DEATH OF AN OLD CITIZEN.—Mr. B. F. Dudley, an old, well-known and much respected citizen, died at his home in this city last night. The deceased was in the 76th year of his age. Mr. Dudley had been in failing health for some time, and several months ago he was stricken with paralysis, which proved to be the beginning of the end, as he weakened from day to day until last night, when death overtook him. He leaves three grown children. Mr. Dudley in his early days learned the carpentering trade, an occupation he followed until advancing years compelled him to relinquish it. Throughout the greater portion of his life he had been an active and consistent member of the M. E. Church South. He was a close Bible student and threw nearly all his mental powers into the channel of scriptural study and spiritual discipline, and he was ever welcome in the company of intelligent Christians and the thoughtful and studious. Over a third of a century ago Mr. Dudley was the Elihu (younger) of a group of gentlemen prominent in conducting class and revival meetings in this city—especially at the Village Chapel, on Gibson street. William Atwell, George W. Clifford, William Nowland, James Grigg, John Howell and others, most of them then in the patriarchal age, have long since been gathered to their fathers; and now the subject of this notice also, an old man and full of years, has laid aside the pilgrim's staff and paid the debt of nature.

R., recently erected short distance north of the present stop known as "Spring Park," will be open for public use. This station will then be known as "Spring Park" and all trains will stop at this station which formerly stopped on King street extended, which latter stop will be abolished after today.

A Prominent Chicago Woman Speaks.

Prof. Roxa Tyler, of Chicago, Vice-President Illinois Women's Alliance, in speaking of Chamberlain's Cough Remedy, says: "I suffered with a severe cold the winter which threatened to run into pneumonia. I tried different remedies but I seemed to grow worse and the medicine upset my stomach. A friend advised me to try Chamberlain's Cough Remedy and I found it was pleasant to take and it relieved me at once. I am now entirely recovered, saved a doctor's bill, time and suffering, and I will never be without this splendid medicine again." For sale by Richard Gibson, druggist.

Peppin preparations often fail to relieve indigestion because they can digest only albuminous foods. There is one preparation that digests all classes of food, and that is Kodol Dyspepsia Cure. It cures the worst cases of indigestion and gives instant relief, for it digests what you eat.

SOMETHING NEW FOR GIRLS & BOYS

During the past year "St. Nicholas" Magazine, which has been for nearly thirty years the leading children's monthly magazine of the world (and now the only one), has introduced several new departments which have been extremely attractive and have greatly increased the circulation. One of these is "NATURE AND SCIENCE."

The editor of "Nature and Science" gives careful attention to every question asked by his young readers. The department contains interesting short articles, beautifully illustrated, telling of four-footed animals, birds, insects, water animals, plants and whatever pertains to Nature.

"ST. NICHOLAS LEAGUE" is an organization of those who read the magazine without dues, and it offers prizes each month for the best drawings, photographs, poems, stories, puzzles and puzzle answers.

No one who does not read "St. Nicholas" can realize what an interesting magazine it is, and how exquisitely it is illustrated. Of literature it contains the choicest, and in art it has never been surpassed by any young folks' periodical. The new volume begins with November, 1900, and the subscription price is \$3 a year.
