FIRE ALARM.—About half past nine o'clock last night a stable belonging to Mr. James B. Fitzgerald, in the square bounded by Duke, Wolfe, Henry and Patrick streets, was found to be on fire. An alarm was sounded, but the department did not go into service, as neighbors extinguished the flames before the engines reached the scene. The damage was slight. The origin of the fire is unknown.

It is a fine children's remedy for croup and never fails to cure." When given as soon as the child becomes hoarse, or even after the croupy cough has developed, it will prevent the attack. This should be borne in mind and a bottle of the Cough Remedy kept at hand ready for instant use as soon as these symptoms appear. For sale by Richard Gibson, druggist.

CONGRESSIONAL.—The Senate yesterday evening began consideration of the ship subsidy bill, Mr. Fry, chairman of the committee on commerce, making a technical argument in its favor. Among the bills passed was one to amend an act of May 12, 1900, authorizing the Commissioner of Internal Revenue to collect or make allowance for internal revenue stamps. The bill was amended so as to read: "That no claim for the redemption of or allowance for stamps shall be allowed unless presented within two years after the purchase of said stamps from the government, excepting unused documentary and proprietary stamps issued under the act of June 13, 1898, which stamps may be redeemed upon presentation within two years after the passage of this act."

The House began the consideration of the bill to classify the rural free delivery service and place the carriers under the contract system. Only two speeches were delivered. Mr. Loud, chairman of the committee on Post-offices and Post Roads, made the opening argument in favor of the bill. Mr. Swanson, of Virginia, led the opposition. The debate was interrupted before the close of the session by the presentation of the conference report upon the Philippine tariff bill. Mr. Payne declined to allow the minority more than thirty minutes in which to discuss the report, and this offer was rejected. A filibuster followed and the House adjourned after the previous question upon the adoption of the report had been ordered.

LOS BY THE FLOOD.—Though in many parts of the country the floods are beginning to subside, the situation continues critical along some of the largest rivers. The total loss of life is estimated at about 50. The Chesapeake and Ohio canal has sustained serious damage. Along the upper Susquehanna traffic is blocked and hundreds of houses are flooded. In western North Carolina many towns have been cut off entirely since last Thursday. Throughout New York and New England there is great damage. At Paterson, N. J., the loss is estimated at millions of dollars and more persons are rendered homeless than by the recent great fire. The floods, while abating in Pennsylvania, are still causing great havoc in New York State, New Jersey and New England. Four passenger trains were caught in the flood from the Hudson river on the New York Central Railroad yesterday but the passengers were rescued after an exciting experience.

The water in the James and Rappahannock rivers are rapidly assuming their normal condition. The work of repairing railroad property damaged by the recent floods is being rapidly prosecuted and trains on most of the Virginia railroads are running again as usual.
