangerous and unwholesome policies, a survivor of the field is by no means reassuring. The party placed in power as the result of the splendid democratic patriotism has failed to meet the obligations of the people's trust.

Instead, however, of addressing themselves to this task, the managers and representatives of this victorious party, these professed champions of sound finance have, before the eyes of an expectant people, returned in hot haste to their wallowing in the mire of extreme protection, offending millions of voters by their exhibition of a party's bad faith and disgusting millions more by their unaccounted determination to repay

Something to Depend On. Mr. James Jones, of the drug firm of Jones & Son, Cowden Hill, in speaking Dr. King's New Discovery, says that last winter his wife was attacked with La Grippe, and her case grew so serious that physicians at Cowden and Pana could do nothing for her. It seemed to develop into Hasty Consumption. Having Dr. King's New Discovery in store, and selling lots of it, he took a bottle home, and to the surprise of all she began to get better from first dose, and half dozen dollar bottles cured her sound and well. Dr. King's New Discovery for Consumption, Coughs and Colds is guaranteed to do this good work. Try it. Free trial bottles at E. L. Allen's Drug Store.

When you are suffering from Catarrh of the head you want relief right away, only 10 cents is required to test it. Ask your druggist for the trial size of Ely's Cream Balm, or buy the 50c size. We mail it. ELY BROTHERS, 65 Warren Street, New York City.

I was well with catarrh last autumn. During the month of October I could neither taste nor smell, and could hear but little Ely's Cream Balm cured it.—Marcus George Shantz, Fairway, N. J.

For Over Fifty Years. AN OLD AND WELL-TRIED REMEDY.—Mrs Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhea. Is pleasant to the taste. Sold by Druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Restore and ask for Mrs. Winslow's Soothing Syrup and take no other kind. jan17 4d&wly

partisan support from the proceeds of increased burdens of taxation placed upon those already overladen. In the meantime the allied forces of calamity, encouraged by the malign conditions, are still active and aggressive. They confidently speak of the encounter in which they failed of success, as only the first battle and gladly hail every outward incident and every aided pretext for passion and resentment as new and welcome allies in the continuance of their crusade.

They are unwillingly wick-d and stupid who believe that disaster awaits upon the acquiescence of those forces and yet turn away from the plain evidence of their dangerous strength. I began by saying that this was an assemblage for patriotic purposes. I hope my sympathy with its high aims and disinterested efforts will not be suspected when I confess that I have brought here a sturdy partisanship and a devoted interest to the principles of true democracy. I should, however, not be here to make this declaration if by partisanship means adherence to a party organization merely for the purpose of compassing government control and the distribution of the spoils of party victory among greedy claimants.

The partisanship I mentioned means the support of certain principles and theories of government and a co-operation and association in political effort and activity with others who believe in the same theories and principles for the purpose of accomplishing their practical application and enforcement. Out of such an association grows party discipline and organization. The limits of their proper operation are easily fixed, and it is an impeachment of the intelligence of the members of any political association to say that party management and discipline should at all times command implicit obedience, even when such obedience leads to the abandonment or radical perversion of party principle.

Mr. Cleveland then explained at length his meaning of the term "true democracy," and spoke of the achievements of the democratic party. "True democracy," he said, "enjoins the utmost personal liberty consistent with peace and order. It defends the humblest against oppressive exactions in his home and invites him to the utmost enjoyment of the fruits of industry, economy and thrift; and in his interest, and the interests of all where all are equal, true democracy denies that in the American scheme of equality before the law there is a limit beyond which the legitimate results and accumulation of effort and enterprise should be denounced as intrinsically criminal and their possessors be treated as proper subjects of governmental discrimination and condemnation. The people whom true democracy would serve are all the people of the land. Those whom it would restrain are on the one hand the vicious and turbulent, who defy the laws, and on the other hand those who with conscious greed and in abuse of their opportunity, wrongfully oppress their fellows and eat out their substance. Above all things, true democracy insists that the money of the people should be sound and stable, neither shriveling in purchasing power in the hands of the poor nor by its uncertain value driving enterprise and productive energy into hiding. Those who believe that a crisis is at hand can hardly fail to see that the party in power is so joined to its idol of mad protection and is so completely doomed to popular condemnation that it is a useless instrument of defense against the impending peril.

I do not fear that I shall be accused of sinister designs, united to the atmosphere of this occasion, if I insist that the path of duty and the best hope of safety lie in an immediate and earnest attempt to accomplish the rehabilitation and regeneration of true democracy. In a large part of the country where financial error is most general, the name democracy can best arouse the political sentiments of the people, and there, as everywhere in our land, the people can be trusted to arrive at a correct conclusion if they have adequate opportunity for examination and information. Let us devise means to break through the influence of the mischievous leadership that surround them and, without arrogantly assuming that no rights or hardships will befall them and that no reform in their conditions are needed, let us meet our countrymen face to face in argument and counsel. Let true democrats meet the passion and bitterness of their former associates who have assumed the leadership of anti-democratic wanderings with fine expostulations, reminding them that democratic convictions and democratic consciences cannot be forced to follow false lights, however held aloft; and let us, at the same time, attract them in the name of honorable political comradeship and in the memory of glorious victories won by a united democracy to turn from the way that leads to party defeat and destruction.

The task is not an easy one, but surely it is not hopeless. The better we appreciate its magnitude the less will be the danger of ineffective and misguided effort. The work has already been inaugurated by the creation of an organization founded upon the declaration of democratic principles so sound, so clear and so patriotic that they should rally to their support every true democrat and supply an inspiration forbidding defeat. With such a beginning and with the incentive to zealous effort which the transcendent importance of our cause affords, we should carefully look for the approaching dawn when true democracy, redeemed, regenerated and disenthralled, will bring us peace and national safety. But if relief under the restored flag of true democracy is late in coming we will not despair, but will remember that a just cause was never lost, and on our camping ground we will work and wait with approving conscience and constant faith, declaring like the sturdy old unerring German reformers, "Here we stand, we cannot do otherwise—God help us!"

NO DINGLEY TARIFF

ON OUR

Matting.

We have opened the finest and largest line of desirable matting we have ever shown. The Dingley bill places a tariff of 8c per yard and 30 per cent. advance duty on matting. This would make a \$5 matting cost the consumer just \$4 more than at present. While this excessive duty may not prevail, it is a well ascertained fact that all classes of matting will be materially increased in value in the next two months. For this reason we have laid in a large stock at lowest prices and will sell our matting as low or lower than they have heretofore been offered.

We have many other articles in large supply that will be materially advanced under the new tariff. We shall continue to sell while in stock our 48-inch French Serge, blue and black, at 49c. These goods will be worth fully 75c under the new law.
