CITY COUNCIL.

At the request of the chairman of the committee on streets and of the City Engineer the Mayor called a special meeting of the City Council last night. Only eleven members of the Common Council and five members of the Board of Aldermen being present, no new business could be transacted, but the two boards, though late in assembling, remained in session for some time.

BOARD OF ALDERMEN.

Called meetings of the Board of Aldermen as a general thing are not well attended by the members of that body, and last night's meeting did not prove an exception to this rule, as the messenger was kept quite busy looking for the fifth member, in order that a quorum should be present to transact business.

Mr. Hinken, from the committee on light, presented a report from said committee, which unanimously agreed to recommend to the City Council a reduction in the price of gas to \$1.10 per thousand feet for power, heat and cooking purposes.

When the resolution directing that the work of repaving Prince street between St. Asaph and Pitt be done out of the appropriation for the street repair fund came in from the lower board it met with some opposition, and at one time it looked as if this board would non-concur in the action of the lower board.

Mr. Hinken said that he would vote against the measure on the ground that Council had not been consulted in the matter. "The right thing to do," continued the speaker, "is to stop such a move as this on the spot."

Before this work was commenced the committee on streets and City Engineer should have come to Council and gotten permission. He intended to vote against it solely on that ground.

Mr. Havens said that the committee and the City Engineer had made a mistake, but inasmuch as the work had been commenced he thought it best to overlook it this time, as the square was badly in need of repairs. He then appealed to Mr. Hinken to withdraw his objection.

Mr. Curtin said the reason he voted for the improvement in the committee was upon the recommendation of the City Engineer. The work of improvement was certainly needed on the square.

After further consideration Mr. Hinken stated that he would withdraw his objection in this case, but in future he would vote against any measure that was not presented in the regular and lawful manner to Council.

The action of the lower board was then concurred in. After concurring in the action of the lower board in several minor matters the board then adjourned.

COMMON COUNCIL.

It was half past eight o'clock before a quorum appeared at the called meeting of the council last night. Mr. L. E. Usher was called to the chair.

The chair said that as less than twelve members were present no new business could be transacted. After a number of petitions mentioned in the official proceedings had been referred,

A communication from the Auditor announcing that the appropriation for the repairs on Washington, Columbus and Wolfe streets was exhausted was read.

Mr. Kelley asked if it was proper for the Auditor to wait until an appropriation is exhausted before making a report to Council.

Mr. Usher said this was the common custom. The committee on streets reported in favor of an appropriation of \$900 for graveling the centre of Lee street from Prince to Wilkes and the report was adopted without debate except that Mr. Moore suggested that there be no change in grade.

When a communication from the Board of Health suggesting new gutters on Pendleton, Alfred and Patrick streets was read,

Mr. Moore asked who was to pay for the work. The chair—The city pays it.

Mr. Moore—I would like the gutter in front of my house to be paved in this way. The chair said that the city was obliged to do this work unless special benefits could be shown and then it might be charged to the property holder.

The subject was referred to the committee on streets. A lengthy argument was precipitated by the statement of the chairman of the committee on streets, Mr. Smith, that the Auditor had stated that he would refuse to draw warrants to pay for the repaving of Prince street, between Pitt and St. Asaph streets, out of a previous appropriation of \$2,500 for repairs to streets.

Mr. Usher, who was in the chair explained that the Auditor would not refuse to draw the warrants if the property rolls were made out for repairs. A resolution directing that the work of repaving Prince street, between St. Asaph and Pitt, be done and charged to the appropriation for the repair of streets, was presented.

After some discussion as to whether this could be passed by less than 12 votes, Mr. Smith thought that, as this work had been ordered by the committee on streets, it had become part of the contracts of the city, and a resolution declaring out of what fund it should be paid could be adopted by less than a two-thirds vote.

Mr. Usher said that the auditor refused to draw warrant for the work on Prince street as "new work," but if reported as repair work he would issue the warrant.

Mr. C. N. Moore asked if in these cases the property owners were not bound to pay part of the cost. The chair said that if it were a new pavement the owners must contribute, but if it were repair work then the whole expense must be borne by the city.

The chair held 12 votes were needed to pass the resolution. Mr. Green appealed from the decision of the chair and the appeal was sustained by a vote of 5 to 4. So that Council decided that less than 12 votes could pass the resolution.

Mr. Strider suggested that the laying down of 300 feet of new pavement on the length of Prince street was no more new work than the laying down of 25 feet.

Mr. Trimmer was willing to vote for the appropriation, but he had already voted to sustain the chair in denying the right to pass the appropriation by less than twelve votes.

Mr. Smith suggested that the street committee or the engineer had made a contract for the Prince-street work, and if the Auditor refused to issue his warrant a mandamus could be gotten to

LOCAL BREVITIES.

Belle Haven Council, Knights of Honor, has received a draft for \$2,000, the amount of the benefit held by the late R. H. Moore, and payable to his widow.

The wharf being built by Mr. D. W. Aitchison between Prince and Duke streets is being pushed rapidly to completion. It will be one of the best wharves on the river front.

A colored woman prisoner while being driven to the work house yesterday by Officer Sherwood was thrown from the cart by one of the wheels striking against a rock.

A sensationalist this morning started a report that a resident of the southern part of the city who had recently returned from the South was sick with yellow fever. The report was short lived.

Messrs. J. A. Marshall & Bro., of 422 King street, have awarded a contract for a new front to their shoe store. The old windows will be removed and replaced by handsome plate glass, the vestibule will be tiled and when completed the store will be the handsomest shoe store in the city.

During the remodeling of the store the firm offers some choice bargains in boots, shoes and clothing. See advertisement in another column.

Messrs. Wythe White and Graham Hill were both quite badly injured last night while bicycle riding on Mount Vernon avenue, in the county. The two gentlemen were riding at a good speed on a down grade, when without warning their wheels were struck by a team coming from the opposite direction. They were thrown violently to the ground, but escaped with a few painful injuries and broken wheels.

Later they received medical attention in this city. The trial of Silas S. Daish, a well-known feed dealer of Washington, charged by Miss Estelle Sherwood with assault, was held before the Police Court in this city yesterday.

Miss Sherwood testified that Mr. Daish called her "Dear" and "Darling" on many occasions and had several times uttered improper remarks to her. She said that Daish's actions toward her had made her sick and she was compelled to leave her employment with him. The mother of the girl also gave damaging testimony against Mr. Daish. The defendant made a counsel defense of the charge and said that it was a case of blackmail. The case was finished, but no verdict rendered.

Mayor Simpson thinks that one of the most important questions of municipal administration to arise in the near future will be whether a change of policy in relation to the city light works should be adopted. The electric plant will soon need a very considerable expenditure to maintain its efficiency, the gas-light plant, formerly quite profitable, turning five or six thousand dollars a year into the city treasury, has ceased to be a source of profit, and a lease or sale of the works to a company has been talked of. The mayor says the plan favors with many conservative citizens.

Mr. D. W. Delaney, of this city, has discovered that his farm in Prince William county, has gold upon it. He brought with him from a recent visit to his farm several nuggets, which he stated he secured from one "pan" in a cornfield on the farm.

A meeting of the W. O. T. U. will be held on Monday in the M. E. Church South at 3 p. m. As this will be last meeting of the Union before the meeting of the annual convention in Danville it is highly important that every member should be present.

The composite steamer, which William E. Woodall & Co. are building for the Randal Steamboat Company, for use on the Potomac river, now has her steel frames in position. The boat is to be 125 feet long.

The mercury at 6 o'clock this morning registered 52°. ANOTHER LABEL.—Still another label was filed in Washington yesterday against the steamboats Chas. Macales and River Queen, the property of the unfortunate Mount Vernon and Marshall Hall Steamboat Company.
