FROM WASHINGTON.

The bill temporarily to provide for the administration of the affairs of civil government in the Philippines upon which the Senate will vote at 4 o'clock this afternoon, is an original measure and has yet to be approved by the House. Among its provisions are the following: It approves the creation of the Philippine commission and continues it as the Government of the Islands. The bill of civil rights is extended to the people of the Philippines with the sole exceptions of the right to bear arms and the right of trial by jury.

John B. Contee, a prominent lawyer of Upper Marlboro, Md., died at the residence of his brother, Henry Contee, near Woodville, Prince George county, Saturday night after an illness of but one day.

One steamer and seven schooners arrived at Baltimore, from the Bahamas yesterday, bringing 51,661 dozens, or 619,932 single, pineapples. This beats the entrance at the Custom House on May 19 and 20, when 33,500 dozen, or 402,000 single, pineapples were received.

Representative Jenkins introduced in the House yesterday a bill to prevent the use of houses, rooms or tenements in Washington for immoral purposes, and the owner or owners of such houses, rooms or tenements who rent them for such purposes, are to be subject to a fine of not less than \$50 nor more than \$100 for each and every offense.

The Supreme Court decided yesterday that a State had the right to exclude a steamer load of immigrants to the purpose of its quarantine regulations; also that the interests commerce commission did not have the right to reduce terminal charges; also that the bankruptcy law was uniform in its provisions, and, therefore, valid; and also the Washington telephone cases back to the District Court.

The Oregon election returns obtainable last night, with a badly scratched ticket of large proportions being slowly counted, indicate the re-election of Congressman Tongue in the First district and of J. N. Williams, republican, in the Second district; the election of Geo. H. Williams, republican, as Mayor of Portland, by a small majority, a mixed Legislative ticket, with a probable working majority for the republicans and a close vote on the Governor.

CONGRESSIONAL.

SENATE.

Little interest was manifested in the Senate debate on the Philippine government bill yesterday under the fifteen minute rule, as stated in the Gazette. Mr. Mason, of Illinois, in a vigorous speech differed from the majority in the treatment proposed for the Philippines. He urged that no reason existed for according to that accord a different treatment than that accorded to Cuba, and strongly advised that they be afforded a chance to exercise the right to govern themselves. He said he would not have voted for the Paris treaty but for the open understanding among Senators that the Philippines were to be given their independence as soon as they were ready for it.

HOUSE.

In the House special orders were adopted for the consideration of the anti-anarchy bill and the bill to transfer certain forest reserves to the agricultural department. The House bill to encourage salmon culture in Alaska was defeated on motion to pass it under suspension of the rules.

UNION DEPOT BILL REPORT.—Gen. Gillespie, chief of engineers, returned yesterday to the House District committee the Senate bill for a union depot in Washington. Nothing is said about the tunnel under Capitol Hill, which is one of the matters on which the committee much desired a statement from the War Department. Secretary Root, in transmitting the report from Gen. Gillespie, remarks that about the only thing the department is interested in are improvements to public buildings and grounds, involved in moving the depot from the Mall and the reservation of a sufficient space in front of the new depot for the massing and movement of military escorts on state occasions. Gen. Gillespie's report says: So far as the parks are concerned, no objection is seen to the passage of the proposed measure, but before favorable action is taken thereon adequate provision should be inserted for the protection of the water supply mains and for the execution of the work under the supervision of the officer in charge of the Washington aqueduct at all points where the interests of the aqueduct or any portion of its water mains are concerned.

THE COAL STRIKE.—The order of the United Mineworkers of America, calling out on strike all engineers, firemen and pumpmen employed at collieries where the eight-hour workday with present wages was not granted, went into effect yesterday, and, as has been predicted, a majority of the men obeyed the order. Neither side can claim a victory at this time because the struggle on this phase of the anthracite coal miners' strike has just opened. There was only a partial showing of strength or weakness. The real test of whether or not the mine pumps that the Washington aqueduct at all points where the interests of the aqueduct or any portion of its water mains are concerned.

THE CHICAGO STRIKERS.—Riot and bloodshed marked the progress of the teamsters' strike in Chicago yesterday. There were numerous fights between the police and the strikers and their sympathizers. Street car traffic was stopped while the fighting went on. The police and employees of the packing companies were stoned, and at one place when surrounded by a dense crowd of men and women, the police, fifty strong, under the command of Lieut. Collins, maddened by the numerous stones with which they had been pelted, drew their revolvers and charged full into the crowd, which showed no disposition to retreat. Fat, stones, and clubs were brought into requisition by the strikers, and the police used their batons and the butt ends of their revolvers freely. When the fight was over there were a number of strikers needing surgical attendance. None was dangerously injured as far as known, however, and the wounded strikers were carried off by their friends.

THE TARIFF.—A conference was held at the White House last night. The subjects under discussion were pending legislation and its relation to the coming campaign. The chief reason for the assemblage was the tariff, the discussion turning on the advisability of attempting any revision now or of taking up the matter in committee during the recess of Congress with a view to presenting a measure at the short session of the next present. The tariff was the only subject of the day. After using many remedies, I tried DeWitt's Kidney and Bladder Pills. A few boxes healed the sore. Cures all skin diseases. Piles yield to it at once. Beware of counterfeits. For sale by E. S. Leadbeater & Sons.

The church, which is of brick, will comfortably seat 800 persons.

CONSTITUTIONAL CONVENTION.

The constitutional convention held a double session yesterday, and disposed of a large part of the final revision of the new constitution without material amendment.

A few changes, other than typographical ones, were made yesterday. The judiciary articles was so amended as to provide that city courts, hereafter created, shall be called corporations rather than justices courts. The matter of the selection of registration boards was left with the final revision committee.

The articles on judiciary, court by government, education, public institutions, prisons, and corporations, were disposed of. The article on taxation was under consideration at adjournment.

The committee on final revision in the afternoon authorized a special committee to advertise for bids for the engineering of the new instrument. It will likely be printed in script, as the actual engrossment would be both costly and slow. Major Anderson, chairman of the final revision committee, said yesterday he thought final adjournment might be reached by Friday of this week.

Cadone and Juan Torres, accused of murder and outrage, committed in the fall of 1893, near Adjuntas, were garroted at Ponce today, all within an hour. Later one of this duo refused to have his head covered by the black cloth and a 15 minute struggle ensued before he was subdued. He wanted to die with his face free. FIFTY-SEVENTH CONGRESS.

Washington, D. C., June 3. SENATE. This, the last day of the battle on the Philippine civil government bill, found nearly a dozen Senators in their seats under the avert fall at 11 o'clock. Under the previous agreement the votes upon the bill and pending amendments will be taken at 4 o'clock, the debate up to that time being conducted under the fifteen minute rule.

Without debate the Senate concurred in the House resolution, thanking Secretary Hay for the delivery of the McKinley memorial address.

When the Philippine bill was taken up, Mr. McLaughlin led in a defense of the army but a denunciation of alleged atrocities by individual members of the army.

Mr. Berry denounced President Roosevelt for making a speech on memorial day of such alleged partisan character that it could have no other end than to rekindle the bitter passion of the civil war days.

Mr. Culberson created a sensation by having read the copy of charges filed in the War Department by Priv. Andrew J. Weir against a lieutenant Arnold and Sergeant Edwards which the Senator had been vainly trying to officially secure from the War Department.

Mr. Lodge, Mr. Beveridge, and Mr. Allison vainly endeavored to elicit from Mr. Culberson the copies of the charges were secured.

Mr. Beveridge even went so far as to ask whether the copies were furnished by General Miles.

"And I insist again that the question of the Senator from Indiana is important," replied Mr. Culberson.

Mr. Scott made an appeal for the army.

After the adoption of a committee amendment to prevent a diminution of the powers of the Supreme Court of the Island, the Senate at 1:25 o'clock took a recess until 2:30 o'clock.

At 2:30 o'clock a further recess was taken until 3 o'clock.

Mr. Carmack then took the floor in further denunciation of the alleged atrocities in the Philippines. He was frequently interrupted by Mr. Beveridge and Mr. Dietrich.

The vote on the Philippine bill had not been taken at 4:30 o'clock.

Following the reading of the conference report on the river and harbor bill and a general discussion of the provisions of the bill, Mr. Burton asked for the previous question. It was ordered and the report was adopted, without opposition.

The House, then, in committee of the whole began consideration of the "anti-anarchy" bill, for the protection of the President.

This bill under consideration is a substitute for the bill that passed the Senate and was prepared by the House committee on the judiciary.

Mr. Ray, chairman of that committee, explained the provisions of the bill and stated the needs of such legislation.

Incomplete returns this morning indicate the election yesterday of George E. Chamberlain, democrat, as governor of Oregon. With this exception the entire republican ticket is elected. Tongue and Williams, both republicans, are elected to Congress. The legislature which elects a Senator will be republican. H. Williams, General Grant's Attorney General, was elected Mayor of Portland.
